February, in this climate, averages colder than December, but it would be hard to persuade most people of that fact, so few can realize that the first day of February is mid-winter. Spring is coming, and in anticipation we can see the grass growing and hear the birds singing.

Abandoned farms, says a prominent farmer, are found in every State in the Union, but no surer cause for abandoning a farm can be mentioned than that of keeping scrub stock. A lot of scrubs are simply so many pauper animals that the owner of the farm is compelled to support.

There is no item in the appropriation bill which should be more unanimously supported than the pension clause. It is too soon to forget the heroism and sacrifices of the brave defenders of the old flag. The government cannot afford to be niggardly with the men who preserved the Union.

A bill has recently been presented in Congress requiring the Secretary of the Treasury to provide for the calling in of all ragged, worn and soiled paper money, new bills to be furnished in place of the old and uncleaned notes. Of course the banks, in case the bill is passed, will be the principal intermediaries for the exchange.

A Tennessee newspaper says Judge Jackson, who was appointed by President Harrison to succeed Justice Lamar on the Supreme bench, cannot afford to accept the appointment from a Republican President. If this is true the country will be fortunate indeed if the Judge makes the discovery and refuses the appointment.

Our representative in the State Senate, Mr. Herring, has introduced a bill providing for the closing of the polls on election day at 4 o'clock in the afternoon. All of the people who have had the right to vote could do so by 4 o'clock in the afternoon, if they knew that the polls closed at that hour. The people of other States do it, and the people of Pennsylvania are as swift as the people of any other State.

CLARKSON DENOUNCES HARRISON.

The President Criticized for the Appointment of Jackson to the Supreme Bench.

DES MOINES, Feb. 6.—J. S. Clarkson, late chairman of the Republican National Committee, has written a letter here in which he severely criticizes President Harrison for the appointment of Judge Jackson to the Supreme bench. He says that in the present national situation, with the judiciary the only branch of the government now standing between the South and its hostility to the principles and policies accepted by the rest of the American people. As the result of the war, the appointment is a gross betrayal of public trust and of party faith, and that is an act of party perfidy little short of a moral crime.

"Whether this act," says Mr. Clarkson, "was done in personal pique over his own defeat, or from whatever motive or cause, the Republican Senate owes it to the party of Lincoln, Grant and Blaine to condemn it. To accept it and confirm it would be to confess Republicanism at shame." The letter throughout is very bitter in tone.

The Dog Tax Bill.

The bill introduced in the Legislature by Hon. John Kubbach of Wayne county, for the taxation of dogs and protection of sheep has been revised by him making the tax not less than fifty cents and not more than \$2.00 on each male dog and not less than \$1.00 and not more than \$4.00 on each female dog, the amount to be fixed by the commissioners in each county within the minimum and maximum figures which will in their judgment be sufficient to pay all loss or damage caused to sheep by dogs. The tax is to be paid to the county Treasurer to be kept there separate and apart as a sheep fund.

If at the end of any current year a surplus of over \$200 remains in the County Treasury such surplus of over \$200 shall be paid over to the school directors for the use of the schools throughout the county in proportion to the amount received from each district.

W. B. Williams, general superintendent for James McFarlane & Co. and while thus engaged in looking after the hauling of bark in the vicinity of Painter Den Pond, one day last week, was chased several miles by a wild cat. The old gentleman rode on mule back to the woods where the bark was located and there dismounted and went to take a look at the quantity of bark and the condition of the roads. While thus engaged he detected the cat in hot pursuit. This state of affairs quickened his pace and only a few minutes elapsed when he was by the side of his mule; mounting it he rode to camp on double quick march, the cat still in pursuit. The boys were notified of the capers of the vicious animal, but failed to get sight of the beast.

It is supposed that hunger drove the cat to this means of a livelihood and Mr. Williams was very fortunate in making good his escape.

Some few years ago County Orders issued by the Sullivan county commissioners were at a discount of ten or fifteen per cent. It was then the custom to apply county orders on the payment of tax. Orders were so numerous that it was hard to negotiate them for money at any price. A certain few of our merchants would accept of them at a large discount and whom it is claimed reaped a snug little fortune off from the county's promise to pay. This condition of affairs in little Sullivan, we are all pleased to say, are of the past. A Sullivan county order of recent years is as good as the gold, and this is as it should be. Ex-county treasurer, Edward Bergan, was the first to adopt the payment of county orders on presentation followed by the late ex-county treasurer, Judge Mason.

President Harrison on Thursday last sent to the Senate the name of Howell Edmunds Jackson a Democrat of Tennessee, to be the successor of the late Supreme Court Associate Justice Lamar. A large percentage of Republicans are not satisfied with the appointment and think the President should have selected a Republican for this honorable and lucrative position.

It is said that the cost to the county for the arrest and trial of Rosenweig and Blank for murder will be at least two thousand dollars.—Wyoming Democrat.

The tax payers of Sullivan county can congratulate themselves that this burden was shifted on our neighbor county. To have paid this bill would have been a hard blow, financially, on our little county.

The mail received and sent out from the Towanda postoffice, is now weighed every day. How Beet Sugar is Made.

One of the new industries which promises to revolutionize a considerable portion of the American continent is the making of beetroot sugar. Few persons have any conception of what is meant by this class of beet cultivation. In the Cosmopolitan for February beet sugar is for the first time in magazine literature thoroughly illustrated. Every step in cultivation, the seed the plant, the planting, the cultivation, the harvesting and the machinery for manufacture are given direct from instantaneous photographs. It ought to be widely read by those interested in agriculture in every part of the country.
