Congress Takes Up Dismissal of Negro Infantrymen.

MORGAN TALKS ON PANAMA CANAL

Attlefield Pilotage Bill Defeated In House by Vot- of 11% to 164-Say America Federation of Labor Did It.

WASHINGTON, Dec. 7 .- The senate adopted the Penrose resolution rejuiring the president to send in infornation regarding the discharge of the negro troops of the Twenty-fifth Infantry and also the Foraker resolution diecting the secretary of war to transof his department on the same subject. Both resolutions carry an idential amendment by Mr. Culberson askng specifically for the order to Major Penrose, commanding the troops, which rected him not to turn over to the Texas authorities certain of the troops

This action, following a debate of two bours, was taken without a roll call or opposing vote. The debate developed along two distinct lines, one as to the propriety of asking the president for the information or of directng the secretary of war to furnish it and the other an indulgence by a few senators in comment on the merits of

he case. Mr. Spooner, who opened the disussion, took the ground that in maters where congress had an absolute ight to information in the possession of the executive it had always been ustomary to direct a cabinet officer to furnish it. In matters where it had not this right and in which there was some doubt about the advisability of publicity, congress usually made a reuest upon the president if it desired the information, with the understand-ing that it should be furnished "if not incompatible with the public interest." This view was supported also by Mr. Foraker, while Mr. Lodge quoted prec-

dents to the contrary.

To lay the foundation for a discusion of this point Mr. Carter observed that "It had been alleged and not denied" that the troops in question had ommitted murder in Texas. This brought Mr. Foraker to his feet with an emphatic disclaimer. This allega-tion had been denied, he said, and much evidence adduced to support the denial.

"Well " continued Mr. Carter, "it has been alleged and not denied that there was a disturbance participated in by

the troops." "That, too, has been denied," assertd Mr. Forsker

Mr. Carter finally secured opportunity to finish the point, which was in upport of calling on the president for the information. This was emphasized by Mr. Penrose, who said he had introduced his resolutions in the interest of a large negro constituency in Pennsylvania and had addressed it to the resident because the action had been by the president, and he regarded it as

matter of courtesy to ask him for the information. He also stated that the information. He also stated that flames, despite a heavy storm of snow it had seemingly been agreed among and sleet that covered roofs and hamenators that both resolutions should
