Dr. Kilmer's SWAMP-ROOT cures all Kidney and Bladder troubles. Pamphlet and Consultation free. Laboratory Binghamton, N. Y.

A scheme is on foot to remove the capitol of Minnesota from St. Paul.

Karl's Clover Root, the great blood purifier, gives freshness and clearness to the complex-ion and cures constipation, 25 cts., 50 cts., 13. If afflicted with sore eyes use Dr. Isaac Thomp-son's Eve-water. Druggists sell at 25c per bottle

IN THE SPRING

Every one should pay attention to the condition of his health. Nearly every person needs a good spring medicine. The impurities which have accumulated in the blood during the cold months must be expelled, or when the mild days come and the effect of bracing air is lost, the body is liable to be overcom by disease and great suffering follows.

Hood's Sarsaparilla

will purify, vitalize and enrich the blood. create an appetite, and enable the body easily and safely to meet the coming changes in temperature. It possesses precisely those elements of support and assistance which the body at this season craves. Hood's Sarsapa rilla is the "ideal spring medicine" and

The Great Blood Purifier.

Health Broken Down

From any cause, finds a corrective and health-restorative in Hood's Sarsaparilla, the great blood purifier :

"I had a severe attack of rheumatic fever which left Sarsapafilla and with kidney troubles

- and headache. I was much Makes alarmed and knew my condition must be improved or
- would never get well. I be-gan to take Hood's Sarsapa-Rich

Red Blood rilla and it did me a great deal of good. My general health is much improved, and the headaches, which formerly lasted three weeks at a time never trouble me. Hood's Sarsaparilla is a good medicine and I highly recommend it. ELLA C. ELLIS, Roxbury, Vermont.

Hood's Sarsaparilla

is the Only

True Blood Purifier This is why it cures even when all other medicines fail. Insist upon Hood's.

The wife of Prime Minister Crispi, of Italy, is an ardent lover of cigar-ettes, and enjoys puffing a cloud whenever she is disengaged.

Collarettes and movable berthas of the same variety of materials are in all shapes and sizes and as plenty and pretty as fancy can picture.

Almost every bodice of recent date, for evening dresses and walking gowns alike, has a pouched front, which con-ceals the waist line and overhangs the skirt.

The Women's Foreign Missionary Society of the Methodist Episcopal Church has issued over 5,000,000 pages of missionary literature during 1894.

When the wash gown has a round waist sleeves are bishop shape, made very full, and are most becoming to rounded arms when three-quarter lengths.

The chief exponents of music in Japan are women. Most men would consider that they were making themselves ridiculous by playing or singing in society.

The Countess Castellane, nee Gould, at one time attended the fashionable ladies' school at Ogontz, near Phila-delphia, and was noted for her pranks and violation of the rules.

As President of the Red Cross So source and the second name kept secret, for the relief of the i in the expedition.

HOUSEHOLD AFFAIRS.

CREAKING DOONS. If the doors are of heavy, old-fash-ioned make, the hinges should be looked to now and then, as the weight of the door often loosens the screws, and the whole thing is thrown off the balance, in which case, tightening the screws will set it right unless worn very loose, then it may be advisable to insert longer screws, which will pene-trate deeper into the woodwork. Looks want an occasional inspection and a touch of oil. If the door has shrunk and no longer fits tightly into the frame, a piece of baize or list nailed round the framework renders it quite tight and prevents draughts in winter time.—New York Dispatch. CREAKING DOORS

THAT TROUBLESOME MERINGUE.

THAT TROUBLESOME MERINGUE. The secret of making the meringue for lemon pies so that it stands tall and thick is in the baking. Whip the whites of the eggs to a froth that will not fall out of the bowl when turned upside down; put in about a table-spoonful of granulated sugar for each white, stir very little, spread it on the pies when they are just done and still baking hot without taking them out of the oven, and let them bake with the oven open. If made hot enough to brown, the meringue will surely fall and become worse than nothing.

