Justice of the Peace W. T. Carey, has moved his office from the Maney & Page block to Room No. 5 in the M. P. A. building on Lockhart street. Office open all day and until 9 o'clock at night.

COUNCIL DISCUSSED TOWN HALL PROJECT

Real Lively Meeting Was Held by Sayre's City Fathers Last Evening

A special meeting of the borough council was held last evening, every member except DeBell being present. The meeting was called to order by the president at 7:30, and the first question to come up for consideration was the construction of a town hall. Mr. West, chairman of the committee having the matter in charge, stated that the plans and specifications for the construction of a frame building had been prepared and were ready for the inspection of the council; the cost of preparing the plans and specifications, and all other necessary details, was \$500, about \$200 less than the usual charge for a building of the cost of this one, and that the specifications for a fireproof building would cost \$75 additional. He stated that the plans had been submitted to two local contractors, who pronounced them very complete and satisfactory.

Before bonds can be issued to raise the necessary money to build the hall the matter must be submitted to the people to be voted upon, and Councilman West suggested that the question be submitted to raise the sum of \$25,000 for municipal improvements, and that it be voted upon at the November election.

Councilman Evans asked whether the plans and specifications had been submitted to the borough attorney and his opinion obtained as to their legality. He said that the building could not be erected during the winter, that it would have to wait until spring, that there was no need for hurry, and the matter could go over to the February election and be submitted to the people at that time. Councilman Samuels thought that the resolution to submit the matter could be voted on at that meeting and then it could be advertised and voted on at the November election; the constructive work could then be hastened. Evans wanted to know whether there was a man in the house who could draft a resolution for submission that would be legal. He said that it was a very particular thing to do, would take considerable time, and that it should be done by the attorney. The attorney was not present, and this led to the inquiry as to why he was not there. President Lacey said that the meeting had been called for last night to suit the convenience of the attorney and that he should have been in attendance with the necessary papers. Several other members also expressed themselves rather strongly on the matter of the absence of the attorney, and said that his dilatory tactics led to a great deal of unnecessary delay that would not occur if he were more attentive to his duties.

Burgess Cross asked the privilege of the floor, and stated that there seemed to be a prevailing spirit of discord among the members; that it was not right or fair to the taxpayers; that they had a right to expect their representatives to accomplish some necessary work and quit wasting time in unnecessary talk and controversy; that it was not necessary to wait until Spring to commence work on the town hall, but that it could be done this winter.

Mr. Evans again took the floor and reiterated his former statements, adding that he did not intend to be caught napping again, but would be satisfied of the legality of a proposition before he gave it his sanction. He cited the sewer matter as an example of illegal procedure. President Lacey reminded him that the sewer matter was not then under discussion but that the board was considering the proposition of building a town hall. Mr. Evans replied that he was only using the sewer as an illustration, and that it was a matter that left a bad taste in his mouth. Councilman Samuels moved that the borough attorney be instructed to frame the necessary papers and submit them at a meeting to be held next Friday night.

Mr. Hassler then arose, and in his characteristically vigorous manner, wanted to know why the matter had been put off and why it was not brought up a month ago instead of waiting until this time. No one ventured an explanation, and the council proceeded to consider other business just one hour after the town hall discussion started.

Councilman Burns, chairman of the fire committee, reported that he had been unable to find anyone owning a team near the town hall who was willing to consider handling the hook and ladder truck at any price, but had secured the services of Charles Kitchen at the rate of \$3 for each fire. Assistant Fire Chief Lyon then stated that the firemen had been obliged to draw the truck to the Brundage House fire by hand, that it took 25 of them, and they refused to drag it to another fire in that manner.

W. E. Case then appeared for the W. S. & A. Traction Company and asked permission to extend the power house switch south from the power house for a distance of 150 feet, in accordance with a plan submitted. He said that the company was going to erect a new barn and this switch would have to be built in order to let them get into the new barn. Councilman Hassler stated that he was willing that the permission should be granted, that the company had put fenders on the cars as requested, but he thought it pertinent to ask when they intended to put the track on Elmer avenue in the center of the street. Mr. Case replied that the company intended to lay heavy rails down Elmer avenue and did not wish to disturb the old rails until the new ones had been laid, so as to not interrupt traffic on the road. He said that the work would be done very soon and that he had intended to ask permission last evening to place a switch on Elmer avenue, but was prevented because that was not included among the purposes for which the meeting had been called. The permission was granted, the work to be done under the supervision of the street committee.

