We do not think the oldest inhabitant ever saw as much vegetation at this time of the year as may now be seen in the many gardens in this vicinity.

The man who wants to lay up something for a rainy day now has a hard time of it. There are so many rainy days that the fund goes before it is started.

The Wellsboro Agitator quotes apples as selling at 50 and 60 cents per bushel at that place. Buyers say Tioga county is the banner county for apples this year.

Seth Shoemaker accompanied by three other Republicans of Elkland twp., left for a deer hunt up the West Beach, last week. They will be absent a fortnight or more.

If side walks are a necessity there should one be laid to our new school house. The town council should take immediate steps in this direction. The children should be looked after.

There is considerable business doing at Thornedale notwithstanding the tannery is shut down and not in operation. Mr. McFarlane has a large number of men employed there hauling bark &c.

Alfred Michael, who resides near Hughesville on a farm, had a valuable horse badly gored by an infuriated boar, on Friday of last week. The pigs were being driven along the road, when the boar suddenly ran under the horse and with his tusks tore open the animals stomach. The horse is still alive.

Diphtheria is reported in Forks twp., to a considerable extent.

The Independent candidates have fopped their wings and died politically.

Atty. E. M. Dunham and Dr. W. B. Hill, both of LaPorte, spent election day, hunting wild game.

Two good Republicans of LaPorte, W. C. Mason and W. T. Watrous, were absent on election day. Their votes were not only missed but their effective work at the polls also.

Charley Messenger of LaPorte, is quite in luck. On Friday he found a bee tree containing fifty pounds of honey and on Saturday he killed five ducks on Lake Mokoma.

A man struck by a passenger train at Lancaster, was picked up for dead but upon being placed in the baggage car he regained consciousness and walked out, to the astonishment of the train hands.

The Lyon Lumber Company are through cutting logs in Sullivan county, and will now begin to build slides. This Company, whose office is in Muncy, employ seventy men.—Muncy Luminary.

John P. Kennedy Esq. disposed of his interest in the billiard room at Lopez, to his partner Eugene Deegan, last week. Mr. Kennedy is spending a few days with his parents at LaPorte.

The Reviewer man who claims to publish an Independent sheet, has placed himself in a very peculiar position in this campaign, however, we take pleasure in announcing his whereabouts. He will join McGinty and never will be missed.

J. A. Huffsmith of Picture Rocks and well known in Western Sullivan, was learned to have forged notes to the amount of \$840. last week. The names forged were Burrows Bros. & Co. The whereabouts of Huffsmith is unknown.

Chestnuts may be made to keep their pleasant taste, and be kept free from worms by heating them for a few minutes in a sieve placed in a hot oven so as to kill the insect germs which are in so many of them, then place them in muslin bags in a dry place.

B. G. Welch Esq., manager of the W. & N. B. R. R., is about to extend the telephone wire from Eagles-Mere to Forksville. W. E. Miller of Forksville, has contracted to erect the poles at a cost of \$143. Mr. Miller expects to complete the work as soon as possible.

What the highwayman wants is your money; what the burglar wants is your money and what the cheat is after is your money. Money, therefore, is the root of all evil, but we are all anxious to share a piece of it and dig and delve from one year's end to another to secure it.

A large deer was seen in the field of James McFarlane, near the new school house, one day last week. The boys of the second ward armed themselves with winchesters and old army muskets and took chase after the innocent. One of the boys fired two shots at the deer, one taking effect, but not sufficient to kill him. He is still roaming in the forest.

Persons now and then remark that we did not make mention of their friends while visiting them. As we have said heretofore, several times, we publish all that we know of, and we can not be expected to know of every person visiting in our town. We say again hand us a slip of paper with their names, and we will be pleased to publish them.

John English an old soldier in the employ of James McFarlane, was granted a pension last week, to the tune of eighteen hundred dollars back pay and is to receive twenty dollars a month. Mr. English is deserving of the reward from the government having contracted several diseases during his service in the army. Atty. H. T. A. Walsh of LaPorte, spent Sunday with friends at Dushore.

Tuesday was a blustering cold day—perhaps the cause of Delamater's defeat.

The board of County Commissioners elect, are, Scanlin, McBride and Cheney.

The postage stamp has been in use half a century. It was introduced May 6, 1840.

Our friends will please accept thanks for favors shown us on Tuesday. The result should be a lesson to those who anticipate jumping on board as an independent candidate.

The old school house building and lot on East Main St., were disposed of at public sale by the board of school directors, on Wednesday. James Quinn purchased the same at a cost of \$152.

There is a disease making its appearance in some localities which has the nature of the grippe, which prevailed last winter. While in many respects it is like that disease, different symptoms affect different people. The physicians do not agree on exactly what it is, but there are a large number of people complaining. The symptoms by which it may be known, are these: Pain across the head through the temples, intense pain in the eyes, nose and eyes swollen, and a general feeling of languidness. Some people lose appetite; others have an inordinate desire for food, and in both cases the symptoms are accompanied by feverishness in the evening.

