A. Webber has leased the room over Mr. Spencer's store and will repair watches and jewelry therein.

Crossley, while on his way to the depot Tuesday evening, run pell mell into a polecat. The result was fearful.

There are many people who enjoy a joke on their neighbor, but they awfully dislike to have the "table turned."

Workingmen, the Republican party have given you a ticket of clean, live men. Roll up a big vote for them.

The ballots for the several precincts of the county, will be delivered to the Judges of Election, the last of this week.

A new law firm in Philadelphia—Ellery P. Ingham & Harvey K. Newitt. Office 505 Chestnut street. See card elsewhere.

A campaign is going on. We give this as an item of information because we believe there are only a few who know it.

Prothonotary Walsh takes the evening train for his home in Dushore each night and returns on the 7:40 train in the morning.

The Corbett-Mitchell slugging match has been declared off because they could get no place in which to exhibit their scientific brutality.

There is considerable politics in Bradford county. However, we don't think the Republicans need to worry about the result up there.

You can't place stickers on the official ballot. Its 'agin' the new law. The voter is compelled to make his mark. Keep this in mind.

The Republican club building in Williamsport is nearing completion. Its going to be a creditable structure to the G. O. P. of Lycoming county.

Dick Bennett and C. F. Cheney caught a bear in a trap along Bear Creek last week. The editor was favored with a chunk of the meat on Saturday. Thanks.

Will the people of the county permit Cherry and Dushore to run the county politically? The result of this election will be a satisfactory answer to this question.

The smaller boys and they say a number of the great big boys enjoyed themselves playing tricks on their neighbors Hollow'een night. The boys must have their annual outing.

The work of excavating the ground for the new court house, was begun on Monday. This work will be completed that the contractor can commence laying the foundation in early spring.

A. L. Smith the Democratic candidate for Treasurer, has a walkaway. Gus has no opposition except on the Prohibition ticket. The Republicans are liberal, and we only ask our Democratic friends to return the compliment.

While we were absent from home on Friday our printer, John Boyd absconded. Parties having claims against him will please look him up. Chas. L. Wing is now foreman of the REPUBLICAN office.

The World's Fair closed on Tuesday. In many respects the Fair has been a curse to the country. Think of the number of lives lost in railroad wrecks going and returning from the great exposition.

Those potatoes that went over the Dushore trestle on Saturday, were no doubt assigned to Laporte. Well, the Dushore people must live and we see no reason why our people should not donate them a "murphy" or two.

The owners of buildings in which elections are held must see to it that the election booths are erected and ready for use on election morning. For this and for rent the owners of the buildings receive \$5.00 from the county.

A surprise party was given at the residence of Mr. and Mrs. Sheriff Mahaffey, on Wednesday evening. A large number of old and young people were present and a right good time enjoyed.

These cold winter nights you will want lots of reading. Subscribe for the REPUBLICAN and the N. Y. Tribune. Only \$1.25 in advance. This is the cheapest combination of reading matter ever offered our people. Better let us place your name our subscription book.

Judge Rogers of Forksville, was calling on old acquaintances at Laporte, Friday. The Judge is not a common visitor to the county seat. Since his recent attack of pneumonia the Judge is not enjoying his good health of former years.

The practice of postal clerks in stamping postal cards on the back is a good one for them to reform. In too many instances the message is none too plainly written and after two or three mailing clerks have had a whack at it, it is almost impossible to read it at all. Please jab them in the face.

The Centennial year the Penna. Railroad carried many thousands of passengers to Philadelphia without killing one. The record of railroad disasters this year on Chicago bound trains has been a terrible one. It is true that many more people are traveling than in 1876, but then there are many improved appliances.

Harley Edkin conductor on the W. & N. B. freight train, unfortunately had two fingers smashed while coupling cars on the Lyon's switch on Wednesday of last week. It was dark when the accident happened and Harley was feeling his way the best he could and supposed his hand was in the proper position. He wore heavy gloves at the time, hence, the jam is much lighter than it otherwise would have been.

