MORMONS ARE LOYAL

Senator Reed Smoot Addresses the Senate.

Church of Latter Day Saints Has Stopped Plural Marriages - Sons of Utah Gave Their Lives For Our Flag.

WASHINGTON, Feb. 20. - Senator Reed Smoot (Utah), spostle of the Mormon church, addressed the senate in his own defense. It is the second speech he has made in the senate, the first relating to the creation of a game preserve in northern Arizona, a subject in which President Roosevelt and the Mormon senator are much interested. Mr. Smoot said:

"First, I desire to state, as I have repeatedly beretofore declared to the senate and to the country that I am not and never have been a polygamist. I have never had but one wife, and she is my present wife.

"The Mormon church has stopped plural marriages, and no polygamous relation assumed subsequent to 1890 is with the permission, sanction or approval of the church. That is final and fixed. Every such violation of the law has the express condemnation of the the body of the members of the church, and it remains the law of the church, modified or suspended except by the same power that enacted it.

"I have no besitation in declaring to the senate and to the American people that, in my opinion, any man who has married a polygamous wife since the manifesto should be prosecuted and if convicted should suffer the penalties of the law, and, I care not who the man might be or what position he might hold in the church, be should receive the punishment pronounced by the law against his crime.

"Reference has been made to an al leged treasonable obligation which it is sought to claim is a part of the Mormon end wment ceremonies. The senate will understand that these ceremonies are of a sacred character to those participating in them and are therefore not divulged. They were instituted in the Mormon church by Joseph Smith some time prior to his death and are vet given as part of the temple ceremonies.

"There does not exist in the endowment ceremonles of the Mormon church the remotest suggestion of hos-States or to any other nation.

"The application in this respect, as to the loyalty of the Mormon people can be brought home readily. We will pass by the incident of the Mormon exiles from Nauvoo furnishing a battallon for the United States army in the war with Mexico, the action of the Utah pioneers in raising the American flag in the Sait Lake valley when that was Mexican soil, the fidelity of Utah to the Union during the civil war, and come to the period of the Spanish-American war.

"The state of Utah came into the der to shoulder, with every other state in the Union, Utah furnished her full quota of American soldiers and offered

"There was no question of religious distinction or dispute then. I owe no Rev. Dr. William McEwan, when allegiance to any church or other orgame fish. KAULBARS HITS BACK.

Says Kuropatkin Was to Blame For Mukden Jefeat. ODESSA Feb. 5 General Kaulbars, governor general of Odessa, was interviewed here by a press correspondent on the subject of the charges

patkin in his book on the Russo-Japanese war. He said: "Although the book has not yet been handed to me, I have had correspondence with Kuropatkin on the subject in which I repudiate the charges and prove by documentary evidence that

they are entirely false. "On the eve of the battle of Feb. 22, 1904, the Russians were camped be tween the Sha river and Hun river. I submitted to Kuropatkin a plan, subsequently rejected, to jointly attack the Japanese from our strong entrenchments, the Japanese having none. The defeat was chiefly due to Kuropatkin's removing my reserves to re-enforce our left, thus running into a trap of the Japanese, whose successful demonstrative advance of their right effected the desired concentration of our troops og our left. My forces consequently were inadequate to repulse the flanking movements of Nogi's Port Arthur army. Moreover, my army was entrenched with 180 guns for an attack on Sandepu when Kuropatkin instead or dered me to oppose Nogi, whom, with his reserves, he could easily have beaten."
