Another Carnegie Mill to Close. PITTSBURG, August 4.—It is stated on good authority that the Allegheny Bessemer Steel Works of the Carnegie Steel Company at Duquesne will close down to-morrow for an indefinite period. She Wants \$10,000 Damages. A novel damage suit was begun in Williamsport on Monday, by Clara Smith, bringing against Andrew H. Doney for selling her husband liquor that caused his death. She claims \$10,000 damages, and has engaged the best legal talent to push the case. The husband James H. Smith died in Doney's saloon last March and the jury rendered a verdict of death from alcoholism. Smith was a man of known intemperate habits and on this account the suit has been instituted.

The farmers in the lower end of Huntingdon county are in despair over the great loss of crops they have sustained by an invasion of grasshoppers. The insects have appeared in countless swarms and are destroying every growing thing in their path. They have ruined hundreds of tons of hay and the entire crop of timothy seed. Now the pests have attacked what few growing vegetables have survived the protracted drought.

The P. of P. of Sullivan county held their quarterly meeting in the Harrington school house in Cherry township on Saturday July 26th. Carey, of Wilkes-Barre and Bricker, State Sec'y of the Farmers' Alliance of Coghlan Station. Dinner was served in the spacious hall near by the school building and was highly complimented by the numerous guests.

The editor in company with Prof. F. W. Meylert, took a drive over the new road down Mill Creek and Loyal Sock to Cooper's Retreat, on Sunday afternoon. We found the road quite passable. Shrewsbury, however, has only recently begun the making of their part, and have done good work as far as they have gone. Up to date there has four precincts done work on the road. They are as follows: Forksville boro.; Shrewsbury; Laporte twp.; and Laporte boro. We credit Laporte township with doing the poorest job. This is a plain assertion, but it is put right where it belongs.

GOV. TILLMAN ANGRY. He Will Arm His Constables to Prevent Them Being Rotten-Egged. COLUMBIA, S. C., Aug. 4.—The spy system of the State dispensary is very likely to create trouble. It is very obnoxious to the public and in some places it is not improbable that these trying emissaries will not be tolerated. The treatment given them in Sumter yesterday, where they were beaten and rotten-egged, has aroused the ire of Governor Tillman, and to-day he opened an ordinance department for arming the State constabulary. He says that he is tired having State officials insulted and that unless it is stopped somebody will get hurt. "They won't rotten-egg any more State constables," he said to-day. "I am going to see that they are not ill-treated. I am going to issue instructions that they should use weapons when it is necessary. Then Governor Tillman was asked if he had enough pistols to go the rounds and he replied: "There are a great many constables who are not doing any arresting, but there are plenty more where they come from."

He also said: "I am going to issue orders for the first one of them to shoot when he is struck. I'm not going to allow State constables to be made dogs of by the bar-keepers or their followers."

PENSIONERS DROPPED.

Scenes in Indianapolis When Some of the Old Men Were Turned Down.

INDIANAPOLIS, Aug. 4.—The local pension agency on Maryland Street was beset with a large crowd of pensioners this morning before 5:30 o'clock waiting anxiously for the office to open. When at 6 o'clock Cashier Rexford, late of the suspended Indianapolis National, the local United States depository, arrived at the office and spread out \$105,000 on the counter preparatory to cashing the drafts as the representative of the four banks which agree to give the cash for them without discount there was a rush and a crush. Pension Agent Ensley had a large force of experienced clerks, who rapidly delivered the drafts without incident except where the expectant pensioner was informed that his name had been suspended from the list. There was a large number of cases of this kind, but the Pension Agent, under instructions from the Pension Commissioner, will not disclose who they are or how many they were. The report that many were to be dropped caused a great many pensioners from adjacent counties, who usually depend on the mail for their drafts, to be on hand, and the crowd was greatly increased over those at previous payments for this reason.

A member of the Sixth Indiana Regiment, the first to answer the call for troops in 1861, related that four members of his regiment were among the number dropped. One decrepit old man, after having struggled for half an hour, reached the counter and handed his certificate over to the clerk. The clerk went to the rolls and returned, a look of sadness on his face. "I am sorry," he said, "but by direction of the Commissioner of Pensions you have been dropped from the rolls."

"They have gone back on me, have they?" said the old man. That was all he said, and he turned and walked away, the tears running down his face.

Now and then a man upon being informed that he had been dropped from the rolls lost his temper and expressed in language that shocked the ears of men who had fought with him, his opinion of the Democratic party in general and of Grover Cleveland, Hoke Smith and Commissioner Lochren in particular.

John Karns of Benton and brother of our townsman, Hon. Russel Karns, died at his home on Wednesday morning. Funeral Friday at 9 a. m. Mr. and Mrs. Karns will attend the funeral.

Tariff Juggling Feared.

TOLEDO, O., Aug. 6.—Governor McKinley gave out yesterday a circular which will be regarded as the keynote of the coming campaign!

In it he says: "Whatever influence the Sherman silver law, so called, may have upon the present conditions, it is by no means the chief cause of our trouble. Manufacturers are not going to produce for the future when their products, made under present conditions, may have to compete with like products under other and different conditions. Manufacturers are not going to produce steel and iron or cotton and woolen goods under the present rates of duty on the raw material or the finished product, which, in six or twelve months, may have to meet in the same market iron and steel and cotton and woolen goods made with free raw material and the finished product with a diminished duty.

"Manufacturers are not going to make for the future and pay protective tariff wages when the products may have to compete with like products under free trade wages.
