## GIGANTIC OCTOPUS.

Union Pacific Spent \$51,000,000 For Railroad Stocks.

### CONTROLS ALMOST ALL LINES TO WEST

**E. H. Harriman Had Purchase Power Unlimited as to Amounts or Terms. Great Merger Revealed at Interstate Hearing.**

NEW YORK, Jan. 5.—Startling testimony of the scope of the Union Pacific investments in other roads was given before the interstate commerce commission at its hearing in the Federal building here.

Chairman Knapp and Commissioners Lane and Harlan are acting for the full commission in taking the testimony. Assistant Secretary Deak of the commission is also present.

Frank B. Kellogg and U. A. Severance, attorneys of St. Paul, Minn., are appearing as the legal representatives of the commission. Robert S. Lovett appeared as counsel for the Union Pacific.

William B. Cornish, vice president of the Union Pacific; W. S. Thorne, director of purchases; Alexander Miller, secretary; and William Mahl, comptroller, all of the Union Pacific system, were present as witnesses.

Counsel for the Union Pacific company announced that E. H. Harriman would be unable to appear before the commission on account of ill health following an operation. Mr. Harri-

INTERSTATE COMMERCE COMMISSIONER LANE

man was excused from attendance at this time. It will be ten days or more before he can appear, according to counsel.

It appears that Mr. Harriman has employed a good part of the huge cash balance of \$51,000,000 which show in the annual report of last June in buying up great amounts of stock in the Baltimore and Ohio, New York Central, Illinois Central, Atchison, St. Paul and Northwestern.

The result is that there is scarcely a road of importance east or west of the Mississippi but that the Standard Oil group of capitalists, whom Mr. Harriman represents in transportation matters, has a hand in.

The purchases since last July are as follows:

Per value	
Illinois Central	\$2,125,000
Baltimore and Ohio	2,000,000
Baltimore and Ohio P. C.	1,000,000
New York Central	14,000,000
St. Joe and Grand Island	5,000,000

The purchases amounted to 7.61 per cent of the New York Central's total capital of \$150,000,000, to 3.41 per cent of the total capital of the St. Paul, amounting to \$135,000,000, and to 3.82 per cent of the Chicago and Northwestern, amounting to about \$100,000,000.

This means that the Rockefeller-Rogers-Stillman-Harriman interests have a hand in two different transcontinental routes. They not only dominate the policy of the New York Central, Northwestern, Union Pacific and Southern lines from this city to the coast, but also in a system including the Baltimore and Ohio and Atchison, which would carry them there.

To purchase all of this stock much more than \$51,000,000 would be required. Evidently the authorized \$100,000,000 preferred stock has been drawn on.

To make all of these purchases would require at least \$125,000,000 capital. These investments make the Union Pacific the greatest holding company in the United States, with investments far in excess of those of the Pennsylvania railroad.

The revelations were brought out by Lawyer Severance for the government while William Mahl, comptroller of all the Harriman lines, was on the stand.

It was shown that Mr. Harriman had authority by resolution to borrow money for the use of the Union Pacific railroad without restriction as to amounts or terms.

**Wool Famines at Los Angeles.**  
LOS ANGELES, Cal., Jan. 5.—Los Angeles is suffering from a fuel famine. In the face of unusually cold weather for this climate, gas, wood and coal in the city have become almost exhausted. Investigation disclosed the fact that only twenty-five tons of coal remain for sale. Wood is equally scarce.

**Death of Ex-Congressman Bolton.**  
BALTIMORE, Md., Jan. 5.—Former Congressman Matt R. Bolton, proprietor of Mountain View Stock farm, is dead at his country home in Baltimore county of a chronic ailment, aged sixty-six years. He was widely known as a breeder of the horses.

**Arcadians to Honor Goethe.**  
ROME, Jan. 5.—This being the one hundred and twentieth anniversary of the admission of Johann Wolfgang Goethe to the Academy of Arcadians, it was decided by the academy to have made a bust in honor of the German poet.

