TRADE CONDITIONS. R. G. Dun & Co.'s Weekly Business Review. NEW YORK, Jan. 12.-R. G. Dun & Co.'s weekly trade report says that returns are irregular because of the erratic weather, unseasonable high temperature, restricting sales of heavy-weight wearing apparel at some points, while business is most satisfactory in colder sections. Freight blockades were relieved to some extent by open weather and special efforts by officials, but there is still much complaint of tardy deliveries. Mercantile collections are also more prompt in some sections than others, but there is unanimity regarding the large amount of forward business on the books of the manufacturing plants and general confidence in the future. Bargain sales are reducing retail stocks of winter goods in preparation for spring openings. Some steel mills are now able to make deliveries more promptly because specifications are less frequent, especially in respect to structural shapes and a few plants are rolling billets in the structural mills, which relieves the pressure very much in that department. Demand for cotton goods in the primary markets is somewhat less urgent but selling agents are no less confident, and there is no prospect for lower prices in the near future owing to the abundance of business on the books of the mills. Commercial failures this week in the United States are 311 against 250 last week, 187 the preceding week and 320 the corresponding week last year. Failures in Canada number 20 against 17 last week, 17 the preceding week and 51 last year. Of failures this week in the United States 116 were in the east, 105 north, 70 west and 20 in the Pacific states, and 43 report liabilities of \$5,000 or more. Liabilities of commercial failures reported for January to date are \$3,268,450 compared with \$2,178,227 a year ago. Business Took Undercut and Cash. TOLEDO, O., Jan. 12.-Burglars entered the residence of George D. Harsh here, and after ransacking the house carried away Mrs. Harsh's underwear, in which she had secreted a pocket book containing \$27.25. Watches and jewelry were left untouched. Entrance was gained through the front door, which had not been locked. The burglary was discovered by Mrs. Harsh when she awoke. Mrs. Harsh believes she and the other five members of the family were chloroformed by the burglars, as she and her daughter were nauseated when they awoke.
