A machine is out at last which runs itself; that is, it does not require any motive power from the rider. It is fitted with a motor arrangement behind the rear wheel, and one gallon of oil will run the machine for 100 miles. The pedals and chains are still retained on the machine. The wheels are fitted with 4 inch diameter pneumatic tires.

The machinery for the oil well is on the way here and in the course of two or three weeks will be in place, and the boring for oil will commence. It is understood that the first well will be located either midway between Forkston and Mehoopany or else at Forkston. If oil or gas should not be found in this well other wells will be put down farther on up the creek and a thorough test will be made.—Tunkhannock Republican.

The Dushore Gazette is a good illustration of the way the majority of country newspapers work to build up their own towns. Even under the gloomiest circumstances and with the appearances of darkest prospects ahead, we never saw a line in the Gazette that appeared doubtful of Dushore's continued growth and prosperity. It is the same with the newspapers in nearly every town, and the business men owe more to the newspapers than they generally realize.

President Cleveland has vetoed the "Seigniorage Bill" presented by Mr. Bland and the Duce is to pay in Washington. The Senate is disgusted with President Cleveland and the President is disgusted with the Democratic Senate, and the Democratic friends of the Administration residing in the rural districts, are praying for harmony to reign in their ranks. The Republicans are wandering what this Administration will do to anyway, and a few Democrats have their eye open in that direction, too.

MAUD CROSSLEY, Sec'y.

The war against the nickle-in-the-slot machines in New York is getting vigorous, and Superintendent Byrens has ordered their removal throughout his jurisdiction. The anti-gamblers cite as evidence of the extent of their pernicious influence the fact that six firms have already gone into the manufacture of the machine, and the profits of one of these firms have been stated by an agent of the concern to be \$500 a day. Several banks have refused the deposits of some of these firms, and in most instances it is said the reason for doing so was because the business of the applicants was not considered to be of a character justifying the bank's accepting the accounts. The machines are either sold to saloon keepers outright or rented for an equal division of the profits. The proprietors of several places where the machines are being run have told a representative of the New York Mail & Express that the \$50 paid for the machine was made up out of the profits of the first two days running it. The Mail & Express says they are a clear violation of the sections of the penal code defining gambling. In Brooklyn and Buffalo the city authorities have already banished them.

A building boom is certain to strike Laporte this spring. The following named persons will erect buildings here this season, viz: The Laporte Building Association will put up four neat and attractive dwellings, which they will offer for rent. Hon. Russel Karns will erect a cozy home on his Lake Mokoma lot. Chas. Landon has already commenced the building of a home on his lot, on West Meylert street. Mr. Chas. Wrede contemplates building a fine home at Lake Mokoma; J. W. Ballard has commenced the erecting of a paint shop. Alphonus Walsh will erect a neat dwelling on his lot adjoining Mr. Landon's on West Meylert street; and W. J. Lawrence who has the contract of erecting the new court house will, at the end of the season, put up a dwelling on his lot on West Meylert street. There are others talking of erecting houses at Laporte, but they do not give it out as certain, hence we make no mention of it. With these ten buildings going up and the court house, times will be lively at the county seat, this summer.

What our exchanges have to say of B. W. Lewis Esq., who was nominated for President Judge by the Republicans of Wyoming county, recently:

Towanda Republican: "Mr. Lewis is a native of Bradford county, born at Wyalusing, where he has many relatives. He is a thoroughly equipped attorney in full practice, a gentleman of unblemished character. If the Republicans of Wyoming will do as well for him as they did for Mr. Grow, they will make his election sure. It is Wyoming's opportunity, and Mr. Lewis should receive the united efforts of the Republicans for triumphant success."

Wyalusing Rocket: "The naming of Mr. Lewis for such an important office will please everyone here at his old home, where he is known as a man of the highest Christian character, and as a brilliant man intellectually. Wyoming would be honored to have Mr. Lewis as its presiding judge."

Towanda Reporter-Journal: "The Republicans of Wyoming county have named B. W. Lewis for President Judge of the Forty-fourth Judicial District. The nomination is a strong one, and with united and earnest effort on the part of the Republican electors of that district his chances for election are most excellent. Mr. Lewis is well qualified for the position for which he has been named. He is a gentleman of wide culture, well read in the law, and his fairness and integrity are unquestioned."