## FEAR FOR CZAR'S LIFE.

St. Petersburg Sifted by Assassination of Chief of Police.

ST. PETERSBURG, Jan. 5.—A general search of the lodgings of persons under police observation was made during the night in the hope of discovering the accomplices of the assassin of Prefect of Police Von der Launitz. Many arrests were made, but so far as known no important terrorists were captured. The body of the man who killed the prefect at the institute of Experimental Medicine is still unidentified.

The vice prefect, Sosnovsky, is conducting the investigation pending the appointment of a successor to Von der Launitz. Baron Taube, chief of the zemskie corps; Prefect of Police Rhetoroff of Moscow and Governor Kurloff of Kiev are mentioned for the position, which is one of the most responsible police posts in the empire on account of the great number of high officials who are under terrorist death sentence and who are concentrated here and also in view of the probability of St. Petersburg being used as a base of operations for plots against the life of the emperor.

The persons condemned to death by the terrorists are reported to include Grand Duke Nicholas, Premier Stolypin and two conservative members of the cabinet who lately received letters of warning.

The assassination of Von der Launitz has caused a powerful impression both in the press and among the public. The newspapers all comment on the inability of the prefect of police to protect his own person against the attack of a single resolute terrorist who undertook the task with the firm determination not to survive his victim, and the papers ask how long a time will elapse before the emperor, grand dukes and other prominent personages are stricken by terrorist bullets.

## CRNEGIE'S NEW GIFT

To Establish Bureau of American Republics.

DONATES \$750,000 FOR A HOME.

Thanked by President For This Advancing Cause of Peace in Western Hemisphere—Has Done Same at The Hague.

WASHINGTON, Jan. 5.—Andrew Carnegie has given \$750,000 for the erection of a building in Washington for the bureau of American republics.

The United States government and the various South American republics have agreed to purchase the site.

The announcement was made from the White House after conferences between Mr. Carnegie, Secretary Root and the president.

In his letter to Secretary Root making the offer Mr. Carnegie said: "I am happy in stating that it will be one of the pleasures of my life to furnish to the union of all the republics of this hemisphere the necessary funds (\$750,000), from time to time as may be needed, for the construction of an international home in Washington.

"I have not felt more kindly than I do this New Year's morning how much more blessed it is to give than to receive, and I consider myself highly honored by being considered worthy to provide the forthcoming union home where the accredited representatives of all the republics are to meet, and I trust, to bind together their respective nations in the bonds of unbroken peace.

"I am greatly pleased that you and your colleagues of the South American republics have done us the honor to suggest that I might furnish a suitable home in Washington for the bureau of American republics.

"The approval of your application by the governing board of the international bureau and President Roosevelt's hearty expression of satisfaction are most gratifying.

"You very kindly mention my membership of the first pan American conference and advocacy of the pan American railway, the gaps of which are being slowly filled. The importance of this enterprise impresses itself more and more upon us, and I hope to see it accomplished."

The president, in thanking Mr. Carnegie for the gift, wrote: "I am much pleased at learning from Secretary Root what you are going to do for the bureau of American republics. You have already done substantially the same thing for the cause of peace at The Hague. This new gift of yours has an almost of quite equal significance as far as the cause of peace in the western hemisphere is concerned, for the bureau of American republics is striving to accomplish for both hemispheres. I thank you heartily."

## BYRCE AT DUBLIN.

Ambassador Carries to America Good Will of Irishmen, Says Dillon.

DUBLIN, Jan. 5.—James Bryce, the newly appointed ambassador of Great Britain to the United States, delivered a lecture here last night under the auspices of the National Literary society. His subject was the relations of the Northmen to Ireland from the eighth to the twelfth century, and he gave an interesting review of the laws and literature of Ireland.

