## ROCKEFELLERS MEET

Family Association Unveils Monument to Ancestor.

### GIFT OF AMERICA'S RICHEST MAN.

Standard Oil Chief Talks of Trusts and National Development—Declines Attack on Monopolies as Impolitic.

FLEMINGTON, N. J., Oct. 5.—The second annual reunion of the Rockefeller Family association, which began at the courthouse here, was attended by a number of Rockefellers from different parts of the country. The annual banquet was held in the opera house last night. The monument which John D. Rockefeller erected in the cemetery at Larison's Corners in memory of his great-grandfather, Johann Peter Rockefeller, was unveiled today, and an address was made by A. R. Lewis of New York.

The inscription upon the monument reads as follows:  
"In memory of Johann Peter Rockefeller, who came from Germany about the year 1723; died in 1753. He gave this land for a burial place for his family, its descendants and his neighbors. This monument was erected in the year 1906 by John Davidson Rockefeller, a direct descendant."

In an interview John D. Rockefeller commented on the demand for government regulation of so called private industries and makes a strong plea for national development. Mr. Rockefeller is quoted in part as follows:

"If we limit opportunity we will have put the brakes on our national development. Will the individual strive for success if he knows the hard won prize is to be snatched from his fingers at the last by his government? We are still too young a nation to begin tearing down. We must build up, build up, build up for years to come. The very children in the schools should be taught the need of our development."

Speaking of his recent visit to France, Mr. Rockefeller said: "The French people hate us, and they will crush us if they can. They want our money. They want the patronage of our tourists. But they hate us. They never let slip an opportunity to take quick advantage of our mistakes. This is a struggle for supremacy. We must win or they will, and there will be no quarter for us if they win."

"And now there is Japan rising in the east to a power we cannot estimate. We cannot foretell what her competition will be. We do not know the resources of the new territory which she controls, we cannot guess the commercial and industrial possibilities of the Japanese."

"At this critical stage we are giving the enemy stimulation to fire at us. He is quick to seize this advantage. Take the attack we made upon our own packing business, for instance. I know none of the men in the beef trade. I never dealt with them, nor was I ever associated even indirectly with their business or themselves."

"But it is safe to assume from the proportions of their industry that they are sound business men, and it is safe to assume, too, that no business can be built to such proportions on such false principles or by such unscrupulous methods as they were charged with."

## ATHENS WON

Athens—The football game yesterday afternoon between Athens high school and Waverly high school, resulted in a victory for Athens by a score of 11 to 0. The Waverly team did not get down to work until the first half was completed and all of the score was made in that part of the game. The new rules were adhered to, which was something of an innovation, but our boys showed skill and good training from the start. It was harmonious all through and no "kicks" were registered. One of the Waverly team had his knee put out of joint and another, Albert Flynn, was badly injured in the head and was taken off the grounds in an insensible condition. He had a tackle with Verne Andrews, and fell, and Andrews' knee struck him in the side of his head above the ear, and he was knocked unconscious. Dr. Cowell was sent for and some of the boys took him into a wagon and started for town, meeting the Doctor at the bridge. He was taken to Dr. Cowell's office, where his injuries were attended to and afterwards taken in Fitzgerald's hack to his home on Waverly street, Waverly.

## TOOK ALONG A TALKING MACHINE

Chief Mulligan and other officers of the borough have been on the scent of petty thieves who have been robbing houses and chicken coops in this vicinity for some time. Yesterday they went to the code and searched the home of Adelbert Johnson and they found parts of harness, a silk waist and other property that had been stolen from D. E. McMahan. It is thought that other property was concealed while the officers were making the search. Johnson and wife were arrested and brought before E. J. Johnson at about 5 o'clock last evening, and after a hearing they were held to answer to court under \$200 bail each. Not securing bail Constable McGovern took them to Towanda jail this morning. They evidently expect to have a good time of it for they took a graphophone along to make music with.

We see by the North American that the North Avenue Baptist church of Scranton refused to accept the resignation of Rev. E. W. DeWitt by a vote of 82 to 22.

The Waverly high school's second team backed down in the game arranged for yesterday with the Athens second team. This gives the game to our boys, 11-0.

Mr. and Mrs. R. A. Crawford gave a party last evening in honor of the 10th birthday of their daughter, Miss Martha. About 30 of her young friends brought their best wishes. The evening was spent with games, music and social intercourse. Refreshments were served.

