## THE END IN SIGHT

### Evelyn's Affidavit Accepted Through Hummel's Perjury.

#### PAPER SHOWS HE WAS HER COUNSEL

NEW YORK, March 19.—There now remain but four expert witnesses to be examined in the Thaw murder trial before the taking of evidence closes. Three experts were disposed of in a little more than an hour, so it is generally believed that the last word of evidence may be uttered in the famous case today. In that event the summing up by Mr. Delmas for the defense will begin tomorrow. District Attorney Jerome will reply on Thursday. Justice Fitzgerald may proceed immediately with his charge to the jury, or he may defer it until Friday. Unless the unexpected happens there should be a verdict by Friday night.

The case for the people was finally closed by the introduction of the much discussed Hummel affidavit, which, with the consent of the defense, was read in full to the jury. The affidavit proved a surprise only in the alleged severity of the assault Harry K. Thaw is said to have made upon Evelyn Nesbit during their trip through Europe in 1903 when, according to the testimony of Abraham Hummel, Miss Nesbit would not sign statements which Thaw had prepared accusing Stanford White of having drugged and ruined her.

In this affidavit Miss Nesbit charges Thaw with having attacked her with a cowhide whip while they were stopping at an old castle in the Austrian Tyrol and lashing her bare skin until she became faint from the pain and swooned. He repeated the attack the next day, according to the affidavit, and afterward in Paris he beat her at half hour intervals throughout one entire day, leaving off only when she would faint away and could no longer understand what was happening. Miss Nesbit is alleged to have sworn in the affidavit that she was in daily fear for her life and that Thaw acted as a demoralized person during some of the assaults.

The affidavit was in some ways a direct contradiction of Hummel's recent testimony upon the stand. In order that the defense might not prevent him from telling the story of the making of the affidavit he stated positively that he was not acting as Miss Nesbit's attorney when he drew up the document, that he was acting solely in the interest of Stanford White and that no legal action was contemplated in behalf of the young woman who is now Harry Thaw's wife.

There was considerable surprise consequently when Mr. Jerome read the opening words of the affidavit, which were:

"Supreme court, county of New York—Evelyn Nesbit, plaintiff, against Harry Kendall Thaw, defendant."

It is said the action contemplated when the affidavit was made was the recovery of certain property which it was alleged Thaw had wrongfully taken from the girl. In dictating the affidavit Hummel referred to himself as Miss Nesbit's attorney, she being reported to have said:

"I have received certain letters and cables from Thaw which I have turned over to my attorney, Mr. Abraham H. Hummel."

The affidavit is also indorsed "Howe & Hummel, attorneys for plaintiff."

When Mr. Delmas began the introduction of testimony in rebuttal he introduced first of all the record in the trial and conviction of Hummel on the charge of conspiracy. He started to read the entire record, but had not reached the remarks Mr. Jerome made at the sentencing of Hummel and which Mr. Delmas wanted to present to the jury when Mr. Jerome said he would admit the entire record without objection. Mr. Delmas then said he would save the district attorney's references to Hummel for the defense's summing up.

Next Mr. Delmas put upon the stand three policemen who saw Thaw the night of the tragedy or early in the morning after, and they all declared that he either looked or acted irrationally. Two of them he complained of hearing young girls' voices. The witnesses admitted on cross examination that there were seven women of the street in the station house the night Thaw was there and that they were making considerable noise, but could not be heard from Thaw's cell.

After this testimony had been presented Mr. Delmas passed to the final stages of the trial by introducing the first of seven affidavits employed by the defense, three of the experts being new to the case. Dr. Graeme M. Hammond and Dr. South Ely Jelliffe, who have been in the case from the first, and Dr. W. A. White, superintendent of the Government Hospital for the Insane at Washington, were witnesses and all were interrogated on the 1,000 word hypothetical question framed by District Attorney Jerome. Basing their answers on this question, all three of the experts declared Thaw was a mentally imbalanced at the time he killed Stanford White that he did not know the nature or quality of his act.

The next expert witnesses will be Dr. Ely and Wagner, who have heretofore testified for the defense and who will now be asked to give an opinion on Mr. Jerome's long question: Dr. Charles W. Flegler of Poughkeepsie, N. Y., president of the New York state lunacy commission, and Dr. M. J. Gregory, superintendent of the psychopathic pavilion at Bellevue hospital.

## BRYAN ON LABOR UNIONS.

### Hebraean Says They Are Great Benefit to Workmen.

#### CHICAGO, March 19.—William Jennings Bryan at the closing conference in connection with the industrial exhibit expressed the opinion that trades unions have done more good for this country than any force in the country.

Mr. Bryan's remarks were received with satisfaction by the audience of union men from the Federation of Labor who attended the meeting.

"When we consider that through trades unions wages have been increased, hours shortened and comfort afforded the workmen in greater measure," he said, "I think we have a right to say the benefits resulting from these unions cannot be overestimated. Perhaps no other force in the country ever has been so effective for improvement in the citizenship and general moral qualities of our people."

