We were obliged to order another quire of paper added to our bundle this week. Regardless of the hard times the circulation of the REPUBLICAN is advancing right along. It is conceded to be the best paper published in the county.

Use Bernice coal, because for general warmth and baking purposes it stands without an equal in the market, as those who are using it can truthfully attest. Give it a fair trial and you will want no other.—Hughesville Mail.

The L. V. trainmen struck all along the line, on Saturday night and in consequence freight is at a standstill. These strikes are a curse to the country in general and past history is evident that the strikers have suffered more or less by their foolish actions.

We are reminded that old Winter is on the move and will soon commence business in earnest, the air is sharp and piercing, requiring heavy wraps and overcoats to be lanned and notwithstanding all these requirements everybody seem to wear a much inflamed proboscis.

James Gansel's new barn is being put on its pins to-day Tuesday. He failed to have the frame work complete for the raising on Saturday the 18th as was advertised. The barn is of good size and when completed will add much to the convenience and value of his farm.

County Commissioner D. W. Scanlin, is confined to his room with a carbuncle on the back of his neck. Mr. Scanlin was engaged at work erecting the abutments for the new iron bridge at Lopez, when the boil overtook him and he was compelled to quit and return to his home. He hopes to be out again soon, however.

Will and Charley Lawrence, of Dushore, were in town looking over the specifications and drawings for the new court house the first of the week. The boys expect to put in a bid & hope to be successful. We would take pleasure in congratulating them should they be awarded the contract.

Mrs. Halliday, who is in Monticello jail awaiting trial for a triple murder, sprang upon the wife of Sheriff Beecher as she entered with the prisoner's breakfast, Tuesday morning, and nearly choked her to death. The sheriff came to his wife's assistance and with difficulty released her from the death grasp.

Democrats all over Pennsylvania are paying old election bets. A York Countian shaved off a 20-year-old beard; a man from Huntingdon ate five pumpkin pies in six hours; an Easton loser walked around a block dressed in his wife's gown; an Erie sufferer will attend a Methodist Sunday school for a year; a Pittsburger will swim the Monongahela river on Thanksgiving, and a Shamokinite paid for a Republican's winter coal.

Many of our readers will be anxious to know why the sheriff sale of the real estate of Jacob Lora, was postponed on Saturday, to December 16th. Well, in short, it was like this: There are judgments and mortgages of twenty-six hundred dollars or thereabouts entered against said property ahead of the county and had the commissioners sold on Saturday the county would not have realized one cent. We expected that a part of this twenty-six hundred dollars will be satisfied by the 16th of December, and that a good part of the moneys realized from the sale as advertised will be applied on the judgment held by the county. This is the reason why the sale was postponed and we think it a right good reason, too.

The Democrats are getting discouraged and frankly express their thoughts concerning their position, politically. Even the Republicans cannot blame them for despairing. The death blow has befallen them and they must sink into darkness. Many will cherish fond recollections of the little band of people and will censure President Cleveland for the down fall of the organization. We have Democratic friends who will shake on the good tidings.

Some time during the present administration word was sent to Jas. W. Eves of Millville, Columbia Co., that his pension was suspended. A few days ago another notice came to one of the Justices of the Peace that James W. Evans had been reinstated on the pension list, but as that person had been dead seven years he needs no pension. There is something certainly wrong in the loose manner in which the government handles the pension business at the present time.

Trees are felled by electricity in the great forests of Galicia. For cutting comparatively soft woods, the tool is in the form of an auger, which is mounted on a carriage, and is moved to and fro and revolved at the same time by a small electric motor. As the cut deepens wedges are inserted to prevent the rift from closing, and when the tree is nearly cut through, an axe or a hand-saw is used to finish the work. In this way trees are felled very rapidly and with very little labor.

The W. & N. B. R. R. Company have six engines now, and they are kept busy continually. The freight going in either direction on this road is increasing daily. "Turn out" switches are placed at intervals all along the line. We are pleased to note the increase business of this railroad and hope that the time will come when a double track will be a necessity for the transportation of loaded cars. General Manager, B. G. Welch, is a hustler and is entitled to much credit for the increase of business enjoyed along the line of this railroad.

Governor McKinley, of Ohio, has advised the Republicans who were bent on arranging for a big celebration in honor of the Republican victory to refrain and take the money that such a demonstration would cost and distribute it among unemployed workmen in Ohio. Good for Major McKinley. The Ohio statesman knows what is most needed, and does not hesitate to say so. There is glory enough in the victory without spending any money for fireworks to celebrate it.

Dr. Caleb O'Brien, of Benton, Columbia county, died of typhoid fever on Thursday last. Deceased was a young man and recently graduated at the Penn. Medical College, of Philadelphia. His future prospects were very bright. Caleb was well known in Laporte and enjoyed the friendship of a large circle of friends in this vicinity. A wife, (nee Miss Sara Cole, daughter of Bent Cole) and one child and a large number of friends mourn his loss. The funeral services took place in Benton, on Sunday, and was attended by relatives, Hon. Russel Karns and family, of this place.

