It is said that in no time in the history of Pennsylvania has the acreage of the buckwheat crop been so large as it is this season. The inability of the farmers to get in their crop, owing to the wet weather, has caused them to utilize their land largely for buckwheat instead.

Newspapers frequently do a great deal toward building up men in business, in professions and in politics but they usually remember it only as a passing fragrance, and not infrequently pay off the obligation by an effort to smite the hand that favored upon their. Happily, however, for the good of the world such men are few.

We have been unable to devote much time to the columns of our paper this week. The setting up of our new engine and the changing around of other machinery has consumed all of our time. We have been obliged to order gearing for engine, hence, have not as yet got the thing in motion but hope to have it complete next week.

Owing to the large number of Italians and other foreigners arriving at LaPorte, as employees on the railroad, our people are contemplating investing in seven shooters. Taxes Paid by the Several Candidates.

Here is something for the Sullivan county voter to peruse. It is well worth a thought and shows just how much the several candidates of both parties are interested in Sullivan county and the welfare of her people.

Following are the county taxes paid by the two Democratic nominees, viz:

M. J. Lull for Member, \$40.00. Thos. Mahaffy for Sheriff, \$25.00.

Total, \$65.00.

Following are the county taxes paid by the Republican nominees, viz:

D. T. Huckell for Member \$3.18. T. S. Simmons for Sheriff 2.49.

Total, \$5.67.

Haggerty the convict of Bernice who was placed in the Sullivan county jail some two weeks since was caught in the act of breaking jail on Monday. Mrs. Chase wife of turn key, Stewart Chase was engaged in hanging up clothes in the back yard or near the cell window when she heard a peculiar noise in the cell occupied by this young man. After listening for some time at the cell window she returned to the inside hall and carefully walked to the cell door and suddenly opened it when she caught the young man in the act of sawing off an iron bar in his window. She called her husband and R. M. Stormont who investigated to their surprise he had nearly accomplished his desire and would have made good his escape in a very short time. The instrument used by the convict was the blade of a pocket knife made into a saw. Watchers were placed over him Monday and Tuesday nights and on Wednesday J. W. Ballard, blacksmith, repaired the iron bar.

The Boys Must go.

The locomotive engineers of Pennsylvania have decided to take steps to get rid of the boy operator. The sort of curse he is no one knows better than the engineers who do not propose to endanger their lives any longer. They will ask the legislature to pass a bill providing regulations for the employment of telegraph operators. The requirements they advocate will be that every person before taking an office shall have had one year's experience, shall not be under 21 years of age, and shall not be assigned to block signal work without having had some experience in that kind of work. There should also be a regulation forbidding an operator to be on duty more than ten hours a day.

A Big Time For the Grangers.

CARLEISLE, Aug. 28.—The annual exhibition of the grangers of the state and their families was formally open Tuesday. The opening address was delivered by Hon. Leonard Rhone, who is at the head of the grange in this state. Letters from ex President Cleveland and President Harrison were received saying that they will be unable to attend. General James B. Weaver, candidate of the Labor party, has written Manager Thomas that he will address the farmers to-day (Friday) The other speakers will be Attorney General Hensel, Adjutant General Greenland, Lieutenant Governor Watres, General Gobin, Colonel Thomas Stewart, General Hastings and hosts of Congressmen and members of the Legislature. Over two hundred thousand people will be present during the week.

Under a new law passed by the late Congress our Lee Joe and the half million of other Chinamen in this country will have to have their pictures taken, their names, age, weight, height, color of eyes and where they are from all recorded. This will be a difficult thing to accomplish as Chinamen are superstitious about having their pictures taken. When the work is done each Chinaman is furnished with a duplicate copy of his full description, on which his photograph is placed. This will give him a passport to and from their country and to any part of the United States. Without one of these, when the returns are all in, a Chinaman will find it extremely difficult to go about.

The man who doesn't take the REPUBLICAN during the present campaign will make a mistake. It will give more and better political news than any rival. It has facilities possessed by no other paper, and they will be used to the utmost. Take the REPUBLICAN for the campaign, and, in addition, see that your neighbor takes it. You will do your neighbor and us a service by commending to him the representative newspaper of the county, which every family should read.

GROUND BROKEN ON THE W. & N. B. ON TUESDAY.

The Good Natured and Jolly Contractor and Cashier of the West Branch National Bank of Williamsport—F. E. Gleim Excavated the First Shovel of Earth.