"The Australian ballot system, for one thing, is largely due to this country to the agitation of the trades unions. I almost feel safe in saying that had it not been for the interest taken in this reform by the organizations we might still be employing the old system of voting."

"If the labor union had never done anything else than raise the age limit of employment of children in the mines and factories of the nation, I believe that accomplishment alone would justify its existence. No influence in this country has ever been so evil in its effects as the tendency to crowd our workshops with children of tender years. It is a most destructive tendency and one that the public conscience should protest against."

Referring to women in industry, Mr. Bryan said he believed women might accomplish as much as men through organization and unions.

### Microscope as Witness In Brownsville Inquiry.

#### FOUR RIFLES DID "SHOOTING UP."

#### Alleged Confession of D. W. Gray Sent From Galveston Found to Be a Fake—Soldiers May Have Used Comrades' Guns.

WASHINGTON, March 19.—Four rifles from Company B, Twenty-fifth infantry, were used in the Brownsville affray, it is the ordinance department of the army can substantiate reports sent to the senate committee on military affairs concerning the microscopic examinations of the thirty three shells picked up in the streets of the town on the morning following the shooting.

All of the rifles in the possession of the battalion at Fort Brown on the night of Aug. 13 were sent to the Springfield arsenal and two shots were fired from each. The shells used were then compared with those picked up at Brownsville, and the officers making the tests reported that it has been demonstrated beyond dispute that four guns of Company B were used in discharging all of the thirty-three shells.

The reports were made a part of the committee records, and Lieutenant Hawkins of the ordinance department and G. A. Spooner, expert inspector of gauges used in the manufacture of muskets at the Springfield arsenal, are ready to go on the stand to explain their reports and be cross examined concerning them.

Two of Company B's rifles, said to have been used in the affray, were kept in the storehouse locked up the key of which was in the possession of former Quartermaster Sergeant Walker McCurdy, and the other two rifles were said to have been issued to Privates Joseph L. Wilson and Thomas Taylor. Senator Foraker immediately had subpoenas issued for Taylor and Wilson and for the recall of McCurdy. He also asked that the war department be instructed to send for Lieutenant Laurison, who commanded Company B at the time of the affray. Secretary Taft in a letter to the committee pointed out that the men who did the shooting may have used any guns they could secure and that Taylor and Wilson cannot be held to be guilty because of the showing made by the tests at the arsenal.

The alleged confession of "D. W. Gray" supposed to be a member of Company B, which was printed at Galveston, Tex., was formally denied in a telegram from Major Blockson at San Antonio to the war department. Major Blockson said in his dispatch that he had received a telegram from the chief of police at Galveston saying that the publication was a fake. Senator Foraker had the alleged confession put in the records with the denial which had been furnished to Chairman Taylor by the war department. The senator also had recorded the fact that there was not a man named "D. W. Gray" in the discharged battalion, but that there were two men named Gray, one G. W. and the other J. H. Gray, in Company C. Both of these men have denied that they had made confessions. One is in West Virginia and the other in Pennsylvania.

The committee, it has been decided, will visit Brownsville, Tex., and go over the scene of the "shooting up."

## TENNIS AT BOSTON.

### Two Former Champions, Sands and Crane, Win Opening Game.

#### BOSTON, March 19.—Two former champions, Charles E. Sands of New York and Joshua Crane, Jr., of this city, won the two matches which opened the fourteenth national court tennis championship at the Tennis and Racket club. Crane had a good match with his club mate, Austin Potter, the score being 6-0, 6-5, 6-1, while Sands put out J. J. Cairnes, also of this city, with greatest ease, the scores being 6-2, 6-2, 6-0. The results of the day's play were anticipated, but nevertheless both matches attracted large crowds. Crane in his match with Potter was very strong in his volleying, and his shots for the fore hand service were very sure. Potter showed considerable strength in his floor game in the second set, which he came near winning. In the second match Cairnes found Sands at the top of his game, while the local man was not up to his average. The New Yorker played his half volleys in excellent shape and killed a number of balls under the grille. Sands will now meet Pierre Lorillard, Jr., while Crane will play Foxhall P. Keays. Dartmouth and Williams Quarrel. DARTMOUTH, N. H., March 19.—The Dartmouth athletic council has voted to suspend all athletic relations with Williams as a result of trouble at a basketball game on March 8 at Williams town which decided the New England intercollegiate championship in favor of Williams. ## MARVIN BOY AT ERIE

### President Roosevelt Will Be Asked to Aid in Search.

DOVER, Del., March 19.—The authorities of Erie, Pa., notified Dr. Horace Marvin last night by telephone that they believed they had little Horace, his missing child. Two exhaustive interviews over the long distance telephone resulted between the Erie authorities and Dr. Harvey Marvin, who was in Dover awaiting messages and telephone calls for his father. Neither the Marvins nor the detectives would divulge any of the conversation. The boy, it has been learned, had been shadowed from Canada down through Port Huron and finally to Erie.
