GRAND OPENING AND FIRST SHOWING OF FALL AND WINTER FASHIONS

OCT.
1-2

We extend a hearty invitation to all expectant shoppers to call and inspect our splendid displays of new and approved styles for fall and winter wear. We ask you to come and see how liberally we have prepared of all that is choicest and best; how we are fulfilling our promise to give you a really helpful store. Here you will find the most comprehensive exhibits, portraying all the recent style changes in Cloaks, Suits and Skirts. Our Garment Department is replete with fashion ideas for all those who are eager to gather new hints of fall apparelings. We hazard a guess that qualities, styles and prices will be found very much to your liking.

The new WOOLTEX Styles are here---the leaders in women's fashions, the highest art in the perfection of dress, the expression of most exclusive ideas as announced in the great fashion centers. WOOLTEX means simply Paris and New York styles at local prices. FIT, FABRIC, FASHION, FINISH, these are the points so ably joined and adapted to give you garments that Look Right, Fit Right, Wear Right, and Stay Right. The WOOLTEX label insures no fading, no shrinking, no shoddy materials, because all WOOLTEX fabrics are "acid-tested"---that is your protection against flimsy fabrics.

We are exclusive agents for WOOLTEX garments for Waverly, Sayre and Athens. High class goods demand first class representation; that's why they are shown exclusively by us. When you buy a garment here it will be as you want it: exclusive and distinct from those shown by the small stores in this valley. The style leaders are Marchioness and Belmore. May we show them to you?
