

**LOCAL DEPARTMENT.**

Not long until 1890.  
Court December 9th.  
Boyer's majority in the state, was 60,012.  
The Prohibition vote in Philadelphia only reached 1,102.  
The weather for the past week has been very disagreeable.  
The Jury list for December term, will be found elsewhere in this issue.

Mrs. S. Mead of LaPorte twp., was visiting friends in town, on Sunday.

One day last week there were two or three hundred ducks on Lake Mokoma.

Howard Lawrence of Dushore, made us a friendly call, on Monday.

Warnings against Juvenile cigarette smoking are best sounded with a shingle.

Daniel Little of Eagles Mere, was doing business at the county seat, on Tuesday.

The political complexion of Forksville and Elkland, resemble one another very much.

On the fallen leaf is written the solemn truth—that all things earthly must pass away.

The election of 1890 will be for Governor and other state offices. It will not be an off year.

Read Orphans' court sale of the estate of Stephen Rouse, dec'd., elsewhere in this issue.

MARRIED.—Mr. John Scherff to Miss Alice P. Woods, both of Philadelphia, Oct. 17th, '89.

Johnston, the Prohibition candidate for State Treasurer only received 21,535 votes in the State.

The President has issued his proclamation making Thursday, November 28th, Thanksgiving Day.

Mrs. John Witmarsh of Davidson, is seriously ill at her Uncle's residence, John Andrews, on Park Street, LaPorte.

Mr. and Mrs. F. H. Tiffney of Brooklyn, Susquehanna county, were visiting their brother, W. T. Watrous of this place last week.

J. H. Spencer of Thornedale moved to this place on Tuesday and is now occupying the Episcopal Rectory, on King street.

Mr. B. Sheehan of LaPorte, in memory of his wife, erected a very beautiful monument at the head of her grave, in the Dushore cemetery, last week.

The man who revenges every wrong done him, has no time for anything else. If you can make your life a success you can afford to let the dogs bark as they go by.

Mr. E. Maben formerly of Thornedale moved to this place last week and occupies the Colt house in the second ward. Mr. Maben has charge of the dry loft at the tannery.

An exchange is about right in the following assertion: "When a man falls the world is willing to call it a stumble and give him a chance to rise, but when a woman falls she falls for keeps."

There will be more than four hundred Democratic candidates in the field, next fall, for the various offices. The fur will fly in the Democratic Convention next fall, judging from the present situation of things.

Wm. Moyer, Superintendent of the Lake Mokoma Land Co., was called to his home in Lycoming county, on Monday of last week, to attend the funeral of his grandmother. He returned to LaPorte on Monday.

According to most recent reports we are to have an open winter, a "closed" winter, a cold winter and a hard winter. The probabilities are the coming winter will be just like other winters with about equal proportions of snow, cold and blow.

Another change has struck the *Hughesville Mail*. The paper bears evidence however, that the same squashy brain pan is at the head of it and that the same shoe pegs are used for type. For a complete "dobb" the *Hughesville Mail* takes the cake

The result of the recent election in Sullivan county, has turned many Democrats to the Republican ranks. We learned of two on Monday who vow they will never vote Democracy in the future. We imagine that the result has done more for the future success of the Republican party of Sullivan county than a victory could have done.

Very evidently the boom in the price of potatoes has spent its force. The west is now supplying the markets at prices consumers can afford to pay, hence the price is growing weaker. It is estimated that there is a full average crop throughout the United States, which will be good news to those who have to buy them.

Fox township is the standard bearer of the Republican party in little Sullivan. Fox gave her whole body with her tail thrown in for the success of the Republican nominee for Sheriff on Nov. 5. The result was: 105 votes for Lawrence and only 31 for Utz, giving Lawrence 74 majority. Boys you are entitled to the cake.

Rev. Father Enright of Dushore, held Mass in the second ward school house, on Sunday last. The question as to the advisability of erecting a Catholic church at this place is being agitated. To accomplish this undertaking would likely be necessary to have some energetic person make a commencement with the intention of accomplishing their undertaking. Our people will subscribe liberally.