F. A. Gillette and wife were treated to a genuine surprise last evening in honor of their thirty-sixth wedding anniversary. They were away from home and when they returned at 9 o'clock they found the house filled with friends. They had a jolly good time until a late hour.

Dr. E. M. Cowell and wife, O. L. Haverly and wife, and Ben Hale and wife, went to Ithaca on the noon train today and from there they will take passage on Dr. Cowell's yacht for Aurora, N. Y., where they will remain over Sunday. Mr. and Mrs. Haverly go to visit their daughter, Miss Julia, who is a student at Welles College.

The reason the new state road is not yet commenced is that the contract has been held by the town commissioners nearly two weeks. It was signed yesterday and forwarded to the county commissioners and from there it is to go to the state commissioners, who will sign and return it to Surveyor Walker. Mr. McAfee will be ready to begin work on it at once.

William E. Duell Jr. of Pine Creek, Pa., was in Athens yesterday, the guest of his cousin, A. J. Macafee. Mr. Duell's father, Wm. E. Duell, was one of the finest musicians here in early days and taught singing school in Sheshequin and surrounding towns. He was a shoemaker by trade and was an exceedingly fine workman. He was a member of a glee club which in early times bore an enviable reputation hereabouts.

**Cheap Rates West**  
The Erie Railroad is again offering very low rates to the Pacific Coast and other western points. Inquire of Erie Ticket Agents or write J. H. Webster, Div. Pass. Agt., Elmira, N. Y. 99-oct30

## STRIKE AT THE MACHINE

### ROOT AND BRANCH

## Its Complete Extermination Depends Upon Retiring Men of the Lilley Stamp

(From the Athens Evening News.)

The Sayre Times has opened the Congressional fight by reprinting an article from the Philadelphia Press in favor of supporting Republican candidates for Congress. The article is forced and illogical. If it has any meaning at all, it is designed to show that President Roosevelt wants Republicans elected to Congress even though they oppose his measures of reform. How preposterous!

The President is trying to serve the country, and it is not possible that between two candidates he would choose the one, who was opposed to him, simply because he was "masquerading under the name of Republican," while the other was an exponent of his principles but chooses to style himself a Democrat. The Press can not serve the "Gang" by such stuff in this Congressional district. The people have reached a point at which they are indifferent as to what a man calls himself, but are greatly concerned as to what the man really is. Henceforth the man who gets their votes must be the embodiment of their principles. A possible slight disagreement on some point that is comparatively dormant, shall not be magnified so as to appear equal to the vital, the pressing, issues of reform.

The President is probably not informed as to conditions in this district. If he ever gets the facts, he will not be for Mr. Lilley. He would have everything to gain and nothing to lose by supporting Mr. Kipp. With his veto power he is a sufficient negative element to counteract any possible legislation deemed unfavorable to the interests of the country. But he greatly needs such men as Mr. Kipp in Congress to support positive acts necessary to curb rapacious corporations and throttle greed. Why should he need such Congressmen, as Mr. Lilley, who do not agree with him as the article suggests? Does the President need to be protected against himself?

The article says you should destroy the Machine by piercing its heart and should not aim at its members. This is a very vague idea and seems to be of the same stuff used to bolster up the Machine in the past. As a fact the heart of the Machine is commensurate with its body. The only way its activity can be subdued is by utter extermination, root and branch. It is a settled principle that in an operation for cancer every particle of the malignant growth must be removed. Failure to do so results in renewed and more rapid growth than ever.

No doubt the President would prefer to have genuine Republicans elected to Congress, but if a Democrat is returned from this district, no one will be to blame but Mr. Lilley and his backers. Mr. Lilley had warning through last Fall's election and other signs that he could not be nominated by fair means, so he held his "snap convention" to defeat the wishes of the people. Then, when there were evidences that the Lincoln party had determined to have a candidate of their own, he immediately took means to defeat them and pre-empted the Lincoln column on the official ballot in his own interest through a lot of political tricksters. Still fearing that a certificate of nomination by Lincoln conferees might stand, he made arrangements with the same set of sharpers to prevent the conference. If he had not done so there would, undoubtedly, have been a Lincoln party man nominated. The Lincoln party was determined to defeat him and under the circumstances had no recourse but to nominate a thoroughly satisfactory Democrat. The tricks resorted to by Mr. Lilley have confirmed them in their determination and under no circumstances will they support him.

