A Hog of Parts.

Mr. Jones, of this city, tells us of a hog in Chatham county that had distemper some time ago, and since then it has to breathe through its mouth. In order to do this easily the hog always carries a stick in its mouth in order to keep the mouth open comfortably, and except when eating can always be seen with the stick in his mouth.—Harrington (N. C.) News.

Wild Flowers in Alaska.

The wild flowers of Alaska are the most beautiful in the world. The season lasts only three months, but during that time bluebells, honeysuckle, wild roses, sweet peas and myrtle run riot over the hills and bloom even at the foot of a glacier. The ground is perpetually frozen and about two feet thaws out during the summer season. The melting ice furnishes plenty of moisture and the warm sun makes nature jump.—Lester's Weekly.

Birds Preserved in Peat.

"For long it puzzled me," Sir Douglas Brock writes in Country Life, "to know what Irish peasants did with the birds they shot in July. There is no cold storage in the north of Ireland, but they have discovered an excellent substitute. The birds are buried four or five feet deep in the dry peat, and, I am told, come out perfectly fresh at the end of two or three weeks."

A Speedy Cure for Constipation, Biliousness, Dyspepsia, Indigestion, Liver Complaints, Headache, Bad Taste in the Mouth, Bad Complexion, Nervousness and all diseases of the Stomach, Liver and Bowels.

"Bloodine Liver Pills" act gently, yet thoroughly upon the bowels, liver, stomach and digestive organs. The pills in old and chronic cases of constipation and indigestion, act at once, without griping, nor do they leave any unpleasant after-effects, nor form a constant habit of purging, produced by other cathartic remedies.

"Bloodine Liver Pills" restore the deranged and torpid liver to its normal condition and healthful action. Remove and prevent constipation by securing a natural and regular operation of the bowels, and relieve those unpleasant symptoms which attend a diseased or morbid condition of the liver, stomach and bowels.

To assist in attaining this end, the following suggestions are offered.

REMARKS: Everyone who uses pills for their action on the liver, should know that large doses rarely prove as satisfactory as small ones. Large doses simply purge and pass out of the system, usually leaving the bowels constipated, and seldom removing the cause of the trouble, or improve the general health. On the other hand, small doses develop the alternative effect of the medicine, do not irritate or constipate the bowels, but gently stimulate the liver and prevent the accumulation of bile by directing its flow into the proper channels. Therefore it is advisable to commence by taking not over one or two pills at bedtime and increase dose as necessary.

PORTLAND, ME.—I find your "Bloodine Liver Pills" the most effective pill I ever used. They cause no griping or constipative after effect as most liver pills do. Yours truly, MRS. AMADA RICHARDSON.