Our readers are no doubt thoroughly acquainted with the new ticket. It appeared in the REPUBLICAN last week and you have no doubt given it some study. You will find it in our columns this week. Can you mark it to vote this ticket? Thomson, Osburn, A. L. Smith, Webster, Bigger and F. W. Brockway. If you can do this you certainly are in shape to give us one clip on the Republican side. Don't mark within the circle if you desire to split your ticket. Read the head lines above the ticket.

The Republican vote of Elkland township on the 7th of November, will receive the attention of the Republicans of the county. A divide there on County Commissioner will make it disagreeable for any candidate of that district who may seek the nomination for Commissioner, three years hence. This is timely warning to the prospective candidates of Elkland township and we trust that they will heed and take the advice of many Republicans and stand firm for the ticket.

The Laporte depot was completed last week. It is a very pretty and durable structure. The building is erected on a very desirable site and fronts Lake Mokoma. The freight department is on the south end of the building, the office room adjoins this and the waiting room is on the north. A very pretty porch is erected on either side. The upper part of the exterior of the building is painted to represent cream colored brick and the lower part paneled and trimmed with dark red paint. The interior is nicely finished with oak. A. C. Little of the 'Mere was builder and George Mentz held the responsible position of foreman. The carpenters engaged on the work, were: Henry Golden, A. J. Hackley, Will Rogers, C. F. Cheney and M. C. Brink. The painters were: John Hayman and James Hilton.

This session of Congress has made it apparent to the people that the head and shoulders of the Democratic party has't got brains enough to run the Government. The President, the Senate and Congress, are all strongly Democratic and what have they accomplished? Since March 4th, they have put a long list of people in the Poor House and the end is not yet. This is all you can say for our Democratic administration. Not pleasant to listen to but the truth.

Soldiers, haven't you about gotten tired of voting with the party that have always been, and are still, opposed to every measure that is calculated to give you the rights you are entitled to. The republican party present you a candidate for State Treasurer, Col. Samuel M. Jackson who served over three years in the Union army from Penn. His sympathies are with you, and his work has ever been in the interest of any measure beneficial to your cause. Soldiers remember it is from your friends you get aid.

Congressman Hicks has introduced a bill to prevent the suspension of a pensioner unless his pension was obtained by fraud or perjury. In other words he wants a law that will make it impossible to punish an old soldier for fraud or perjury until he is guilty of one or the other. It is a remarkable condition of affairs that seems to make such a law necessary to prevent such an unheard of injustice to the men who saved the country, but with the present management of the pension office such a law is absolutely necessary to save the old soldiers.

The accident to George Reitmeyer on the Eaglesmere Rail Road on Wednesday of last week, is not as serious as was stated in the REPUBLICAN of Oct. 27th. Neither his arm or leg was cut off by the wheels of the car. They were fearfully mangled, however. The physicians of the Williamsport hospital entertain hopes of saving for him, both his leg and arm. George is a son of Mike Reitmeyer of Muncy Valley and his age is thirteen. He was working for Fletch Bennett assisting in loading bark cars at the time of the accident.

Mayor Harrison of Chicago, was shot and killed by a lunatic on Saturday night. The name of the assassin is Patrick Eugene Prendergast. In his lunatic brain he harbored that the Mayor had refused him an appointment to office, hence he sought revenge in death. Until the public was notified of the condition of the man, a posse of men had formed and were about to lynch him. The Mayor was shot three times and death followed within ten minutes after the first shot. The shooting took place in the Mayor's residence.

M. S. Phinney, manager of the Long Valley Coal Co's store struck a young man by the name of Richard Fitzgerald, aged about 19 years with pick handle resulting fatally on Tuesday evening of last week. Fitzgerald together with a number of associates were in the store and were making a noise when Phinney ordered them out. All went except Fitzgerald who said he would not go, hence Phinney was forced to use the weapon. Fitzgerald died from the effects of the blow on the following morning. Phinney was arrested and gave bail in the sum of \$5,000 for his appearance at the Bradford county Dec. term of court. Our Towanda exchanges speak very highly of Mr. Phinney and say that he is of mild disposition.