Some people think that the sign boards forbidding hunting, fishing, nut-gathering or trespassing upon private lands are of little account and they may be regarded with impunity. This is a mistake, as the law makes it an act of trespass to go upon any cultivated or enclosed land for any purpose without permission from the owner, even if there is no sign board, and the owner is entitled to recover actual damages for such trespass. When the sign boards are properly erected, any person who trespasses is not only liable to pay actual damage, but also a penalty not exceeding \$25.

The Supreme Court very properly declines to hear at present the new original package case comes to it from Kansas on the question whether its former decision makes new liquor legislation necessary to render the original package act of Congress operative. Justice Miller was one of the majority who concurred in Chief Justice Fuller's demoralizing decision, and should his successor agree with most of the best lawyers that the decision is wrong, and one member of the majority change his mind upon it, the decision would be reversed. This would be the simplest and best disposition of the matter, and relieve the Supreme Court of the necessity of passing on different forms of the same question again and again. The oleomargarine men are claiming the benefit of the decision, and are operating original package oleomargarine shops. They are fully warranted in this, and the Wilson act does not reach them, even if it is held to be operative upon liquor selling, without new legislation. The Supreme Court has rarely made a more unfortunate decision, and we are reasonably confident that it has sufficient virtue to correct its error when the question comes up for fresh consideration.

How to Ruin a Son.

- 1. Let him have his own way.
2. Allow him the free use of money.
3. Suffer him to roam where he pleases on the Sabbath.
4. Give him free access to wicked companions.
5. Call him to no account for his evenings.
6. Furnish him with no stated employment.

Pursue any of these ways, and you will experience a most marvelous deliverance, or you will have to mourn over a debased and ruined child. Thousands have realized the sad result, and gone mourning to the grave.

It is perhaps not generally known that every soldier who lost a leg or arm in the use of the United States service, is entitled to a new artificial one every five years, or if preferred, an equivalent in money, a leg is valued at \$75 and an arm at \$50. This law does not only embrace the loss of limbs entire, but limbs rendered useless, whether amputated or not, are included in the bounty.

A Railroad Rumor.

There is a rumor which comes from a good source, that the Philadelphia and Reading Railroad Company has leased the Beech Creek railroad, and the Pine Creek railroad as far up as Corning.

Dynamite Experiment.

UTICA, Oct. 31.—Another experiment with Dr. Justin's dynamite cartridge was made at Perryville yesterday in the presence of a number of experts. The shell was similar to the one used last time excepting that it was bored out of solid steel and had no blow holes. A 12-ton Blakely rifle was used similar to the two that have burst in previous experiments. The shell weighed 275 pounds, and contained nine pounds of sand instead of dynamite in the inner cartridge. The charge was 30 pounds of hexagonal powder. The shell was fired into a sand bank at the distance of 30 yards and remained almost intact. The shell was opened and testified to the correctness of Dr. Justin's theory of the late explosions in the gun. Another test will be made with the same shell, and on the third test dynamite will be again used, the inventor being confident that all difficulties have now been removed in firing charges of dynamite from any smooth bore or rifled gun.

BAD FLAW IN THE MAINE.

A Defect in a Steel Casting Turned Out By a Thurlow Firm.

NEW YORK, Oct. 31.—The Maine now building at the Brooklyn Navy Yard and the first of the armored cruisers of the new navy, will be launched on November 13. Last Tuesday Chief Engineer Melville, Naval Constructor Highborn and Past Assistant Engineer Parry came on from Washington, and in Company with Naval Constructor Mintoye, inspected a serious defect in one of the steel castings for the vessel which can only be repaired at a very large cost of time and money. The flaw is a hole three-quarters of an inch wide on the inside of the port shaft strut's hanger. A shaft strut is a heavy casting riveted to the hull of the vessel to support the propeller shaft. It is important that the steel of this brace, which itself weighs several tons, should be entirely free from flaw owing to the weight it is required to carry and the probability of disastrous results should it break and permit the action of the screw to be deranged. The strut will be accordingly condemned and a new one ordered. When the casting was turned out at the Standard Works in Thurlow, Pa., the Government inspectors pronounced it sound in every respect.

More About Chewing Gum.

Girls will not be pleased to learn that the habit of chewing gum produces wrinkles around the corners of the mouth, and creates a tendency in the lower lip to hang clumsily to the chin. The gum chewing habit is most general among girls just entering their teens, which becomes chronic if continued until they are sixteen, rendering it almost impossible to discontinue if it is not broken off soon thereafter. A gum chewing girl not only runs these risks, but she incurs a danger in impairing her memory, as the habit leads to absence of mind pre-occupation and indolence, that are demoralizing in the highest degree. There is not a single benefit in gum chewing to offset these disadvantages. Health of mouth and beauty of lips are both put in jeopardy by the practice. Girls who are sensible will of course appreciate these facts.

The coinage of the three cent piece is to be stopped, and they are to be withdrawn from circulation. Everybody will be glad of it, for the three cent pieces so closely resemble dimes that they are an unmitigated nuisance. It is well that we are to have no more of them.
