The first will cover the headwaters of the Delaware, the Lehigh and the North Branch of the Susquehanna; the second the West Branch of the Susquehanna, and the third both the streams which flow into the Susquehanna and those like the Allegheny River, which eventually flow into the

River, which eventually flow into the Ohio and find their outlet in the Gulf or Mexico. A glance at the map will show that the water ways of many States besides those of Pennsylvania will be served by the establishment of three not extensive forest reservations in Northern Pennsylvania.

The bill also provides that at least 50 per cent. of the land to be embraced in these reservations shall have an altitude of at least 800 feet above the sea, and it is furthermore proposed that the attention of the public shall be called to the importance of this region as a public sanitarium. The discovery of the beauty and the healthfulness of the mountain region of Pennsylvania, a discovery that has practically been made by the Forestry Commission, will be a great Forestry Commission, will be a great benefit to the people of the region and to the residents of Pennsylvania cities. For years the hav fever victims, suffers from asthma, malaria and other complaints have been making long journeys in search of relief, when within a six hours' ride of Philadelphia they could find every thing except the crowds that they find at Bethlehem or any of the popular mountain resorts.

The intelligence of the State will throw all its influence in favor of the the prevention of disastrous floods in the fourth. and the preservation of the forests, and will cause to be numbered among the friends of the measure all those persons who must see a direct and immediate return for any outlay. -Philadelphia Inq.

County Commissioners, Farrell, Litzelman and Webster, have purchased a large wind mill which will be placed over the well in the court house yard for the purpose of pumping water into the large water tank in the court house building. This tank will supply the heater and closcts with water. The mill will be hoistedithirty feet in the air and with the every day breeze at Laporte, will be move of the Commissioners is right, and proper, because without a good supply of water much damage could be done to the heater, and to, with a hose attached, would be of much service in case of fire. The mill cost \$130,00 and will be erected the fore part of next week.

### They Will Give Thanks.
