BROUGHT SUIT TO RECOVER WAGES

E. O. Tanner Says Keystone Guard is indebted to Him in the Sum of \$180—Company Pleads Violation of Contract.

The Keystone Guard, the new insurance company which was organized in Athens and which has been doing business for several months, is the defendant in a suit brought before Justice Carey of Sayre, by E. O. Tanner, one of the company's agents, to recover the sum of \$180, alleged to be the balance due on renewals of policies which Tanner had secured for the company. The case came up for a hearing yesterday afternoon.

Mr. Coyle was for 40 years in the employ of the Lehigh Valley railroad. He learned the machinist's trade at the Lehigh Valley shops, Easton, and was later made master mechanic of the Lehigh Valley shops at Perth Amboy, N. J., where he remained for about 20 years. About four years ago he was made master mechanic of the Lehigh Valley shops at Weatherly—Mauch Chunk Times.

Charged With Assault.

Robert Elke was placed under arrest this forenoon by Constable B. L. Lewis on a warrant sworn out by Willis Worden, assault and battery in the charge against Elke. He rents a house of Worden and the latter alleges that he has had trouble in collecting the rent. Payday the two men met on the street and Worden says that Elke knocked him down. When he appeared in court to secure the warrant Worden wore a discolored eye. Elke will be given a hearing before Justice Carey this afternoon.

E. O. Pealer's pet fox has escaped. Mr. Pealer thinks that the fox is not far away and would greatly like to have it returned to him.

Joseph Beach of Elmira, owner of the Park hotel property, is making preparations to enlarge and otherwise improve the building. At least 30 new rooms will be added to this popular hostelry. The work will be commenced as soon as the contract can be let. Under the management of Higgins & Sullivan this hotel is doing a fine business.

'Printers are beginning to see the point that they can no longer operate their business at the same prices asked for their work a half dozen years ago,' says the Port Alleghey Reporter. 'Every job turned out of a newspaper office ought to bring twice as much as it did six years ago. Everything the printer buys is twice as high, labor, paper, ink, and rent, besides most people require better printing than would satisfy them a half dozen years ago.'

SAYRE YOUTH REFUSED TO ATTEND SCHOOL.

He is Therefore Arraigned Before Justice Johnson of Athens, Under the Truancy Law.

Harry Miller, a lad between the ages of 12 and 15 years, was arraigned before Justice Johnson of Athens this forenoon on a charge of truancy. The lad resides with his parents on Summit street, and he is alleged to have made considerable trouble for the truant officer. It appears that he has persistently been absent from school, and the board of directors has decided to try what virtue there is in the compulsory attendance law. It is said that there are several other pupils of school age who are persistently violating the law, and they will be attended to later. The board of directors is determined to compel obedience to the attendance law, and has instructed the truant officer to begin proceedings in several bad cases.

Attention, Subscribers.

The management of the Record will esteem it a favor if subscribers will report any and all failures on the part of the carriers to deliver papers regularly. A radical change has recently been made in the system of delivering papers by the carrier boys and the management in order to ascertain how the new system is working must be informed by the subscribers if they are not receiving their papers regularly. Therefore, if you fail to receive your paper reach us by telephone, send a messenger, a postal card, or call in person and enter your complaint. We will then endeavor to get the matter straightened out to your entire satisfaction. The Record is published for the readers, and the management wants each subscriber to get the paper with regularity. In order, however, to deliver a paper at your door for the sum of twenty-five cents per month it is necessary to depend upon boys to do the work. It is not always possible to employ reliable boys and that is the reason we want all failures to deliver reported at this office.

Mothers who give their children Kennedy's Laxative Cough Syrup invariably endorse it. Contains Honey and Tar. Conforms to the National Pure Food and Drug Law. Sold by C. M. Driggs.

FEMALE SWINDLER WORKS MERCHANTS

Presented Worthless Checks Which Were Promptly Cashd By the Suspecting Victims.

At least two Sayre merchants, and a dozen others are likely to come to light, who have recently been victimized by one of the cleverest swindlers that has visited this region in many moons. The story leaked out through one of the merchants who regarded it too good to keep, despite the fact that he is out a ten dollar bill. The person who did the job is a woman, described as about 5 feet 5 inches in height, and slender, with a fairly attractive face, and clad in fashionable clothes. While her methods was not out of the ordinary the most remarkable part of the story is that she has been in Sayre some seven or eight months and none of the merchants with whom she has transacted business from time to time are able to tell her correct name. Neither are they able to locate her at the present time, and the chances are they never will be.