Chief Engineer Wm. A. Mason and son, W. C. Mason, of LaPorte, are engaged in running a line for the W. & N. B., from Halls to Williamsport with the prospect of the road being extended to said point. Rumor has it that the Pennsylvania R. R. Co., will purchase the W. & N. B., soon and will take possession of the same on the 1st of January 1890. We do not vouch for the correctness of the statement, however.

Oliver Richolt, formerly of Muncy, was arrested in Schuylkill county on Monday last for securing a carload of scrap iron by false pretence of Hoyt Bros., through their agent Wm. Hall of Hills Grove. He was brought to LaPorte and placed in the custody of Turn-key, J. H. Thomas, on the eve of the arrest. Richolt, claims that he paid to the J. P., in Schuylkill, who issued the warrant for his arrest \$95, of the amount leaving a balance of \$45. The prosecutor claims however that there is \$150, due. Richolt says he will contract to work the debt off in Hoyt's tannery at Hills Grove if Mr. Hull will grant him the opportunity.

Eagles Mere Baptist Chapel.

A long felt want by the families residing permanently at Eagles Mere, is being supplied by the erection of this Chapel. Providing as it will a suitable place for a Sabbath School and other religious meetings for the entire year. This work was undertaken upon encouragement received from friends in the community, irrespective of church connections. The building is now nearly completed and it is the earnest desire of the church to pay off all debts contracted for building and furnishing it by the first of December. We wish to say to our friends that your help will now be very acceptable. Our time will not admit of the pleasure of calling upon all of you but your remittance will be thankfully acknowledged.

The result of the Iowa election this fall, as will be seen elsewhere in this issue affords a striking illustration of the perversity of the Third-party Prohibitionists that, notwithstanding all efforts and sacrifices of the Republican party to establish Prohibition in Iowa, they have insisted upon running a straight ticket in every election. If the next Legislature repeals the Prohibitory law they will have to take much of the blame to themselves. Republicans will not put up with insult upon insults. They are willing to assist the Third-party and to them the Prohibition party is indebted for all they possess to-day. They will not, however, make a sacrifice of their own principles to a body so ungrateful as the Third-party of Iowa have proven themselves to be.

Mr. Morton's Hotel Has No Bar.

CHICAGO, Nov. 7.—The Inter-Ocean prints an authoritative denial of the story about a bar in Vice President Morton's apartment house in Washington. The denial was sent to the Rev. John H. Shaw, of this city, who had written the vice president regarding the matter.

Chairman Andrews, of the Republican State Committee has been visiting National Chairman, Senator Quay, at his Beaver home. The Pennsylvania Chairman would undoubtedly receive a word of warm commendation, which he so well deserved, and he may well feel that he fully justified the confidence shown by Quay in indicating him for his present position.

The jubilant *Gazette* does not claim the election of Utz as a Democratic victory; and in this it is right. Many of the soundest and most reliable Democrats did not support him at all, and many more supported him under protest. No, it is not a Democratic victory; it is the victory of CASH.

The Republicans of Sullivan county have proven that in county affairs they seek the best men for the offices, and will not oppose a man merely because he is a Democrat. Alphonus Walsh received every Republican vote. Let no man argue hereafter that Republicans will not on fitting occasions support Democrats for county offices.

In its last issue before the election the *Gazette* published several bare faced lies knowing it was too late to have them investigated before election, and intending to get the benefit of the lies at the polls. Several of these lies are too trifling to pursue, but the one in which we are charged with publishing a "forged letter last year" we are unwilling to let drop. We now demand of the *Gazette* to make good its allegation or stand before the public a self admitted liar.

We have heard it remarked that two ladies of LaPorte anticipate going into the newspaper business, in Sullivan county. The political complexion of the new sheet will be Democratic. They say the *Gazette* does not amount to anything and it is time that the party had a good reliable organ. The ladies give the best of reasons and will undoubtedly have many followers.

