DIED AT TOPEKA, KANSAS, SUNDAY NOV. 27, 1892— JOHN CONKLIN. PRISONERS ATTEMPT ESCAPE. They Reach the Root of the Jati

Major Andrew Jackson, Miles Walker and H. S. Williams, alias Jesse James, made a bold and desperate attempt at jail breaking about 7:30 o'clock Saturday evening. It is customary to allow the prisoners in the jail to take exercise in the corridor about this hour, but it was the first time since being sentenced by the court early in the week, that the above trio were permitted to leave the cells.

While the three men were ing about the corridor they found a section of garden hose about fifty feet long. This they took to the platform that runs around the second tier of cells and then threw the heavy nozzle end through a broken window, about twenty feet from the platform. The nozzle caught on the wall outside and the men reached the roof by climbing hand over hand up the hose. They then drew the hose up to the roof and carried ever he was known. He was a kind it to the front of the jail where it indulgent father, a loving husband was to be used to lower them to the

The escape of the men was first discovered by a boy named George Barner, who had been committed to jail early in the evening on the charge of being incorrigible. He informed Sheriff Michael at once. The sheriff ran out of the jail and placed men to watch the roof, and then telephoned to the police station for assistance. Chief of Police Russel and Patrolman Gaul responded quickly.

The report that prisoners had escaped from jail soon became current and almost as soon as the police had arrived a crowd fully three hundred strong surrounded the stone walls. While the crowd kept watch on the outside, Patroleman Gaul and a prisoner ascended to the roof and captured the three men. They offered no resistance.

The window through which the prisoners reached the roof was the same one broken by Allen, a horse thief, when he made good his es cape nearly a year ago. It had never been repaired .- Gazette & Bulletin.

POISON AS A WEAPON.

A Sensational Story From Hon

PITTSBURG. Dec. 11.-A Sunday paper published a startling story today of a conspiracy to poison by wholesale the non-union men at the Carnegia steel plant at Homestead. and as a result it is alleged several persons lost their lives, while scores of others are suffering from the effects of poisonous drugs. Developments were made, it is said, by the Advisory Committee, members of the Amalgamated Association and officers of other laber organizations sympathizing with the locked out men at Homestead. To-day nine or more persons are under arrest, ostensibly on less serious charges but really for the purpose of averting suspicion until the alleged conspiracy could be apprehended. The only name given is Robert Beatty, who was arrested at Louisville last night.

It is stated that the chief cook inside the Homestead mills confessed to having placed poison in the food prepared for non-union men, that he did so at the instigation of the strikers committees, and that he was also under pay from them as well as the Carnegie Company. He caused death and sickness sufficient to frighten the non-union men from the mill and compel the closing of the mill. He said he was to receive \$5,000. Two assistants who he engaged to aid him in his plot, it is stated, become frightened and informed Mr. Frick of the crime. This led to the arrest of the chief cook and as stated above he made a full confession.

The matter was kept quiet. Workmen were instructed to get their meals outside. The cook and two assistants were kept in the mill under close surveillance. During the time that meals were prepared inside, a number of workmen became ill and Charles Glossier died two weeks after going to Homestead.

Mr. Frick positively refuses to be interviewed on the subject to-night. I. E. Beck, counsel for the Carnegie steel company, limited, was seen tonight and confirmed the story of the poisoning. He says that at least six deaths resulted from poisoning. A Homestead druggist and physician are implicated. The powder was given to a dog, and it died in a few minutes. A number of arrests will probably be made in a few days.

PITTSBURG, Dec. 12.—Captain Breck, Deputy Sheriff Farrell and William G. Lindsay left to-night the Forksville House, will apply for for Louisville, with requisition papers for Robert Beatty, charged with being implicated in the alleged ville, will not take a decided stand plot to poison non-union men employed in the Homestead mills. Beatty had a hearing at Louisville Wednesday morning, and Captain Breck accompanied the officer to look after the same end of the case, while Lindsay's presence is needed to establish Beatty's identity.

To guard against any complica tion, a new information was made against Beatty, before Alderman alleges that on or about September ist, and on other days previous to and others a certain deadly poison,

The alderman issued a warrant Richard Lisson of EaglesMere, charging Beatty with felonous assault and battery. This informaon Wednesday. The requisition papers will be taken to Frankford and presented to the Governor of Kentucky. It is not likely that Beatty will be brough to Pittsburg before Friday. He will then have a liearing before Alderman Mc-

Captain Breck would not give out

He said they had all the evidence well in hand and when the time came for other moves they would be made. He refused to give the names of the men connected with the alleged plot. to any statement made by Homestead men or others. Alderman McMasters says no informations in the case, other than those against Beatty have been made.
