### FINE ENTERTAINMENT

Waverly—A large number of people braved the stormy weather last night and gathered at the Baptist church for the purpose of listening to the first number of the entertainment course. They were well repaid for their coming as the entertainment was of a high order from start to finish. The Italian boys proved to be accomplished musicians and rendered several difficult selections in a very pleasing manner. Elbert Foland, the reader, also captivated the audience and gave several impersonations and character studies that kept the crowd in a state of good humor throughout. The next number will be a lecture "Acres of Diamonds" by Russell Conwell, D. D., of Philadelphia and will take place October 31.

### Permanent Dentistry

A quarter of a century ago we placed some gold fillings in the teeth of a well known gentleman at present a resident of Sayre. These fillings today are just as bright, firm and useful as the day they were made. We will tell you the name of the party, if you wish to see him yourself.  
There are variations in dental workmanship, just as there are differences in the various brands of flour. If you desire the highest degree of proficiency—the skill you know that will make YOUR fillings serviceable twenty-five years from today—come in or phone for an appointment. On the other hand, if you take pleasure in having your teeth filled over and over again every year or two, you should go elsewhere—we do not do that kind of work.

### FOUND REST AT LAST.

Death Ends Wanderings of George Rashid, the Syrian Leper.  
CLARKSBURG, W. Va., Oct. 20.—George Rashid, the Syrian leper who several months ago was driven from various cities in the east because of his affliction, died in a shanty at Elkton, near here, of heart failure. The body will be cremated by the county authorities.  
The leper has been located in a shanty built especially for him after his removal to that place by the Baltimore and Ohio Railroad company a few months ago, and a nurse was placed in attendance.  
Rashid left Elkton, W. Va., to go to a leper colony in New York, but was discovered and ejected from the train and later captured at Keyser. The railroad company shipped him east in a box car, but he was not allowed to enter Philadelphia and was sent back to Baltimore, where he was housed in the box car a number of days until one night the Maryland health authorities placed him directly in the vestibule of a coach and he was taken through here to Parkersburg, where the Baltimore and Ohio authorities refused to receive the train until after his removal.  
He was kept under a shade tree there a day or so and was then run into Randolph county on a special at night. At first the railroad company provided for his wants until the county and state authorities took charge of him. Later a nurse came from New York to look after him, but he circulated freely on the streets of Pickens, was assaulted and later shot at several times in the shanty.

### MRS. COWDIN HANGED HERSELF

Daughter of Bishop Potter Suffered From Melancholia.  
CROMWELL, Conn., Oct. 20.—Mrs. Lena Cowdin, daughter of Bishop Henry C. Potter and wife of Winthrop Cowdin of New York, committed suicide at Hallock's sanitarium here by hanging herself.  
The utmost secrecy has been maintained regarding her death.  
Mrs. Cowdin had been a patient in the sanitarium for four weeks, suffering from melancholia. Her desire to have absolute peace and quiet resulted in the authorities of the sanitarium placing an entire cottage at her disposal, while several nurses were assigned to care for her, and a few days ago it was announced to her friends that she was on the road to recovery.  
It is evident that Mrs. Cowdin carefully planned to kill herself, as she inspired confidence in her attendants by showing no signs of despondency, but she bided her time and waited until they had trusted her out of their sight for a moment.  
The chance which she had been seeking came, and while the attention of her nurses was otherwise diverted Mrs. Cowdin slipped quietly from the room in the cottage which she had been occupying and hurried to the cellar of the dwelling. There she adjusted a rope around her neck, tied one end to an overhead beam and let herself strangle. She was dead when the nurses found her.