The *Gazette* last week put out its rooster with head lines. "The Ingham Ring is Dead." The Ingham Ring is the creation of the Editor's imagination, used by him during the campaign as a big bear to frighten his adherents. There was not the shadow of a Ring in the nomination of Lawrence or in the election campaign. The Republican Convention unanimously nominated Lawrence; there was no "dictation" from any source. His defeat is merely the victory of capital over labor.

Wyoming county is no longer figured in the Democratic column. The result of the 1888 campaign which gave Harrison 187 majority and electing the entire Republican ticket corroborated with the recent election giving Boyer a handsome majority and electing the full Republican ticket is convincing evidence that Wyoming is being populated by Susquehanna and Bradford county people who vote protection to our country. The Democrats of said county made a desperate struggle for success but it proved in vain. We predict that the *Wyoming Democrat* will in a short time advocate Republican principles. Nothing like being on the big side; is there Day?

In the life of Lincoln now running through the papers of the *Century* magazine, a message prepared by the President and submitted to his Cabinet on February 5, 1865; is made public for the first time. In it he proposed to pay the Southern States \$400,000,000 as an indemnity for the price of their slaves, offer complete pardon for political offenses and release confiscated Southern property. The Cabinet unanimously disapproved of the scheme. The secret never leaked out and the message never saw the light until now.

CHICAGO, Nov. 7.—The Inter-Ocean prints an authoritative denial of the story about a bar in Vice President Morton's apartment house in Washington. The denial was sent to the Rev. John H. Shaw, of this city, who had written the vice president regarding the matter.

Of the four Western precincts of Sullivan county, viz: Forksville, Elkland, Hills Grove and Fox, the two latter can only be relied upon to stand by the nominations of the Republican Convention; all four however, give a large Republican majority on National matters. The result of such actions is humiliating to the Eastern Republicans who work hard for the success of candidates named by the party. We shall continue to work, however, and in time will shame the advocates of Republican principles into line.

**Prospects of Oil.**

Nearly all the land in the townships of Albany and Overton, in fact the whole southern portion of Bradford and the northern portion of Sullivan counties, has recently been leased by Oil Prospectors.

It will be remembered by our readers that about two years ago several test wells were drilled in the vicinity of New Era, and were "plugged." Many believe there is oil in that region and that the present prospectors are under directions of the Standard Oil Co. At any rate it will not be long before drills will again be on the ground and new wells put down. Should the hope of finding oil and gas in this or Sullivan county prove successful it would give an impetus to business over a large scope of country.—*Bradford Republican.*

Congressman Perkins, of Kansas, who stumped a portion of Virginia, for the Republicans, had a rough experience among the rebels of that benighted country, and he is not anxious to repeat it. He was constantly subject to abuse and misrepresentation by the Democratic press, and to cap the climax, the proprietor of a hotel at Orange Court House compelled him to leave the house after he had made a speech, and he was forced to travel several miles in the country before he could get a meal. And this is in free America within a few miles of the National Capital and in a section that has boasted of its chivalry and hospitality. If there is a State in this Union that needs reconstruction more than any other, it is dark and benighted Virginia.

Elections were held in ten States on Tuesday Nov. 5th, the Republicans carried three, while the Democrats were successful in the other seven. There are many surprising results in some of the states, which are due to local causes and not as rebuke to the Administration. Pennsylvania rolls up a magnificent majority of 60,000 for Hon. H. K. Boyer, the largest majority ever given to a candidate for State Treasurer. Massachusetts and Nebraska are still found in the Republican column. Iowa has gone Democratic by a small majority, caused by several local dissensions. The third term business in Ohio, no doubt was the cause of Foraker's defeat. Apathy on the part of the rural Republicans in New York gave that State to the Democracy. In Virginia Mahone was snowed under. In Mississippi there was no contest and in New Jersey the Democrats, as usual, were successful.
