## MAY ORGANIZE FAIR ASSOCIATION

Project Is Being Seriously Agitated Among the Local Business Men

From present indications there is a strong probability of a fair association being organized in Sayre, and if the present plans which are said to be well under way do not miscarry, in another year the people of this section of Bradford may have the opportunity of witnessing a first-class exhibition. For some time shrewd business men have been considering the advisability of organizing an association of this character, as it is believed that it will be a paying investment and also be the means of extensively advertising Sayre abroad. Recently there has been considerable talk concerning the matter and various plans have been suggested. The plan which is looked upon as being the most feasible, and which has the endorsement of several local business men, is to organize a stock company, with sufficient capital to erect buildings and provide other necessary equipment. The organization of the company and procuring the capital the promoters say will be the easiest part of the scheme. A suitable site will not be as easily secured. It has been suggested, however, that land suitable for the purpose could be secured on the plains west of Sayre which could be reached by trolley. This feature of the project will be looked into immediately and if a site can be secured with little difficulty, the organization of the company will follow.

The promoters insist that a first-class fair can be conducted here each year. In fact it is asserted preparations can be made for one which will equal if not excel any held in the state. Sayre has the railroad facilities, and other natural resources which would attract thousands here at fair time. The dates could be arranged in such a manner as to get horsemen to come here with but little difficulty. Time was when this valley was looked upon with favor by men who owned trotting stock, and it is asserted that if a first-class track was made a part of the fair grounds it would be no trouble whatever to get them to renew their interest here. The progress of the scheme will be watched with interest.

### POLICE OFFICER ASSAULTED

Charles Garabino, the Italian police officer of Elmira, and well known to the police officials of this valley as a shrewd, honest officer, was viciously assaulted by a fellow countryman at Elmira yesterday. Garabino served a subpoena on an Italian in a saloon, when an Italian named Liechens, who is said to reside at Corning, without warning sprang at Garabino, and in the mixup which followed, fastened his teeth on the officer's middle finger on the right hand, tearing all the flesh from the bone. He also tore a large portion of the flesh from the officer's hand. Liechens has been placed under arrest, charged with mayhem. The crime is a serious one and in New York state is punishable by 10 to 15 years in prison.

### SIMON RETURNS

Simon Glaser has been to North Fair Haven during the week on a fishing trip. Simon returned last night and this morning told a Record representative that he caught 12 large fish. When he was questioned further, however, Simon admitted that the majority of the fish were hooked by a man whom he had employed to operate the boat. Attorney C. C. Yocum, who accompanied Simon, did not return home as yet. He caught a large 15-pounder yesterday and was so elated with his success that it is doubtful if he returns until cold weather drives him in.

### HEARST NOMINATED

## JOHNSON SECURES LARGE CONTRACT

Will Erect a \$200,000 Building for American LaFrance Engine Company at Elmira

Yesterday afternoon F. H. Johnson of this place, signed a contract with the American LaFrance Company of Elmira, for the erection of nine buildings, the largest of which will be 550 feet long, with an L 135 feet long, and 60 feet wide. The building is to be three stories high and will be constructed of concrete. The remainder of the buildings are considerably smaller, but the entire job calls for an expenditure of \$200,000.

Notwithstanding Mr. Johnson has handled many large contracts this is considered by him the largest he has yet attempted. According to estimates he has made it will require about 1,200 carloads of material, and the labor of a large number of men.

Mr. Johnson will commence work on the contract at once and expects to have the work well under way before winter begins.

Sayre people generally will be more than pleased that Mr. Johnson has secured the contract. For a long time he has been known as one of the best of the larger contractors in this section. His work has given excellent satisfaction and when he has completed a job it will stand the test of criticism.

### "THE CHOIR SINGER"

Much interest has been aroused in New York and other large eastern cities by the recent production of "The Choir Singer," a refined comedy drama containing a number of novel features. This latest of the season's successes will furnish the attraction at the Loomis tomorrow night. An unusual innovation in plays of this class is introduced in "The Choir Singer," the new departure being the rendering of many attractive songs and other musical numbers by members of the company, thus insuring an evening's entertainment by extraordinary variety. Scenically, the play is most elaborately mounted, and the company representing it carefully selected.

### "THE MAN ON THE BOX"

Manager Watrous of the Loomis is glad to announce that the greatest comedy success of the season in New York will be seen at the opera house next Wednesday evening. This attraction is Mr. Henry E. Dixey in "The Man on the Box," in which he was seen for 123 nights at the Madison Square theatre and 81 at the Lyric, New York, a total of 204 nights. His play is a dramatization of Harold MacGrath's famous novel, and its manager, Walter N. Lawrence, promises that every member of Mr. Dixey's supporting company will be exactly the same as that seen at the New York engagement.

### COSTLY WRECK

The Lehigh sustained a \$10,000 wreck near Catsauqua on Tuesday night. A target was set against a fast freight in order to allow a local shifter to pass. The air brakes on the engine drawing the freight refused to work, and the train was ditched. The locomotive fell on its side and was practically ruined. A carload of stock was released by the wreck. Engineer John Shafer of Easton, was dug out of the debris. He was uninjured.
