JUST AS TOKENS OF THEIR ESTEEM

Mr. James Was Handsomely Remembered Last Night by Men Employed under Him

Just after the whistle blew at six o'clock last night Chief Clerk Stark at the new shops told E. T. James, the retiring superintendent, that his presence was desired in one of the galleries. When Mr. James arrived there he found the gallery filled with shop men who have been employed under him ever since the shops were started in operation a year ago. M. H. Sawtelle, cashier, of The National Bank of Sayre acted as spokesman for the men, and on their behalf presented Mr. James a handsome gold watch and chain, and several pieces of furniture consisting of a fine leather couch, two leather covered Morris chairs, and several sectional bookcases. Mr. Sawtelle in presenting the articles to Mr. James referred to the latter in most commendatory terms, and told him that the men in the shops exceedingly regretted his departure and that the presents were merely tokens of their esteem. Mr. Sawtelle also assured him of the well wishes of the citizens of Sayre declaring that every one acquainted with his work while in Sayre would be sorry to lose him as a citizen and a business man. Mr. James replied feelingly and appropriately.

The furniture and watch will be on exhibition in J. W. Grumme's furniture establishment for several days in order to give the public in general an opportunity to view them. Mr. James has not as yet announced his plans for the future.

AWAITING A RAISE

The employes of the various railroads await with breathless interest the official announcement of the rumored increase in wages. No class of wage earners deserve better recompense than men who are engaged in railroading. From the track hand to the man who takes the tickets on the passenger train the undertaking is hazardous and those engaged in it should receive the highest consistent remuneration. Sayre is distinctly a railroad center, probably the most important in this section of the country, and an increase in wages among the men would be greatly appreciated.

DECISION RESERVED

The suit of G. F. Carling versus H. A. Kaufman occupied the attention of Justice Carey this forenoon. The plaintiff sues to recover the sum of \$39 for dental services, but there is a dispute as to the terms of the contract. Kaufman claims that he was not to pay anything until the entire contract was completed, while the plaintiff says that he requires a deposit on all work. He claims that Kaufman refused to deposit anything and after \$39 worth of work had been done the plaintiff refused to do any more until a settlement had been made. The justice reserved decision.

ACCIDENT TO PRESS DELAYS RECORD

Therefore Carrier Boys Were Unable to Make Deliveries Until This Morning.

An accident to The Record's big cylinder press resulted in last night's edition not being printed until nearly three o'clock this morning. The carrier boys were therefore unable to make their deliveries until this morning, a fact which the management exceedingly regrets. There may be those who failed entirely to get yesterday's Record, but we trust that the omission will be overlooked, as "accidents will happen in the best regulated families."

Good, strong specialties and musical numbers are introduced during the action of the play.

ANOTHER LEHIGH CAR PLUNDERED

Thieves Secured a Quantity of Clothing at Milltown Last Night.

A Lehigh Valley freight car at Milltown was broken open by thieves last night and a quantity of clothing taken. The seal on the car door was smashed and a box which contained several suits of clothes was opened. Clothing was found scattered on the floor of the car which would indicate that the thieves were frightened away before they had finished their work. The Lehigh special officers have not yet been able to obtain a clue to the guilty parties.

Several Sayre young men are attending business college at Waverly, and this has given rise to the query, why cannot a department of this character be established in the Sayre high school? The borough schools are excellent in every respect, being well conducted and are producing good results, but a business department would be a great advantage to many pupils who desire to be educated along this line. This is a matter which the board of directors should give serious attention.