Mr. Bryce received a vote of thanks from the society, and in responding it John Dillon, M. P., said of Mr. Bryce that he would carry to his new task the friendship and good will of Irishmen, and he would see what Irishmen could do in a free country, living under conditions far different from those of Ireland. Continuing, Mr. Dillon expressed the belief that Mr. Bryce's experience of the present system of Irish government would make him more than ever determined to champion Irish liberty.

At this remark some of the occupants of the platform rose with a show of indignation, and the chairman said: "I must rule this out of order." There then followed a small scene, many persons in the audience calling upon Mr. Dillon to "Go on!" but Mr. Dillon insisted upon bowing to the ruling of the chairman.

## Vertebrate Teller Held For Poisoning.

CHICAGO, Jan. 5.—A coroner's jury held Herman Belek, a fortune teller, responsible for the deaths of three members of the Veral family, and Belek was held to the grand jury. It was declared by the jury that Belek caused the deaths of Mary, Etha and Rose Veral by administering to them arsenic in small doses. It is said by the police that Belek in conjunction with Mrs. Veral, the mother of the girls, poisoned the girls to obtain small sums of money for which their lives were insured.

## North Dakotians Suffer Fuel Famine.

MINNEAPOLIS, Minn., Jan. 5.—Reports of how North Dakota stood the cold wave of the last three days show that the suffering was great on account of lack of fuel. The temperatures in North Dakota averaged 20 degrees below zero, and in many towns along the line of the Great Northern railroad citizens were forced to remain in bed all day to keep warm and had to burn up furniture and outhouses to make the temperature of their homes bearable.

## Cleveland Without Fuel or Light.

CLEVELAND, O., Jan. 5.—With a cold wave beating down on the city, the foreman of the city works set in and which is increasing in severity. Cleveland's natural gas supply is completely cut off and thousands of homes are without either heat or illumination.

## Governor Warner Better.

DETROIT, Mich., Jan. 5.—Governor Warner, who is ill at his home in Farmington suffering from a severe attack of bronchial trouble, is reported to be much better.

## FLORIDA TO TAKE HELM.

Young Pittsburger to Succeed W. E. Corey as Head of Steel Trust.

PITTSBURGH, Jan. 5.—Iron and steel men who are in a position to know confirm the report that Alva Dinkey, president of the Carnegie Steel company, will succeed President Corey as head of the United States Steel corporation at the next annual meeting. It is further intimated here that Corey is already out of control.

Figures compiled now show that the year ended was the greatest in the history of the Carnegie Steel company by

## CARNegie'S NEW GIFT

To Establish Bureau of American Republics.

DONATES \$750,000 FOR A HOME.

Thanked by President For This Advancing Cause of Peace in Western Hemisphere—Has Done Same at The Hague.

WASHINGTON, Jan. 5.—Andrew Carnegie has given \$750,000 for the erection of a building in Washington for the bureau of American republics.

The United States government and the various South American republics have agreed to purchase the site.

The announcement was made from the White House after conferences between Mr. Carnegie, Secretary Root and the president.

In his letter to Secretary Root making the offer Mr. Carnegie said: "I am happy in stating that it will be one of the pleasures of my life to furnish to the union of all the republics of this hemisphere the necessary funds (\$750,000), from time to time as may be needed, for the construction of an international home in Washington.

I thank you heartily."

## ORBICULAR AT NEW ORLEANS.

Well Played Horses Won Most of the Events at Fair Grounds.

NEW ORLEANS, Jan. 5.—Well played horses won most of the races at the Fair grounds. The fourth race was a fine contest between Orbicular, Missoiri Lad and St. Valentine, all well backed, with Orbicular favorite. Missoiri Lad was the contender and pushed Orbicular hard, the latter winning by a nose.

