WHY QUAY WILL RETIRE.

### The Duties of Chairman Are Too

Burdensome. NEW YORK, July 20 .- Mr. Clarksoh was to-day shown the dispatch in the morning papers purporting to quote Senator Quay's words stating that he had decided to resign the Chairmanship of the Republican National Committee immediately after the election. Mr. Clarkson said: "I am able to state that this is true. Immediately after the election Senator Quay stated to his colleagues of the Executive Committee that he desired to resign as chairman, that he did not desire to do the detail work and have the detail correspondence of a political committee. His colleagues on the committee resisted this, and soh was to-day shown the dispatch in the morning papers purporting political committee. His colleagues have delayed my case some time if on the committee resisted this, and I had not anticipated it and had the persuaded him not to resign. He prisoner examined."

MR. GRAHAM'S PLAIN TALK. He Explodes the Paresis Story Circu lated by Bardsley's Friends,

There is evidently a movement on foot among the friends of John Bardsley to secure the sympathy of the pardon board in his behalf by circulating the story that the ex-City Treasurer's speculations were the result of paresis and that he is no longer of sound mind and likely to break down at any time. Several well known physicians have been quoted, who stated that the inclination to wild speculation was one of the first symptoms of softening of the brain. Of these not one ever attended the ex-City Treasurer during his late illness. There seems to be no tangible foundation whatever for the assertion and the general onlying among those who court week. al opinion among those who ought to know is that the story is a warm weather fake.

The improved method of fastening strings of Pianos, invented by us, is one of the most important improvements ever made, making the instrument more richly musical in tone, more durable, and less liable to get out of tone.

Both the Mason & Hamlin Organs and Pianos excel chiefly in that which is the chief excellence in any musical instrument, quality of tone. Other things, though important, are much less so than this. An instrument with unmusical tones cannot be good. Illustrated catalogues of new styles, introduced this season sent free.