## NEW CHRISTIAN SCIENCE CHURCH RECENTLY DEDICATED IN BOSTON

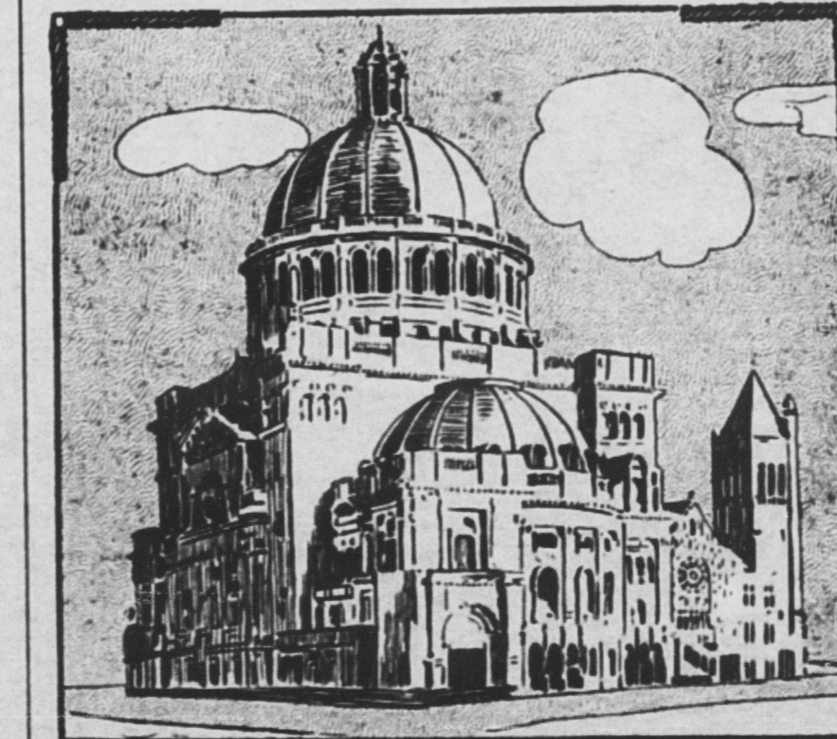

### Beautiful Edifice Has Cost Nearly Two Million Dollars—Higher Than Bunker Hill Monument.

Boston.—Rising above thereof tops the church spires of the Black Bay district, and reaching a height loftier than Bunker Hill monument, looms the magnificent new cathedral of Christian Science, at once the largest, the costliest church edifice in this part of the country and one of the most remarkable church structures in the world. It was dedicated on Sunday, June 10.

It is two years since the corner stone was laid, and day and night since then more than 300 men have been employed to hurry the structure to completion.

It is 12 years since the first church of this new denomination was built, and 30 years ago in July the first Christian Science was formally organized.

The cathedral adjoins the "mother" church, as the one built 12 years ago is called. This is at the junction of Norway and Farnmouth streets and ex-

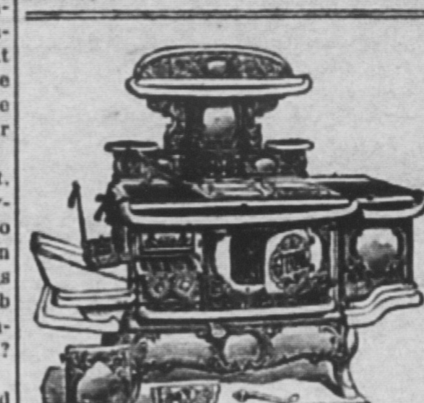

tends back to St. Paul's. The builders planned for an auditorium which would be the largest in New England in its seating capacity. Space was provided for more than a mile of magnificent mahogany pews, which give a seating capacity of 5,000, which is more than five times the capacity of the old South church, more than three times that of Trinity and twice that of Tremont temple or the cathedral of the Holy Cross.

The auditorium contains seven galleries, two on each side and three at the back, all so arranged that not a pillar or post interrupts the view of the platform from any seat. The roof of the auditorium rises to a height of 105 feet from the floor, the entire weight being borne by four arches resting on four massive stone piers, which form the four corners of the auditorium.

**Free Free**  
Mrs. A. C. Trisnor, Colchester, Conn., writes that a free sample bottle of Bloodine helped her when she was all run down. Bloodine is a body builder and system tonic of wonderful merit, and if you have not tried it, you should today. The greatest system tonic in the world. Sick Kidneys are positively cured by Bloodine. Sold by C. M. Driggs, Sayre.