The favorite was beaten in the first. Knight had the call and was sent to the post at 11 to 5. Woolfess, a 12 to 1 chance, got the large share of the purse, however, after a driving finish, with Duessea and Knight only heads behind. Summaries:

First Race—Woolfess, first; Duessea, second; Knight, third.  
Second Race—Dick Rose, first; Blue Lee, second; Toro, third.  
Third Race—Orbicular, first; Judge Davey, second; De Oro, third.  
Fourth Race—Orbicular, first; Missoiri Lad, second; St. Valentine, third.  
Fifth Race—Impudence, first; Fire Alarm, second; Lady Vinmont, third.  
Sixth Race—Adell, first; Lomen Girl, second; Scalplock, third.

Andrew Mack at Pyisco.  
SAN FRANCISCO, Jan. 5.—Despite unfavorable weather, there was a respectable crowd at Oakland. Three favorites, two second choices and an outsider divided the honors. Andrew Mack, favorite in the fourth race, after being nearly left at the post, came on and won by five lengths.

## Queen's Hockey Team Beats Yale.

PITTSBURGH, Jan. 5.—At the Duquesne Gardens last night the Queen's university hockey team of Kingston, Ont., defeated the Yale hockey team by a score of 1 to 0.

## Negro Lynched at Midway, Ala.

BEAUFORT, Ala., Jan. 5.—A negro whose name had not been learned was lynched by a mob at Midway, Ala., by citizens who hung him up to a tree and riddled the body with bullets. The negro had only recently returned from the penitentiary, and during the night he entered the room of Miss Morris King, daughter of a banker at Midway, and grasped her hand before she awoke. Her screams attracted the other inmates of the house, and the negro ran away. Citizens immediately set out after the negro and captured him. When brought to Midway he confessed, and the lynch followed.

## Jails Should Be Burned, He Says.

MONTEGOMERY, Ala., Jan. 5.—Dr. Shirley Bragg, president of the Alabama convict board, in a report says that humanity would be best served if every jail in the state were burned. "It would be more humane and far better," he urges, "to stake a prisoner out with a ring about his neck like a wild animal than to confine him in places we call jails, that are reeking with filth and disease and alive with vermin of all kinds. I tell no secrets when I say that in many jails men and women remain for months without means of washing their faces and hands."

## Stagecoach Topped Over.

AVALEN, Cal., Jan. 5.—A stagecoach containing ten persons toppled from a precipitous mountain road on Catalina island, and five persons were injured, but not seriously, including C. C. Curtis and J. V. Allen of Grand Rapids, Mich., and Mrs. James Connell and C. E. Ogden of Macomb, Ill.

## Detectives Cost Her \$30,000.

PITTSBURGH, Jan. 5.—Judge Robert S. Frazer heard the petition of Mrs. Mary Scott Hartje demanding counsel fees and attorney from her husband, Augustus Hartje, the millionaire paper manufacturer of this city. Mrs. Hartje avers that her detective costs alone are upward of \$30,000.

## Weather Probabilities.

Fair; northwest winds.

## FLOWER IN DISGUISE

Philadelphia Police Get Swindler After Long Chase.

### MOST COLOSSAL MINE FRAUD OF AGE

When Run Down Was Acting Part of Professor Oxford, a Benevolent Old Gentleman With Science For Making Diamonds.

PHILADELPHIA, Jan. 5.—R. C. Flower, alias C. G. Duley, who has been a fugitive from New York since 1903, where he is wanted to answer charges of grand larceny and swindling (credulous investors out of about \$1,000,000) an alleged bogus mining operation, was arrested in this city by Detective Sergeant McCoyville of New York and several local officers.

Flower, who the detectives say, is the most colossal mine swindler of the age, was captured in a room in one of the big office buildings in the center of the city, where it developed he has been located for some time. Under the name of Professor Oxford, the detectives say, he was seeking to secure money from investors by representing that he had a wonderful chemical process whereby he could make diamonds and other precious stones and a patent brick.

The arrest of Flower ends a chase by the detectives and postal authorities that carried them through Mexico, Central America, part of South America and Canada, besides many points in the United States. Following his operations in New York, through which it is said by the detectives, many society women lost money. Flower jumped bail after indictment in May, 1903. He was under a \$20,000 bond.

