There is much opposition to the pening of the new street which will if decided upon favorably, run from Broad street north to Ithaca street. Petitions pro and con have been circulated and will be presented to the trustees tomorrow evening. Some of owners of the property through which the street will have to pass are objecting to the street and do not wish to have their land disturbed. Others think the street will cost more than it is worth. Many people are of the The Valley Record opinion, however, that the street is needed and there is a strong faction who favors having it put through.

The other matter is the extension of Howard street through to Cayuta avenue. It seems to be the consensus of opinion that this should be done.