The people of Dushore were horror stricken by a wreck of freight cars on the trestle at said place on Saturday noon. A car wheel broke and the car jumped the track taking with it eight other freight cars. They all landed in Mike Carmody's garden patch. Three of the number were filled with potatoes, oats and merchandise. The other six were empty. The train was headed for Satterfield. Engineer John Foust witnessed the jump off of the first car and was very thoughtful and turned on a full head of steam, thus breaking the engine and one other car loose from the train. The coupling, also broke on the rear end of the train, leaving on the track one car and the engine. The latter was occupied by the entire corps of railroad men, with the exception of the engineer and fireman, who were eating dinner, hence all escaped death and injury.

A team about to go under the trestle and being driven by two young ladies, was frightened and ran away throwing the ladies out of the vehicle. The women were slightly bruised but not seriously. Take it all in all, it was a very fortunate wreck.

The year 1893 will go down in U. S. history as a season of railroad accidents. From the first of the year to date there have been 24 crashes in which 201 lives were lost and 548 persons injured. Ten of these accidents have occurred within the last few weeks, and in those 97 were killed and 296 wounded. The worst feature of the disasters is that nearly all of them are chargeable to criminal carelessness.

COURT HOUSE LETTING.

Friday November 24th, 1893, and then opened for furnishing material and doing the labor for the proposed erection of a Court House at Laporte, Pa. In accordance with drawings and specifications. Copies of which may be seen at the office of the County Commissioners aforesaid, and at the office of the Architects, Wagner and Reitmeyer, corner of Fourth and Pine streets, Williamsport, Pa. The right is reserved to reject any and all bids, and to waive any defects or informalities in any bid should it be deemed to the interest of the County so to do. Johnny Bealhen, aged about 16 years, of Laporte, while out gunning for pheasants on Monday, accidentally shot himself in the left foot. He carried a double barreled gun and had shot at a bird and cocked the other barrel and while pushing his way through the brush to get a second shot, the trigger of the barrel cocked caught on a twig with the above result. Dr. Hill was called and dressed the wound and said the foot would be all right in time except the toe next to the larger one would be stiff. This is the first gunning accident in this vicinity of the season and it ought to serve as a warning to our sportsmen for all time to come.

In the city of Gothenburg, Norway, in 1865, a committee was appointed to investigate the cause of pauperism. They reported that the greatest cause of poverty among working people was that they drank to excess. They recommended that the sole right to sell liquor in that city be placed in the hands of a company that would spend all the surplus or profits for the benefit of the poor. This system, with some modifications, has spread all over Norway and Sweden. It has not become a national measure, but thus far has been left to local option. All the drink shops are run by temperance men who see that they are lawfully conducted and that their profits all go toward supporting the poor. The system has a large number of advocates in this country.

The Philadelphia Record is authority for the statement that "no marriage license law is now in effect in this State, that none has been since May 1 of this year, and that none will be until Oct. 4, 1895. Such is the fact, however, according to the laws of 1893, as published officially by the State printer, and no more need loving young couples sail to the wilds of New York to escape the some times irksome law. The trouble is all due to the last Legislature, which, in amending the old laws so as to permit the license to be obtained, not only in the county in which the ceremony is to be performed, but also in that in which either so changed the enacting clause that the law will not go into effect until October, 1895."

An exchange very sensibly remarks that "there is no need now of anybody's carrying about with them filthy, ragged, disease breeding old bank bills or United States paper money. The treasury department is exchanging the rags for bright new bills at the rate of a million and a quarter dollars worth a day. If you send your micrope spreading bills to the treasurer of the United States he will send you new bills for them within 48 hours after he receives them. We may not have much money, but let what we do have be new and clean."

The Republican ticket is composed of good men, and should be elected. However, we do not say but that the Democratic ticket is just as good. The only objection raised to the latter ticket is: The geographical selection of the same. The two County Commissioners are almost within stone throw of one another. Don't you think the Western and Southern parts of our county ought to be represented in this body? We request our readers to give this matter a thought, having in mind—we all pay an equal proportion of taxes.