On Wednesday last she went into a business place in West Sayre and asked the proprietor if he would kindly cash a check for her. She had visited the store several times during the past six months and of course the merchant did not hesitate when she presented the check.

The check was numbered 187, dated January 4, 1907, and was an order to the First National Bank of Sayre to pay 'Virginia Taylor' the sum of ten dollars. The check was signed 'L. V. Taylor' and endorsed by 'Virginia Taylor.' The body of the check had been carefully made out and the penmanship was excellent. The endorsement on the back had been made in a careless manner, but an expert in handwriting says that the check was drawn and endorsed by the same person. She received the amount called for and departed. The check did not reach the bank for several days, but when it did the cashier immediately informed the merchant that it was worthless, and that the bank officials did not know the name of the maker. The merchant then began to realize that he had been the victim of a female swindler. He kept still for a while, but finally determined to tell the police.

Subsequent developments show that still another merchant was buncoed in the same manner, and evidently by the same woman. Thursday of last week a woman who answered the description of the one who victimized the West Sayre merchant, went into one of the stores in the central part of the town and after making a small purchase of merchandise, she presented a check for eight dollars in payment. The clerk knew her, she having been in the store frequently, and therefore did not hesitate to give her the balance in change. The check was in favor of a man named Smith, and was signed by L. M. Morgan. It was presented to the bank, where payment was refused for the reason that there were no funds.

It is believed that other merchants have suffered more or less from the worthless checks passed by the same woman, and the police are making an effort to locate her. As a sequel to the foregoing story, Chief of Police James Walsh went to Rummerfield last night and arrested Gelle Gilliland, formerly an employe of the Packer hospital, but who was discharged from that institution for having taken a diamond ring belonging to one of the nurses. Miss Gilliland was brought here this morning by the chief and arraigned before Justice Carey on the charge of larceny by M. W. Beisecker and L. W. Stevens, proprietor of the West Sayre drug store. Friends of Miss Gilliland came forward and made good the amount that she received on Beisecker check and the complaint was withdrawn.

Chief Walsh worked up the case against Miss Gilliland, and it was through his persistent efforts that she was located.

TROLLEY FREIGHT BILL.

One of the Most Important Measures Before Legislature.

One of the most important measures that the State Board of Trade will bring before the present session of the Legislature is that permitting the carrying of freight by the trolley railroads. The measure is the outcome of the general agitation started some two years ago by a body of Pittsburg commercial travelers known as the 'Homeless Twenty-six' who, from a social dinner at which some of the grievances which the members suffered as traveling men were touched upon humorously, effected a serious organization with the object clearly defined of righting their wrongs. It was then agitation which led largely to the abrogation of the \$10 deposit required for mileage tickets and also the adoption of the two cent-a-mile rate.

The agitation started by the Homeless Twenty-six led to the organization of the State Board of Trade, which is devoted to promoting various measures calculated to improve the general welfare of trade and commerce in the State. For years there have been repeated attempts to introduce the carrying of freight over the vast number of trolley lines that cobweb the state from every important center. A measure has been prepared and will be introduced at the present session providing for this.

CATTLE FOOD MEN FINED.

Notified to Step Up and Pay \$50 Over to the State.

A number of dealers in cattle feed throughout Berks county will have to pay a fine of \$50 as a result of investigation made by N. B. Anderson, an agent's investigation proved that it did not culture.

The feed in question is a special brand of cow food prepared by an Allentown firm and designed to have the cows give more and better milk. The agents' investigation proved that it did not come up to the requirements of the department in the matter of pure food.

The Berks dealers handling the food were notified that they would have to pay a fine of \$50. If they do this there will be no suit instituted, but if they refuse prosecution will be brought for the full fine of \$100 allowed under the law. A number have already signified their intention of settling the matter and paying their fine.

NEW EQUIPMENT FOR THE VALLEY. Rapid Increase in Business Necessitates the Building of 5,000 New Freight Cars. The Lehigh Valley railroad company officials are preparing to handle an immense amount of business next year, and in anticipation of this fact 5,000 new freight cars have been ordered, 55 new engines will be constructed, and there will probably be other equipment provided, but which has as yet not been determined upon. Each year shows a marked increase in the business of the company. The freight department is rushed to the limit, and at times the present equipment is totally inadequate to handle the immense volume of business. Railroads all over the country are complaining of shortage in cars, and the Lehigh has been compelled to put up with this shortage along with the rest. It is expected, however, to overcome many difficulties with which the company has heretofore contended, by placing the orders for the new rolling stock and engines. Free! Free! Mrs. A. C.
