BORROWED MILLIONS

Stuyvesant Fish in Turn Accuses Harriman.

MISUSED FUNDS OF ILLINOIS ROAD

New York's Big Financiers Each Charge the Other With Using Corporation's Money to Further Their Own Schemes.

NEW YORK, Feb. 28.—Stuyvesant Fish, who, E. H. Harriman testified at the interstate commerce inquiry here, was deposed as president of the Illinois Central railroad because he had used funds of the company in his own interest and put its money on deposit with a small trust concern on the verge of bankruptcy, made a reply in which he declared that Harriman himself had borrowed millions from the Illinois Central railroad, of which he was a director.

STUYVESANT FISH.

He and I sustained close relations for many years and were jointly interested in many large affairs. All of these transactions, as indeed all transactions in which I have engaged, will bear the closest scrutiny.

"It was at my instance that Mr. Harriman was made a director of the Illinois Central company, and we got along quite well until he became ambitious to make the Illinois Central a part of the Union Pacific system. I did not believe this would be in the interest of the stockholders of the Illinois Central, for whom I held a trust, and then and there Mr. Harriman and I parted company.

"He is quite right in saying that I borrowed funds from the Illinois Central, but he should have added that the loan was made at a time when we were most anxious to put out some of the surplus, that I hunted from bank to bank to loan our money, that this particular loan was made on collateral which was unquestionably ample and marketable, that several of the other directors borrowed from the company in the same way and finally that Mr. Harriman himself while a director borrowed from the company in precisely the same manner frequently and in sums aggregating several millions of dollars.

"As a matter of business I did not then regard it as improper, nor do I now. When, in the fall of 1903, I desired to repay the debt I proposed, I negotiated a new loan from Kuhn, Loeb & Co. Mr. Harriman asked me not to do so and volunteered to lend me the sum himself, and I accepted his offer.

"The Beauty Doctor."

Will Philbrick, the general comedian whose acrobatic and facial contortions and funny work so pleased our theatregoers when "The Beauty Doctor" was last seen here, will still throw the public into spasms of laughter, when the new edition of the piece comes to the Loomis opera house on Saturday evening. Many new and good things are promised by Manager Wright in this "second edition" of the big musical comedy, and new faces, both among the comedians and chorus in addition to those who danced, sang or laughed themselves into popular favor, are to be a portion of the new things served up by the beauty craze melange. On a Paper and a Comb, sung by Marie Bylands with the chorus as Coster Boys and Girls, is one of the features, while "Myron Brown, Farewell," with Mr. Philbrick and the chorus, is one of the most encored pieces among the season's new musical offerings. "Come Down, Mr. Man in the Moon," is a semi-sentimental ballad given with the dancing strength of the company. "My Flower of the South," with Mr. Farrington and chorus, with the beautiful southern flower, the magnolia, very much in evidence.

ANOTHER SUN SPOT BOOKED FOR FRIDAY.

Astronomer Brashear Says We Have No Occasion to Fear Tail of Comet.

Pittsburg—Another big sun spot is due about Friday of this week, according to John A. Brashear, the Allegheny astronomer, who discovered the big sun spot several weeks ago. Mr. Brashear observed five small spots Monday. There is a possibility that the large one that is coming will disintegrate, but the present indications are it will be at hand. Its full effect will not be perceived on the earth until the middle of next week, when they may be electrical disturbances caused by the great solar phenomenon.

The spot should make its appearance Friday in the western part of the sun. It will then gradually move toward the central meridian, arriving there in five or six days.

Mr. Brashear says the statement of Professor Mateucci, of the Mt. Vesuvius Observatory, Italy, that the earth will be in danger if it is struck by the tail of a new comet recently discovered is not.

"Stories of this kind make me angry," said Mr. Brashear. "The tail of a comet is more attenuated than a puff of steam, and if one should strike the earth it would not be perceived so readily, nor have as much effect as the aurora borealis. It takes 100,000,000 miles of a comet's tail to obscure a star of the first magnitude. Of course, the comet itself is more solid. The tail of a comet swept the earth in 1861 with no harmful results."

GOT CASH ON HOME, HUSBAND IGNORANT.

Mrs. Ida Westerberger Said to Have Borrowed Thousands by Wrong Man's Signature.

Media, Pa.—It developed in court Wednesday that Mrs. Ida Westerberger, who was arrested in Chester a few days ago on the charge of passing bogus checks, negotiated a mortgage for \$2200 December 30, 1904, on her husband's property at Glendolen, and the same was sold by the Sheriff, without his knowledge. Witnesses to the execution of the mortgage testified that Westerberger, who was in court, was not the man whom she presented as her husband when she obtained the \$2200 from a Philadelphia broker.

It was further testified that for three years she had been borrowing money on mortgages and notes amounting to several thousand dollars by the aid of some man who signed his name as John A. M. Westerberger.

