MISSING DOCUMENTS

Attorney General Jackson and the Ice Trust.

EVIDENCE TAKEN FROM OFFICE FILES

Demand Made on American Ice Company For Access to Their Books by State Official to Replace Lost Testimony.

ALBANY, N. Y., Feb. —All the evidence on which was based the complaint of Attorney General Julius Mayer against the American Ice company for dissolution of an alleged monopoly of the ice business, served on Dec. 20, has disappeared from the attorney general's office and cannot be found. This announcement was made last night by Attorney General William S. Jackson. Mr. Jackson also made public affidavits of employees of the attorney general's office which show that a part at least of the papers were known to be missing late in December, before the retirement of his predecessor, Mr. Mayer, but that the disappearance of the evidence was not known to Mr. Jackson until early in January, when, after he himself had assumed office, he took up the case with a view of further proceedings. Mr. Jackson said that he had served a demand upon the American Ice company for access to its books and records for the purpose of replacing the lost evidence and that the company had asked for time until Monday in which to make answer. Mr. Jackson said that if the company refused he would apply for a court order compelling the corporation to give him the desired access.

The missing evidence includes the original report (about thirty-one typewritten pages) made to Attorney General Mayer by John R. McNelle, the expert accountant, who made an exhaustive examination of the ice company's books, and "forty-four voluminous and bulky exhibits in amplification thereof." In an affidavit made public by the attorney general last night Mr. McNelle swears that while he retained in his possession a duplicate copy of his report he "did not retain nor has he ever had in his possession or under his control copies of the exhibits attached thereto, and no copies thereof were ever made to his knowledge, and deponent cannot make up or reconstruct said exhibits." Attorney General Jackson said that the willful abstraction of evidence from the attorney general's office would be a crime under the provisions of the penal code. "This office has been thoroughly searched," said Mr. Jackson, "but the missing documents cannot be found."