LaPorte was all astir on Monday, men engaged on the railroad was coming this way; horses and mules hitched to carts were being driven through our streets; lumber was coming to town from mills in the vicinity of Nordmont for the construction of shanties, blacksmith shops and the repairing of buildings in the vicinity of Lake Mokoma. In the evening on the arrival of the train at Nordmont another crew of men proceeded to LaPorte and our town was twice in one day a floating mass of people. It was given out on Monday that ground would be broken on Tuesday at 8 A. M. and that the Jolly contractor and Cashier of the First National Bank of Williamsport—F. E. Gleim would handle the shovel. In answer to this a number of LaPorte residents arose early upon this date and strolled down to the borders of the lake. Precisely upon time the dirt was lifted with appropriate ceremonies. It took place at the upper end of the lake and the men are now engaged in working toward the dam. Mr. Gleim will preserve the shovel, which was manufactured by T. Rowland & Sons of Philadelphia, for future reference, a cut of which will appear in the Grit this Sunday. Mr. G. H. Conkle of Montoursville has contracted to clear the right of way and began the same at Nordmont on Wednesday. He has a large force of men thus engaged. Messrs Gaynor & Gleim will work about fifteen hundred men when they get rightly settled down to business.

QUEER FEATS OF FIGURES.

A variety of curious combinations for the lover of Mathematics.

Journal of Education.

A very curious number is 142,857, which multiplied by 1, 2, 3, 4, 5 or 6, gives the same figures in the same order, beginning at a different point; but if multiplied by 7 gives all aines; multiplied by 1 it equals 142,857, multiplied by 2 equals 285,714, multiplied by 3 equals 428,571, multiplied by 4 equals 571,428, multiplied by 5 equals 714,285, multiplied by 6 equals 857,142 multiplied by 7 equals 999,999. Multiply 142,857 by 8 and you have 1,142,856. Then add the first figures to the last and you have 142,857, the original number, the figures exactly the same as at the start.

Another mathematical wonder is the following: It is discovered that the multiplication of 9, 8, 7, 6, 5, 4, 3, 2, 1 by 45, gives 44, 44, 44, 44, 45. Reversing the order of the digits and multiplying 1, 2, 3, 4, 5, 6, 7, 8, 9 by 45 we get a result equally curious, 5, 555, 555, 505. If we take 2, 3, 4, 5, 6, 7, 8, 9 as the multiplier, and interchanging the figures of 55 take 54 as the multiplier, 5, 666, 666, 606. Returning to the multiplicand, 9, 8, 7, 6, 5, 4, 3, 2, 1, and taking 54 as the multiplier again, we get 53, 333, 333, 34—all 3's except the first and last figures, which together read 54—the multiplier. Taking the same multiplicand and 27, the half of 54, as the multiplier, we get a product of 26, 666, 666, 667—all 6's except the first and last figures, which together read 27—the multiplier. Now interchanging the order of the figures 27 and using 72 as the multiplier and 9, 8, 7, 6, 5, 4, 3, 2, 1 as the multiplicand, we get a product of 71, 111, 111, 112—all 1's except the first and last figures, which read together 72—the multiplier.

"Homestead" was to be a great Democratic battle cry this fall. A special committee was sent there to "investigate" or, in other words, to gather campaign material. When Judge Oates, of Alabama, chairman of the committee, announced that he was ready to report, what he had to report was found so undesirable as "campaign material" that it was decided to defer action on it "until after election." Then the judge gave out his report as his individual opinion, and so far is it from being "campaign material" that Colonel Jones, of the St. Louis Republic, says Oates is "no Democrat" for giving it out.

The Democrats of Wyoming county held their convention last week and placed the following ticket in the field, viz: For member, F. H. Platt; for county treasurer, A. G. Overfield; for dist. atty., Chas. M. Lee; for county surveyor, N. P. Wilcox. This ticket does not meet the approval of Brother Day of the Wyoming Democrat and he will not lend a helping hand to the success of Mr. Platt for member.

A FATAL ACCIDENT.

William Taylor and His Horse Killed Near Tivoli.

An accident occurred on the Williamsport and North Branch railroad, a few miles north of Tivoli, between 6 and 7 o'clock Friday morning, by which William Taylor, aged about 60 years, who resides in Shrewsbury twp., lost his life, his horse was killed and the buggy wrecked. Mr. Taylor was on his way to Tivoli, and when he reached a point where the railroad and wagon road run parallel, and where only a narrow strip of land is between the two, his horse became frightened at an approaching freight train. To quiet the animal he got out of the wagon and caught hold of the bridle. The horse reared and plunged and finally leaped down the embankment, with the old gentleman still clinging to its head. Before either horse or man could recover they were ground beneath the wheels of the locomotive. Mr. Taylor fell across the tracks and his head was served from his body. The horse was terribly mangled and died a few moments after the accident. The wagon was badly wrecked. As soon as the train could be stopped the body was removed to a nearby house by the crew, and was afterwards taken to his late home. A wife and family are left to mourn his untimely death.

The funeral services took place at his late residence, on Sunday and was largely attended. Rev. J. F. Glass of Muncy Valley officiating. Interment at Hughesville.
