Our exchanges have given out that Wm. H. Panton was to have been hanged on the 6th of this month. This is a mistake. It should have read the 16th. Atty. F. H. Ingham of LaPorte received a letter from Panton last week requesting Frank to assist in securing him release from the gallows and in the letter he (Panton) stated that the papers had made a mistake in the date as above shown. Mr. Ingham refused to take any part in the case.

The engineer corps engaged on the W. & N. B. are now located at LaPorte. They arrived here, on Tuesday evening and have completed the survey of the road to within two miles of Lake Mokoma. They expect to finish this point by the last of the week. It is rumored that from LaPorte, a survey will be made to both the Summit and Thornedale. John Murston, Jr., of Philadelphia, is chief engineer.

The LaPorte band will hold a festival in their band room at LaPorte, on July 4th. Athletic sport—greased pig, potato race and the like, will be apart of the pleasures of the day. It looks as if they might have another hangman's knot to tie down in Wyoming county. On Monday of last week, George Keeler shot John J. Lane, both residents of Keelersburg, Northmoreland twp., Wyoming county. The shot took effect in the back of the head and it is thought Lane, who is aged about 18 years, will die. The tragedy grew out of an old grudge. Keeler aged 40 years and who bears a bad reputation, was arrested and is in safe keeping, in the Tunkhannock jail.

The statement published in the REPUBLICAN, last week, relating to the Borough tax and the doings of the Town Council, raised quite a commotion, the latter part of the week. A special meeting of the Council was called, on Saturday afternoon for the purpose, we understand, of laying a special tax to pay off outstanding orders. After consulting the law, however, it was discovered that said body failed to have this power without an order from the court, hence, the motion was laid on the table.

MEDICAL COLLEGE.—The Summer Term opens August 1st, in Vocal and Instrumental Music. For catalogue address Henry B. Moyer, Freeburg, Pa.

The Lake Mokoma Land Company and R. A. Conklin of this place, and who owns a part of Conklin's Creek, which empties into Mokoma, are at war, just at present. The dispute is over the lease of said creek. In 1886 when the stockholders purchased the land about the lake, they had papers drawn up, and it was agreed by Mr. Conklin that they could have the use of said creek for hatching purposes, but owing to neglect the instrument was not signed by Mr. Conklin and it is said, became null and void at the expiration of ten months after the date of the drawing up of said paper. Mr. Conklin to prove that his rights to the stream had not been signed away, shouldered his fishing rod, on Saturday, and strolled down and spent an hour or two angling for the speckled monsters. He was ordered off the premises by Mr. Stormont, superintendent of the Mokoma property, but held that his rights were not given away and that he was the only person who had a right to fish at that point in the stream. Since this encounter of words, war has been in the air, and threats of arresting Conklin, is common.

The Storm in Warren County.

WARREN, June 5.—A cloud burst occurred Saturday afternoon between Perry and Irvington, near the headwaters of the Broken Straw. Streams already full became rivers. The railroad bridges at Pittsfield and Youngsville are sweep away. At Irvington the central pier of the bridge used by the Dunkirk, Alleghany Valley and Pittsburg, West-ern New York and Pennsylvania and Philadelphia and Erie was washed away. All traffic on these roads has been abandoned.

A hasty word which might have been withheld, a spiteful innendo which ought to have been stifled, a cruel shadow which ought never to have been cast on a sensitive spirit—these things and many like them are due oftentimes to a malicious temper, and satirical people should cultivate a large share of this spirit, and then they would often hold back the quick repartee, the personal illusion, and the ill-natured sarcasm which might have such power to wound. Yes, politeness and self-control are pleasant fruits, and every home and every heart would be the better for their possession.

During the thunder storm on Thursday afternoon the dwelling of Mr. Wm. Meyler, on Cherry st., which is occupied by Mr. Ettinger and the residence of E. M. Dunham, on Muncy st., were struck by lightning. The former was set on fire in the attic, but the flames were extinguished before any serious damage was done. Several posts about the porch were splintered. The Dunham residence was struck on each four corners and the weather boards slightly damaged. The larger part of the current struck in front of the building, tearing up and splintering the board walk leading to the south yard gate. From this point the current followed the wire fence to the gate which opens on Muncy st., demolishing it in many places. The damage, all told, was very slight.

Senator Blackburn, of Kentucky, declares that if Cleveland shall be nominated and an anti-silver plank inserted in the Democratic platform the Northern and Eastern Democrats need not count on the one hundred and fifty-four electoral votes of the Solid South. In such event, he thinks that the two Virginias, the two Carolinas and Georgia will renounce their allegiance to the Democratic party. To prevent this disaster he proposes Gorman and Boies as a ticket that would satisfy the South and all of the doubtful States.

Rev. J. J. Thomson will hold services in the M. E. church, at LaPorte, on next Sabbath, at 10:30 A. M. All are cordially invited.