He was traced to the City of Mexico, Central America, Brazil, Montreal, Passaic and Paterson, N. J., and finally to this city.

When the detectives eventually ran him down they found that he was so changed in appearance that they could scarcely recognize him. As Professor Oxford he was apparently a benevolent old gentleman who wore a long white beard, and though the detectives had photographs of him, they were afraid they had made a mistake and kept him under surveillance for several days before they were willing to make the arrest. When he was taken into custody he denied being the missing Dr. Flower, but after being placed in a cell at the central station admitted his identity.

No complaints have been received by the local authorities, so far as can be learned, from any one who has fallen a victim to his wiles here.

## BOMB SENT FOR A JOKE.

Dr. Gottlieb Accused of Attempting to Kill His Father-in-Law.

NEW YORK, Jan. 5.—Protesting that he had sent an infernal machine simply as a New Year's joke, Dr. Julius Adolph Gottlieb of 225 West One Hundred and Sixth street made a statement to Inspector McLaughlin at police headquarters regarding his arrest on a charge of forwarding a bomb to his wealthy father-in-law, Morris Gluckman, a retired broker, living at 211 East Sixtieth street. He admitted that he had not been on friendly terms with Gluckman since his marriage to the latter's daughter five years ago, but denied that he had any intention of injuring him in sending the contrivance.

Although Dr. Gottlieb told the inspector he loved his wife and she still loved him, Mrs. Gottlieb's Yorkville police court asserted she would stand by her father.

"I've decided that my duty is to take my father's side of this affair," she said. "I have been hearing all sorts of reports about my husband lately." Dr. Gottlieb told Inspector McLaughlin: "It wasn't my infernal machine at all and could possibly have harmed anybody. And neither did I mean any harm nor was any harm done. I sent the thing to my father-in-law as a New Year's present. The bullet found inside the pipe I put there merely as a scare."

## To Enforce Japanese Treaty.

WASHINGTON, Jan. 5.—The department of justice will very soon file in the United States courts of San Francisco a bill in equity asking the court to enforce the provisions of the existing treaty between the United States and Japan, which in effect, it is asserted, guarantees to Japanese children the same rights in the public schools of the United States as are accorded to children of American parents. It will be insisted that the recent action of the San Francisco school board in segregating Japanese children is a violation of our treaty with Japan to which the school authorities are amenable.

## New Expedition For Arctic Sea.

COPENHAGEN, Jan. 5.—The Duke of Orleans has announced to his friends here that he intends to start a new expedition next spring in the ship Belgica to penetrate as far as possible along the northwest coast of Greenland. The purpose of this expedition is to join the Danish expedition under Mylius Eriksen, which left here last June to explore the same coast.

## Bangor Pioneer Dead.

BANGOR, Pa., Jan. 5.—Stephen W. Keat, one of the pioneer slate operators in America, is dead at his home here, aged seventy-nine years. The deceased was a native of England, but had been a resident of Bangor for many years.

## Globe Warehouse

Talmadge Block, Elmer Avenue.  
Valley Phone.

## Decadence of Noses.

When I was a girl the aristocratic nose was high, beautifully molded, rising in a delicately waving ridge and at the tip standing well out from the face and not turned up. But now the fashion has completely changed. The pretty women one sees portrayed in illustrated papers and magazines very seldom have much to speak of in the way of noses.—The Throat.

## Their Only Value.

"I've got at least six complete novels," said Woolly Ritter, "which I have written from time to time, and have never shown to a publisher. I've had them several years, and I really believe they're growing more valuable each year." "I wouldn't be surprised," remarked Crittick. "The price of paper is steadily advancing."

## She Was Suspicious.

People are more interested in science than they used to be, remarks a high authority. But it is quite possible to be too scientific. A friend of mine got into serious trouble by expressing a fondness for ethylhydrazide in the hearing of his wife, whose name happened to be Dora.—London Opinion.
