CALLED "TEMPEST IN A TEAPOT."

Californians Satisfied President Had No Intention of Foreing Japa on State-Army Only to Stop Mob Violence.

WASHINGTON, Dec. 6 - Without debate the senate adopted a resolution calling on the secretary of commerce and labor to furnish the senate copies of all official letters, telegrams, reports, etc., filed in the department in connection with the investigation of the matter of the Japanese attending the public schools of San Francisco. The resolution was presented by Senaor Flint (Cat)

The California delegation in congress has received what they consider satisfactory assurance that the president did not desire to be understood as saying in the Japanese section of his message that he would use the military force of the United States in forcing Japanese into the California schools in which white children are taught. It is said to have been his purpos

to convey the idea that he would use the military to protect Japanese against mob violence. Californians take no offense at this interpretation of the message and agree that the chief executive should do everything in his power to protect Japanese as well as all other oreigners against violence.

"This whole San Francisco affair is proving to be a tempest in a tempot," Representative Julius Kahn said. "It will die out rapidly as soon as there is a general understanding as to why California takes the position it does.

"The courts and not the public must settle all the legal questions involved in the San Francisco school situation." That the president's views on the subject meet with the hearty approval of the Japanese government was made evident when Viscount Aoki, the Japanese ambassador, yesterday personally thanked the president for what he had said in his message regarding the vexed question.

WANT MEN IN UNIFORM.

Best of Everything Prosident's Defense of Army and Navy Men Bears Fruit.

WASHINGTON, Dec. 6.-President Roosevelt's expression recently of his vigorous views against the discrimination shown by the managers of some theaters and other places of amusement against the uniform of the United States army and navy, particularly the latter and against the men who wear that upiform, already is bearing ubstantial fruit.

The president himself contributed to a fund raised for the prosecution of a governed his actions since the trial lamiforms, and it is the known desire of shows him to be a man of most rehe president that the suit should be pressed to a definite issue.

That members of the theatrical proession do not sympathize with the attitude of some amusement managers on this subject is evidenced by the folowing letter received by Secretary of the Navy Bonaparte from S. Goodfriend, manager of the Columbia thea- band. The message said: ter, Washington, the publication of which is authorized:

LOU DILLON WAS NOT DRUGGED.

Sensational Testimony In Famor Lawsuit Between Racing Men. E. E. Smathers of New York Is Exquerated.

NEW YORK, Dec. 6 .- 'The Memphis

gold cup dispute was officially ended

last night when the board of review

of the National Trotting association decided that the trophy had been won on merit and dismissed the charges against Elmer E. Smathers, the New York horseman. The case, which was taken up by the board at a continuation of its winter meeting, grew out of the alleged drugging of Lou Dillon at the Memphis (Tenn.) meet on Oct. 18, 1904. Smathers, who owned Major Delmar and drove him in the race, was charged with having been cognizant of ill treatment of C. K. G. Billings' mare which resulted in the latter's with-

drawal from the race and the win-

ning of the \$5,000 gold cup by Major Delmar. When the charges were made suit was brought by the Memphis association, but it was stopped by injunction. The present hearing was for the purpose of determining the facts. Some of the testimony was sensational. One affidavit read was made by Ed Saunders, who originally made the charges against Smathers. Saunders in his earlier affidavit had sworn that Smathers had paid him \$5,000 to laject eight ounces of drug into Lou Dillon's body so as to stop her in the

Edward Saunders, the affidavit states, was formerly Mr. Streuber's betting commissioner, and the witness knew he would tell him the truth.

The same calm composure that has Saunders, said Mr. Streuber, told him that he had made these charges the second race. suit against amusement managers who gan prevailed today, and everything against Smathers for a money considbarred men of the navy from their he has done since the jury returned eration. Later Streuber said Saunders wrote him that he regretted he had said any thing to hurt Smathers and that he had made a second affidavit to clear Major Delmar's owner.

At the conclusion of the hearing John S. Wise, counsel for Smathers, made a bitter arraignment of the men Gillette said: "I am innocent. ### SCHURMAN ON ATHLETICS.

University President Says Physical Training Problem Has Been Solved. ITHACA, N. Y., Dec. 6.-Speaking at a Cornell celebration last night, Presi dent Schurman sald that he believed that Cornell university had solved the problem of physical training and athletics for students.

For the first two years of the course whether academic, technical or pro-fessional, all incoming students are required to take regular physical training, which consists of drill during the first year under an officer of the United States army and gymnastics or athletics during the second year unless the student prefers to continue drill.

Within certain limits the student is permitted to take his gymnastics or tractivé to him, so that while hundreds of Cornell students will be found any day going through gymnastic exercises other hundreds will also be found engaged in outdoor recreation, sports and games, among which, of course rowing, track, football, lacrosse, tennis and golf are included, not to mention skating and tobogganing in win-

The object is to insure participation in physical exercises or sports on the part of all students rather than by a small number who may be qualifying for the intercollegiate teams. And as a result of this policy and practice intercollegiate athletics takes its place as a natural and interesting, even though sometimes exciting, feature in the recreations, sports and physical culture of the student body of Cornell.

President Schurman stated that the war department was now considering the question whether theoretical fustruction should not be substituted for military drill at the colleges and universities to which officers of the army were detailed. But while primarily and profoundly

interested in the physical training of all the students, President Schurman showed his interest in the achievements of the intercollegiate crews and teams. He noted with satisfaction that of the four major sports Cornell beld the championship in crew and track, while it also held a high place in baseball and football. He congratulated friends of football on the good effect which the new rules had achieved. Speaking for himself, he said he found the game vastly more interesting than before. But still more important was the fact that the new rules had eliminated brutality and greatly reduced the chances of injury.

"Do you remember in the early part of April, 1905, seeing three negroes coming out of the alley back of the store of Montgomery, Ward & Co.?" "Yes," replied Schultz. "What did you do there?" "We threw a few bricks." Schultz said that during the strike the strikers and the pickets would hurl eggs filled with vitriol and other acids at horses in the streets to make them run away. He said that some times syringes were used to squirt the acid.

"They gave us the acid eggs at the pickets' headquarters," he said. The eggs had been drained and the shells bled with acid. The hole was covered with court plaster.