A year ago the case was heard to the Sheriff's sale set aside, and Wednesday the husband stated that he had never signed the mortgage in question.

The \$2200 obtained on the mortgage belonged to Miss Eva I. Gustine, a teacher in the Institution for the Deaf and Dumb at Mt. Airy, and was loaned by her counsel.

FIGHT OVER HANDLING WEAVER MURDER CASE.

Two Sets of Justices and Constables Claim Jurisdiction Over Trial of Snyder.

York, Pa.—A contest as to who shall handle the Weaver murder case is being waged by two sets of justices and constables. This is at present attracting as much attention as the case itself. Hearings will be held next week before Alderman Zinn and Justice Robinson, and the court will probably be called on to decide between them.

Solomon Snyder, of North York, killed Samuel A. Weaver Saturday night Snyder has been held on the charge of murder. He claims ground for jealousy. Mrs. Snyder and Miss Thiel, a boarder, say Weaver was visiting Miss Thiel, his fiancée.

There was a partial hearing of the case before Alderman Zinn, but it was postponed, owing to the inability of the defendant's counsel to be present. Miss Thiel, who was to be the bride of the murdered youth, and who attended both hearings, sobbed continuously, but insists that she will do all in her power to bring Snyder to justice.

GAVE THEATRE PARTY. LOOTING CHARGED.

Man Who Entertained Lavishly Among Those Accused of Hobbing Wreck Victims.

Johnstown, Pa.—Five employees of the Pennsylvania Railroad Company have been arrested, charged with looting the wreck of the Pennsylvania Special, which went down the mountain side last Friday night. The arrests were made by Detective C. A. Robinson, of this city. The men under arrest are Brakeman Charles E. Hoover and John Hall, Peter Grobin, Alex. Lysle and Joe Lakewitch, employees of the wreck train. Detective Robinson said that four other Pennsylvania workmen are under suspicion.

Hall, who was arrested, had in his possession two diamond pins, two overcoats and a number of other articles of value. He also had a large amount of cash, which he claimed had been given to him by one of the passengers of the wrecked train, whom he had assisted. Hall gave a box party Tuesday night at a local theatre to a number of his friends, a big supper following. Immediately afterwards he was placed under arrest. He is charged with grand larceny, while charges of larceny have been preferred against the other employees.

PROPOSE BOOSTING FREIGHT ON STEEL.

Railroads Centering in Pittsburg Plan Raising Rates \$25,000,000 a Year.

Pittsburg—Railroads centering in Pittsburg propose to boost their freight revenues \$25,000,000 a year by increasing the rates on iron and steel which, incidentally, will mean an increase to consumers.

A secret meeting was held Tuesday at the office of James P. Orr, general freight agent of the Pennsylvania at which plans for bringing about the increase were discussed. The meeting was attended by representatives of the freight departments of all the railroads in the iron and steel districts, including the Pennsylvania Company, the Pennsylvania Lines, Pittsburg and Lake Erie, New York Central, Baltimore and Ohio, the Lake Shore and others. The reason is that operating expenses of the railroads have become greater.

BOY BURNED TO DEATH.

Another Youth at Camprun Received Probable Fatal Injury.

Dubois, Pa.—Homer Hetrick, aged 18 years, of Emerickville, was burned to death at Camprun Tuesday night, and James Ohis, of the same place, received burns that will probably result in his death.

The two young men were employed in the Anlata Mining Company's operation at Camprun. They finished work about 10 o'clock Tuesday night and went to their shanty, where they were living alone. They cooked a meal, and shortly afterwards went to bed about 11 o'clock. Ohis was awakened by smoke in the room. He was almost suffocated, but managed to get hold of his companion, who was unconscious, and carried him as far as the door, where he fell exhausted. Villagers managed to drag Ohis to safety, but were unable to reach Hetrick. Ohis was brought to Dubois.

RAILROAD NOTES

The clerks in the local offices of the Lehigh Valley received their monthly pay checks this morning.

Treatmen on the Northern Central division of the Pennsylvania railroad are reported today as favoring a strike unless a wage increase, similar to that recently given the conductors, is granted them.

A Lehigh Valley rumor is to the effect that Mr. John S. Lentz, of Lehighton, for many years at the head of the Lehigh Valley interests at Packerton, is to be transferred to Bethlehem, and that Mr. Ira Everett will be his successor.

The engineers of the fast trains on the Lehigh Valley railroad of the divisions ending at Sayre were in conference Wednesday morning with Superintendent Kinney relative to the handling of trains on the road. No one was censured, but all were cautioned about overspeeding while making up time on the line.

According to the Hazleton Standard the gate tenders employed in that city by the Lehigh Valley Railroad company will make a demand for shorter hours. The company, it is said, is not in favor of raising the wages of the men, and as they work 14 1/2 hours every day, with the exception of Sunday, they have decided to ask for a reduction in hours.