A number of sidewalk rebates were granted, two of them being term rebates for fifty per cent. One claim for 75 per cent. on a walk laid before the old ordinance granting 75 per cent. term rebates was repealed, was referred to the attorney for investigation. The claimants stated that the claim had been filed at the time the walk was laid, but that the papers had been lost, and for that reason not allowed.

The sum of \$100 was appropriated for the use of the board of health.

The following current bills were ordered paid: Police, \$231; streets, \$141; electric lights, \$240; water, from April 1 to October 1, \$815; Welsbach lights, \$732.25; crosswalks, \$18.

A bill from Ike Samuels for \$5.20 for batteries and flash light lanterns furnished the police was referred to the finance committee. Councilman Evans remarked that 30 many batteries looked like assault and battery.

The Macafee Concrete Company submitted a bill for \$26.40 for crosswalks. They refused to give a bond but sent a five year guarantee instead. The matter was referred to the attorney.

A bill for \$43.50, for the care of the Wilbur hook and ladder company's team was ordered paid when the bill had been approved by the company.

The treasurer was ordered to pay \$113.28, due the Firemen's Relief association.

A bill of about \$50 for advertising and supplies was paid to the Sayre Times.

The action of the treasurer in paying a note of \$5,000, due the M. P. A., was approved. The sum of \$4,824, due the First National bank was ordered paid.

The tax collector reported that the sum of \$11,952 had been collected, which was payable to the borough.

The agreement giving the bor-

ough attorney be instructed to frame the necessary papers and submit them at a meeting to be held next Friday night.

Mr. Hassler then arose, and in his characteristically vigorous manner, wanted to know why the matter had been put off and why it was not brought up a month ago instead of waiting until this time. No one ventured an explanation, and the council proceeded to consider other business just one hour after the town hall discussion started.

Councilman Burns, chairman of the fire committee, reported that he had been unable to find anyone owning a team near the town hall who was willing to consider handling the hook and ladder truck at any price, but had secured the services of Charles Kitchen at the rate of \$3 for each fire. The claimants stated that the claim had been filed at the time the walk was laid, but that the papers had been lost, and for that reason not allowed.

ough the right of way over the Lehigh tracks and the real estate company's lands was read, but its terms seemed rather hard and it was referred back to the attorney with instructions to try to procure more favorable terms.

ELY AND BRYANT ARE UNDER ARREST

Both Are Charged With Robbing the Lehigh Valley Station at Ithaca

Clarence Ely, a former operator for the Lehigh Valley, and Bert Bryant, the operator who said that he was asleep at his post at the time the \$1,195 was stolen from the ticket office at the Lehigh's station in Ithaca on last Monday morning, were placed under arrest yesterday afternoon.

Ely is the man who is suspected of the robbery. He has been frequently in the company of Bryant lately and it is believed that he stole the key to the money drawer from Bryant. Ely was well acquainted with the fact that the money drawer contained considerable money.

When the detectives went to arrest Ely they discovered that he had taken up a note for \$75, purchased a suit for \$20 and a pair of shoes for \$5, besides making a young woman friend a handsome present. He had but \$12.10 when arrested. Before the burglary Bryant says that Ely was broke.

The police do not believe that Bryant was connected with the robbery, but he has been placed under arrest to insure his presence at the trial of his friend Ely.

DIXEY AT THE LOOMIS

The name of Dixey is on nearly every tongue today. Dixey appeared at the Loomis last night to the largest house that this popular theatre ever held, and there was not a dull moment from the time the curtain rose until it fell. Dixey has chosen for a vehicle with which to amuse the public "The Man on the Box," a three act American comedy drama, and it is the real goods. Dixey was backed by a clever company, the cleverest ever seen at the Loomis. Dixey himself is unequalled. He does not resort to funny wigs and beards, grease paints and grimaces, but he does possess that indescribable something which has been called humor. He makes you laugh whether you want to or not. Those who were not there last night missed the only opportunity that this section has ever had of seeing a real comedian. Everyone who witnessed his work last night will unanimously unite in saying that nothing superior to it has ever been seen here before. The house was filled to its capacity, not a seat being vacant. Manager Watrous has established a new record, that of securing the first legitimate comedian that has ever appeared on the stage of the Loomis. He will receive hearty support if he can induce Dixey and his excellent company of supporters to appear here at a future date.

NOTICE OF DISSOLUTION
