### SENT GIRL HOME

Waverly--For some time past a girl has been hanging around Waverly and Sayre, who has been very anxious to be married. She has even requested the justices of the peace and several members of the legal fraternity to procure a man and make him marry her. She seems to be rather weak in the upper story, and was becoming the object of much sport and jollity by those who cared to indulge in that kind of sport. She was taken in charge by the authorities last Saturday night and sent to Dushore Sunday morning where she said that her parents lived.

H. C. Thatche went to Elmira today.

### POOR BILL REDUCED

Waverly--In auditing the accounts of the Town of Burton it is found that the poor bill has fallen off about 40 per cent. from last year. This is all the more remarkable when we come to consider that there was a corresponding falling off from the preceding year.

### To Preserve the Eyesight.

Wearing glasses need not be permanent. If the first hint of derangement in the eyes is heeded, a short time passed under the direction of an oculist will safely tide over the difficulty. It is most restful to close the eyes frequently for a few minutes. This rest does them great good. Particularly should this be done in trains and street cars. Many a headache and smarting pain may thus be saved.

### Original of Britannia.

Frances Stewart, afterward duchess of Richmond, was one of the most beautiful women of her time, and her figure has been immortalized as "Britannia" on the copper coinage of the realm for more than 200 years. The head is of singular grace and charm, but does not show vivacity or intelligence, nor was she supposed to possess them. One of her pictures is treasured in Buckingham palace.