Twenty-five members of the Williamsport Christian Endeavor Societies came up on the train Thursday evening and joined with our like association in a rally meeting, held in the M. E. church. The visiting party was accompanied by a quartet of singers, who were very highly complimented. Mr. Dayton led the meeting and after an hour talk and sing, all were invited to join in a social held at Fairview Cottage, where the remainder of the evening was spent in sociability. The programme of the evening will long be remembered by our people, as a very enjoyable one.

Editor Streby's Predictions. In Sullivan county the Democratic ticket as will be seen by the tabulated returns in another column, was elected by with the smallest majority in several years. The vote throughout the county was very light being only about two-thirds of the usual vote. It would be well for the would-be leaders of the Democratic party in Sullivan county to take observations and see where they are causing the party to drift. With our majority cut down one-half on the state ticket and three-fourths on the county, it strikes us that we are rapidly drifting into the Republican column, and unless our Democratic tactics are changed, it will take but a year or two for the Republicans to carry the county. This is a damned poor recommendation for the Democratic leaders of the county, but a right good prediction for the future of the Republican party. We can hope for the assurance of the Gazette, politically, in a very short time. This little squib will no doubt be of assistance to Streby one year hence. George is not "in it" unconsciously. Forgive and forget boys.

DEMOCRATIC HARD TIMES.

A Democratic Paper Leaves That Party Because the Party Has Brought Ruin on the Country.

One of the ablest papers which has left the Democratic party this year is the Holyoke Free Press, published in the once lively Massachusetts town of Holyoke. That enterprising place is not as prosperous now, and the Free Press finds the reason in the Democratic victory last year. In explaining its change of politics the Free Press says plainly that it "has lost faith in the Democratic party, and that it firmly believes that the present industrial stagnation, financial stringency and general distress existing throughout the land is the result of Democratic supremacy." In further explanation it says: "One year ago this country was enjoying a prosperity such as had never existed before. There was not one idle mill in Massachusetts. In this city there was not a water-wheel that was not turning, not a spindle idle, not a loom that did not send its pleasing hum out in the breeze, not a paper machine that stopped from Monday morning till Saturday night at midnight. All was life and activity in this, the greatest paper producing city in the world. And this condition of affairs existed from sea to sea and from the Canadian line to Mexico. The whole world looked on and wondered at such prosperity. Such was the condition of affairs one year ago.

"The Democratic party has now had absolute control of the affairs of the nation for seven months, and the result is the most sorrowful time the nation ever saw—business paralyzed, industries shut down, wages cut down, a financial panic, such a stringency in the money market that bank after bank, business house after business house has had to close their doors, hundreds of thousands out of work. A year ago every mill in this city was rushing with orders. They could not produce fast enough for the demand. Today there is scarcely a mill in the city that is running full time, and of the large mills there is but one that has not gone on half time or cut wages 10 per cent or more. An awful change for a year!

"This frightful condition of affairs appeals thoroughly to the American citizen, who has a powerful weapon in his hand—the ballot. It was the ballot that brought about this great change from prosperity to poverty, from industrial activity to industrial stagnation, from financial ascendancy to financial depression. The present industrial stagnation is without any doubt the result of the free trade plank that was inserted in the Democratic national platform of 1892. That platform denounced the protective tariff policy under which the nation has grown and developed from a child to a giant, and declared that if the people entrusted the offices of the nation in its hands it would wipe out every trace of that policy."

Our people tender Mr. Ballard much sympathy for the loss by fire of his wagon shop and contents on Thursday morning, of last week. Mr. Ballard thinks the fire originated from a piece of paper catching on fire that hung over the stove pipe in the 2d story of the building. He had bait a fire in the stove and was returning to his house when he observed smoke oozing from the building. The alarm was given and he returned in hopes of extinguishing the flames. This he found utterly impossible as the fire kindled by oils used in this department for painting had given the flames such a start that it was beyond control. By this time a large number of citizens had come to the rescue, and at once began moving the contents of the building to a safe place on the opposite side of the street. But a small portion of the contents were saved, however, owing to the quick collapse of the building. Three new wagons, a pair of sleighs, tools, lumber, spokes and lots of other valuables usually kept in a first class carriage shop were consumed in the fire, together with the building amounting to a loss to Mr. Ballard in the neighborhood of \$2,000 with no insurance. Mr. B. has commenced the foundation for a new building and will erect the same at once.

The County Commissioners were notified last week that a part of the iron bridge to be erected across the Lehigh Valley, at or near the Whirl's End, had been shipped to New Albany and that the remainder of the structure would be shipped by the 1st of December. In the meantime that part of the bridge now at New Albany will be transported to the place of erection. This will have to be done on wagon which is a slow process, but the divide of shipping. Mr. Perkis said he thought they could have a Lopez bridge completed by the 23rd week of December. In short, the bridge firm agreed that both bridge should be placed before the 1st of the year.

Mrs. W. C. Mason and daughter Miss May, were visiting friends in Athens the early part of this week.

Thos. V. Cooper, was last week removed from the Collectorship of the Port of Philadelphia. Atty. J. R. Read is named as his successor.
