TRADE CONDITIONS

R. G. Dan & Co. Report to Depre NEW YORK, March 9.-R. G. Dun & Co.'s weekly review of trade says:

Depression in the stock market did not extend beyond Wall street, commodity prices rolling high and general usiness continuing vigorous. The traffic conditions have improved somewhat, increasing the distribution of merchandise, and spring sales of dry goods have equaled anticipations. Retail trade is good for the season, and late buying of winter goods, necessitated by the severe weather in many sections, has depleted stocks in a most satisfactory manner.

Several wage scales are under dis cussion that may no be settled without further enhancing the cost of production or operation, but no serious strike is anticipated, and higher freight rates have become necessary on some roads because of increased expenses. Gross rallway earnings in February were 5.9 per cent larger than in 1906, and foreign trade at this port for the last week showed gains of \$5,705,924 in imports and \$1,214,730 in exports as compared with last year's commerce umercial failures last month were 924 in number and \$10,283,770 Jn amount of liabilities against 938 fallures for \$10,859,619 in February, 1906.

Dun's index number of commodity prices was \$100.913 on March 1 against \$107.609 a month previous, the advance occurring in breadstuffs and diary and garden products.

Commerical failures this week in the United States are 213 against 224 last week, 171 the preceding week and 221 the corresponding week last year.
