NO SCANDALS TO EXPLAIN.

A Democratic House of Representatives, with an overwhelming Matority, has been in session for five months and a half, but so far has been unable to furnish an ounce of amunition to the Democratic Presidential campaign magazine. There the departments and every lead looking anything like a scandal has been persistently followed. But nothing has been discovered, and the only result has been to lead the nosing committee or the too ambitious individ ual against a stone wall. Not a woodchuck has been found although and a Presidential campaign is at hand.

This is as encouraging a situation to Republicans as it is discouraging to Democrats. It strenghthens the former in just the same degree that it weakens the latter. It compels the Republicans to defend no acts and excuse no scandals, and leaves them free to direct all their energies agairst the Democratic position. The Republican party was never so well situated in this respect as it is new, No Administration has presented itself with so clean a record as this one has. The war of the rebellion, the question of costruction. the defense of a sound currency, for a long time prevented the Republicans from showing the skill, economy, and cleanliness with which they could conduct the administration in times of peace. when economic questions are first in interest. The present Administration has giv en the country an excellent illustra tion of what the party is able to do in this respect

When Mr. Cleveland was up for re-election he had to face the scandals that have disgreced any administration. Tle scandalous charactor of his appointments, the gamblers, thieves and jail birds he placed in office, the pan-electric scandal in the Attorney General's department. the general inefficiency of the Administration and the humiliating breakdown of his civil service reform hunter, were all factors that counted

General Orders No. 7.

HEADQUARTERS DEPARTMENT PENNA. GRAND ARMY OF THE REPUBLIC, No. 1025 ARCH STREET.

Philadelphia, May 4th, 1892. I. Once more the returning spring with its opening flowers resurrects the memory of our fallen com rades and reminds us of the approach of our sacred "Memorial Day." see them as they fell when more then a quarter of a century ago the flood tide of death swept them from our side: we see them scattered along our march of the passing years, some with the dews of death not yet wiped away and the flowers still fresh sprinkled with the tears of loved ones. Those of us that remain are but few in comparison with those who sleep beneath the ground that shall echo with our solemn tread. Soon we other hands; let us do it faithfully while we can. It is timely and profitable we should once again repair the graves of our fallen comrades, and let the memory of their heroic deeds baptise us afresh with loyalty to their heroism and devotion to

their country. Need I urge upon you that each step and action on that day be so fraught with regard for that occasion and reverence for the departed comrades, that we shall command the respect and commendation of every citizen throughout the Nation.

Let us reverently and tenderly garland with Nature's purest and most fragrant gift each mound where sleeps our comrade, and effectionhave been committees investigating ately think of the unknown and unmarked graves of our patriot broth living is making us better men and ers, remembering that in this solemn mission we have the prayers of the widow and, the blessing of a grateful Republic.

II. Arrangements will be made by the Posts in this department the ob servance of Memorial Day, Monday the Democratic party is out of meat May 30th, 1892. Comrades are enjoined to see that this sacred duty is performed in a solemn and reverent manner.

> III. In localities where there are more than one post co-operation of receiving, and you can not be in in the cermonies should be observed. IV. Forms for Memorial Day Services can be had upon application to these Headquarters.

In our article, last week, we showd that the expenses of the liquor traffic, in this county, must be about thirteen thousand and five hundred dollars, (\$13,500) per annum and that to pay this it requires, a sale of two hundred and seventy thousand drinks, or enough to make wenty seven thousand men drunk.

In that computation, we omitted o estimate the profit of the liquor lealers. Since last week, we have been trying to find some reliable data, upon which to estimate these No. Acres profits without much success, but it seems reasonable that men would 4173 not so eagerly seek to obtain licenses. if their profits over and above expenses, were not equal to their expenses. must commit this sacred duty to This would require that the number of drinks should be doubled and more men to drink.

It must also be remembered, that this great tax paid to the liquor sellers, is not assessed equally upon all the men of the county, for a good many escape it, by not drinking. The great burden falls upon the drinkers, the ones least able to pay it. Can one compute how many comforts this great tax would bring to hundred of families, if it was expended for things needed, in making happy homes.

Begin with small things; let not a day pass without trying to lighten a day pass without trying to a day pass without trying to the burden of some poor struggling the burden of some poor struggling to the day pass without trying trying the day pass without trying trying the day pass without trying brother.
