NOVEL SPORT AT BERLIN.

Race Between Balloons and Autos as Part of War Game.

BERLIN, Oct. 11.—A race between balloons and automobiles was started at noon as an exhibition for the members of the International Aeronautic society by the balloon corps of the military transport department. The balloons were sent up from the parade ground at Tegel, seven miles north of Berlin, at intervals of fifteen minutes. Four balloons, each of 200 cubic meter capacity and carrying two officers and an assistant umpire, took part in the contest.

As each balloon, with a broad, designating pennant, shot up and sailed away in the direction of Hamburg before a sixteen mile breeze, four and in one instance five automobiles, flying the colors of the balloon and posted on roads adjacent to the parade ground, followed, so that within an hour set sixteen automobiles, chosen from an immense entry, were speeding after the balloons. Among those in the automobiles were Prince von Salm-Salm, Prince Ernest von Saxe-Altenburg and Duke Adolf Friedrich of Mecklenburg-Schwerin. Prince Henry of Prussia, who was to have taken part in the contest, was detained at Kiel on naval business.

Theoretically each of the balloons carried dispatches, while the automobiles were in the service of the enemy and pursued them with the object of capturing them. If the balloons, after landing, had twenty minutes in which to escape they won, while the automobiles won if they reached the balloons within that period.

The balloon Loretta was overtaken within the limits prescribed by the rules by Lieutenant Delacroix's automobile north of Wusterhausen. The other balloons made successful landings in the vicinity of Wusterhausen.

Various kinds of Misers.
There are different kinds of misers. With some it is money and with others it's comfort.

Comrade A. B. Stone is working at his trade on the Morley house. It reminds us of old times to see him with overalls on and shoving the saw and hammer. His father, Jabez Stone, had a boat yard on the west side of the Chemung and built many of the freight crafts that navigated the North Branch canal in early times.