M. J. Lull of Bernice, will be a candidate for the Democratic nomination for member of the Legislature this fall, and ought to get it. The circumstances of his defeat four years ago by a small majority are still fresh in the minds of his friends; and he certainly deserves a vindication. His withdrawal from the contest two years ago in the interest of harmony, and his earnest work for every Democratic ticket since he has been in the county proves his devotion to party, and if those he has helped help him his nomination will be unanimous on the first ballot—and we are not sure that it will not be anyhow.—Dushore Review.

The above is a trifle fresh, but coming from the source it does, what more could be expected. It has been observed by the reading public that Mr. Newell is not a political profitt, and in every case where he has offered a helping hand, his choice has been overwhelmingly defeated at the convention.

There are many reasons why Mr. Lull should not be the Representative of the people of Sullivan county.

1st. His position—an employee of one of the largest corporations in existence. What could our people, who are all laboring men, expect of him, at Harrisburg? Is it not common of our people to credit him with voting for any measure the great monopoly—the officials of the Reading R. R. might ask of him? And did you ever know of a monopoly asking for a law that was beneficial to the laboring man?

2nd. The position he took and the interest he manifested in defeating a laboring man's bill at Harrisburg in 1891. After taking this step how could he expect the laboring man's vote?

3rd. He has no interests in Sullivan county, other than conductor of the S. E. R. R. He doesn't pay tax on a foot of land in our county.

There are many other reasons why he should not represent us at Harrisburg, which will be given to the reading public, later on, if necessary.

MR. BLAINE STEPS DOWN.

Resignation of the Secretary of State.

WASHINGTON, June 5.—The correspondence between Secretary Blaine and President Harrison, which startled the nation yesterday, is as follows:

DEPARTMENT OF STATE, WASHINGTON, June 4, 1892.—To the President: I respectfully beg leave to submit my resignation of the office of Secretary of State of the United States, to which I was appointed by you on the 5th of March, 1889.

The condition of public affairs in the Department of State justifies me in requesting that my resignation may be accepted immediately.

I have the honor to be very respectfully, your obedient servant.

JAMES G. BLAINE.

THE PRESIDENT'S ACCEPTANCE.

EXECUTIVE MANSION, WASHINGTON, June 4, 1892.—To the Secretary of State: Your letter of this date tendering your resignation of the office of Secretary of State of the United States has been received.

The terms in which you state your desire are such as to leave me no choice but to accede to your wishes at once.

Your resignation is therefore accepted. Very respectfully yours,

BENJAMIN HARRISON.

Hon. James G. Blaine.

A little fracas occurred over at Thornedale, on Sunday afternoon, which terminated in the arrest of Frank Kaminski, a German, who has not resided long in this country. The prosecutor was William Heim. It seems that the children of the prosecutor, and the defendant unfortunately got into a quarrel, which was followed up by the parents. Kaminski defended himself with an axe, hence, the prosecution. The case was heard before Robt. Stormont, J. P., of LaPorte, on Monday who held Kaminski in the sum of one hundred dollars. Mr. McFarlane offered himself as bail and all parties returned to their homes.

The past four years have fortified Republican principles and the position now occupied by the party is well nigh invincible. During the same period the props have been steadily dropping from under the Democratic platform.

Cows Burning Up.

A drove of ten cows that were feeding on the mountain side near the Henry Clay Colliery, at Shamokin, some two weeks ago, started to cross a burning culm bank at the foot of the mountain. This bank has been on fire for a long time, and its surface is covered with ashes. In crossing the cows sank to their bodies in the underlying hot coals and their bellowing aroused the neighborhood. The breaker men ran over to where the animals were tossing their heads and writhing in agony and tried to kill them by hurling stones at them, but without success. In a few moments all the poor brutes were burned to ashes.

The Titusville and Oil City Flood.

Titusville, Oil City and the eighteen miles of valley lying between them, down which rushes Oil Creek, were the scene Sunday of calamity, second only to the Johnstown disaster in loss of life and destruction of property. Flood and fire combined their horrors, as they did three years in the valley of the Conemaugh and a broken dam played a similar dramatic part in the awful scene. Miles of territory are not heard from, but the loss of life in Oil City and Titusville alone will not be less than 150 and may greatly exceed that number, a latter dispatch from Oil City estimating the dead in that place is as high as 200. The property loss in Titusville and vicinity is estimated at \$1,500,000, while the loss in Oil City is said to be not less than \$1,000,000.

Governor Pattison Proclamation REQUESTING RELIEF.

HARRISBURG, June 6.—This afternoon, Governor Pattison issued the following proclamation:

WHEREAS, The people of Titusville and Oil City and adjacent portions of the oil regions have been visited by a terrible calamity from water and fire, causing destruction of life and property, and leaving homeless and destitute hundreds of our citizens. Now therefore—

I, Robert E. Pattison, do hereby issue this my proclamation recommending to the citizens of Pennsylvania prompt action for the relief of their fellow citizens, and I do further request and direct all citizens, societies, committees and agencies desiring to aid in this work, to put themselves in communication with the authorities of Titusville and Oil City.

ROBERT E. PATTISON, Governor.

WILLIAM F. HARRITY, Secretary of the Commonwealth.

Many telegrams have been received by the Governor from citizens and the Mayor of Oil City and others interested parties asking for relief.
