Mr. Newwed—"That is very sensible, I must say."

Mrs. Newwed—"I have also been trying some waxed thread and a coarse needle on my old shoes, and I believe they'll last six months longer; and I've turned that old carpet we bought second-hand, and given it a thorough washing, so that it will do very nicely; and I'm going to make some curtains for the upstairs windows, to avoid buying new ones."

The way to get good is to do good. Pride's next door neighbor is shame.

Love speaks the mother tongue of everybody.

The best time to keep away from some people is when you are in trouble.

The time when a woman has no mercy is when she gets a mouse in a trap.

The man who has no business of his own to attend to always goes to bed tired.

There are some people who think the music never amounts to much except when they play first fiddle.

If everybody's children were as good as their neighbors think they ought to be, the sun would never set.

It is a great thing for a man to have a thought, but it is a greater thing for the thought to have a man.

If you cannot give a good reason for what you are doing, that is a good reason why you should not do it.

It is a pretty sure sign that we have failings ourselves when we are much given to calling attention to the failings of others.—Indianapolis (Ind.) Ram's Horn.

The Bluebird. You may expect him any time after the sun passes the winter solstice.

In his musical engagements it is not a matter of dates, but opportunity. It is never a matter of opportunity. Who ever heard of a bluebird's song out of season? It may be cold and snowy to-morrow, but his wings tremble in the nervous ecstasy of the present, and he sings of the bit of spring that now is.

When the storm comes then he is silent. He may flee before its breath, or, if it is late in the season, he will fold his wings, unstring his lute, and uncomplainingly wait till the vernal sun and wind shall come again. But let the merest slit of sunlight gash the cloud, and he warbles forth his greetings. He has been accused of trying to force the season. But it is not that. He is such a lover of the very promises of nature that he is as happy in hope as fruition.

I found a group once shivering against a March snow-storm, late, as the sun was sinking, and stopped to watch them pitying their distress. Suddenly there was some commotion, which I attributed to my presence and scrutiny—a low conversational chatter, a quivering of wings, a few fitting changes of position, and then a gurgle of spring melody among the snow-drops. Astonished, I turned to where the sun should be, and there, on the horizon's rim, its half-disk was burning like a beacon. Two minutes later it was out of sight, the air was gloomy, the snow fell on, but the morrow was a blue-bird day, indeed.—St. Louis Globe-Democrat.

Willow Legs. The demand for willow wood for artificial legs has grown immensely in recent years.

The funny men on the stage talk glibly of cork legs, but light willow limbs are more popular. English makers claim that the best willow in the world is to be found along the banks of small streams in the southern countries, and there seems some ground for their contention, although an immense quantity of good willow wood is cut every year in this country.

Statisticians say that over 1,000,000 English speaking men wear or walk on wooden legs, and this accounts for the enormous trade in limbs of this kind. The old-fashioned stump with an iron tip on it is seldom seen now. It was a great success in its day, and with reasonable care and luck lasted close on a lifetime; but it was too awkward and conspicuous, not to say noisy, to be popular. The modern wooden leg is more costly, but it is much more comfortable, and many a man who is compelled to walk with the aid of one can give pointers in deportment and grace to others more blessed by fortune.—St. Louis Globe-Democrat.

A Mighty Big Fox. Ben Goodin, of Turkey Creek, one morning last week killed a red fox that had been carrying on a war of annihilation among the poultry.

It measured four feet from tip to toe. A foot of said fox having been left with the Enterprise we offer the same to the first hunter that pays his subscription to keep as a trophy of his skill.—Wessex (Mo.) Enterprise.

People Know a Good Thing. THAT'S WHY REMINGTON TYPEWRITERS ARE IN DEMAND.

Some idea of the present wonderful growth of the typewriter business may be gained from the fact that the sales of Remington typewriters for January and February, 1892, exceeded those of the corresponding months of 1891 by \$150,000.

The great and constantly gaining popularity of the Remington is clearly shown by the fact that the business has more than doubled within three years. The Remington factory at Ilion, N. Y., employs 700 men to fill the demand created by the sales agents, Wyckoff, Seaman & Benedict, who dispose of machines at the astonishing rate of one every five minutes.

"German Syrup"

I must say a word as to the efficacy of German Syrup. I have used it in my family for Bronchitis, the result of Colds, with most excellent success. I have taken it myself for Throat Troubles, and have derived good results therefrom. I therefore recommend it to my neighbors as an excellent remedy in such cases. James T. Durette, Earlsville, Va. Beware of dealers who offer you "something just as good." Always insist on having Boschee's German Syrup.

Some of the gentlewomen of London who have gone into trade have by no means been deserted by their former friends. Sanitary Walls and Ceilings. Q. Does the Bible have anything to say regarding sanitary walls? A. Read Leviticus, 14th Chapter, 38-41 verses.

Q. What do modern sanitarians say. A. That wall paper and gipsy romances are directly responsible for much of the sickness, ignorantly attributed to other causes.

The Chicago Inter-Ocean, in an article on papering walls, under the caption of "Nasty Practice," has this to say: "Our Health Officer, Dr. DeWolfe, says the free passage of air through walls of living rooms is an important element in proper ventilation. The practice of papering rooms by layer upon layer of wall paper, made adhesive by glue or paste, which adds a decomposing material to the nasty practice, can receive nothing but condemnation from the sanitarian. The perfect wall for domestic habitation is of material which resists decomposition in every form, and which permits the free passage of air. It seems to me that Alabastine is admirably adapted for the purpose."

The Doctor agrees with the Inter-Ocean, that a special law should be passed to prevent the practice of pasting repeated layers of paper on the walls.

Write the Alabastine Co., Grand Rapids, Mich., for supplement from the report of the Michigan State Board of Health, entitled "Sanitary Walls and Ceilings."

Remember the name, Alabastine, made from alabaster rock. Pale green will be much used this season in combination with light tan cloths, and green in pine, moss, sage, etc., also pale yellow with gray and fawn gowns.

For strengthening and clearing the voice, use "BROWN'S BRONCHIAL TROCHISCS." I have commended them to friends who were public speakers, and they have proved extremely serviceable.—Rev. Henry Ward Beecher.

The seed is planted when you feel "run-down" and "used-up." Malarial, typhoid or bilious fevers spring from it—all sorts of diseases. Don't take any risk. Dr. Pierce's Golden Medical Discovery invigorates the system and repels disease.

It starts the torpid liver into healthful action, purifies and enriches the blood, and restores health and vigor. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength. For all diseases that come from a disordered liver and impure blood, skin, scalp and scrofulous affections, it's the only remedy that's guaranteed. If it doesn't benefit or cure in every case, you have your money back. You pay only for the good you get.

The worst cases yield to the mild, soothing, cleansing and healing properties of Dr. Sage's Catarrh Remedy. That's why the proprietors can, and do, promise to pay \$500 for a case of Catarrh in the Head which they cannot cure.