Five to ten minutes is enough to bake rive to ten minutes is enough to bake the meringue dry and straw-colored. Sift granulated sugar on the top of the meringue as soon as spread on the pie before baking.—Philadelphia Times.

BROWN PAPER IN THE KITCHEN.

It is a very common practice for cooks to use brown paper as an absorbert for superfluons fat on cruliers. fritters, croquettes and the like, and this custom has grown to be general without any consideration of some of the possibilities that attend it.

An expert in the manufacture of paper, upon seeing some of the com-mon brown, unglazed stuff used for this purpose, delivered a lecture that his hearers are not likely ever to for-get. He showed them the serious danger by detailing some of the sources of supply and giving the par-ticulars of some of the processes of manufacture.

manufacture. The paper stock is gathered from every refuse heap and roadside, any-where and everywhere, without regard to its previous uses or its immediate condition. The material is put into

tanks and goes through a sort of wash-ing that removes the grosser impuri-ties. At no stage of its preparation is it any way disinfected or made fit to use. "As a matter of fact," he said, "the

practice of wrapping meats in paper of this sort is attended with the great-There is no telling whether est risk. a piece of paper used in this way may have been thrown from a sick room or employed for purposes that would render it utterly unfit for contact with

articles of food." Regardless of this, freshly cut meats, full of moisture, are wrapped in it, and it is not an unusual thing for some one to remark that he can taste the

paper after the steak has been cooked. There ought to be a very strict san-itary law regulating the gathering of waste and materials for paper-making. Every scrap of this staple should go through a degree of heat sufficient to kill all known disease germs. This is

kill all known disease germs. This is not impossible or even difficult. It might entail some expense to the man-ufacturer, but this is a small item compared with the results to human-it. Above all things brown many many as ity. Above all things, brown paper as an absorbent of hot fat is not only un-

an absorbent of hot fat is not only un-wise from a hygienic point of view, but positively disgusting. Old linen is a thousand times more desirable for such purposes, and, in addition, has advantages on the score of economy. A woman who has for years used bits of linen in this way, says that she has made all of her hard toilet scop by dropping the cloths into clear, strained potash water. This cuts the grease from the linen, and the liquid is boiled, then put in an earthen vessel until enough of it has accumulated ; then it is boiled down, and the result is a scop that is smooth, strictly hy-

is a soap that is smooth, strictly hy-gienic and more agreeable than almost anything that can be purchased. It is better to eat fat galore than to fill the system with germs of the most horrible diseases simply because there is a fad for utilizing brown paper as an absorbent. —New York Ledger.

ORANGE DESSERTS.

A YOUNG GIRL'S TRIALS. NERVOUS TROUBLES END IN ST. VITUS' DANCE.

Physicians Powerless---The Story Told by the Child's Mother.

the Child's Mother. (From the Reporter, Somerset, Ky.) Among the foot hills of the Cumberland Mountaiss, near the town of Flat Rock, is the happy home of James McPherron. Four months ago the daughter of the family, a happy girl of sixteen, was stricken with St. Vitue' dance. The leading physicians were consulted, but without avail. She grow pale and thing the targible around comp and thin under the terrible nervous strain and was fast losing her mental powers. In fact the thought of placing her in an asylum was seriously considered. Her case has been so widely taked about that the report of her cure was like modernizing a miracle of old. To a reporter who visited the home the mother said: "Yes, the reports of my daughter's sickness and cure are true as you hear them. Her af.

and cure are true as you hear them. Her af-fliction grew into St. Vitus' dance from an aggravated form of weakness and nervous trouble peculiar to her sex. Every source of help was followed to the end, but it seemed that physicians and medicine were power-less. Day by day she grew worse until we despaired of her life. At times she almost went into convulsions. She got so that we had to watch her to keep her from wandering away, and you can imagine the care she "About this time, when our misery w

was. "About this time, when our misery was greatest and all hope had field, I read of another case, almost similar, that had been cured by a medicine known as Dr. Williams' Pink Pills. Almost in desperation I secured wonderful work of restoration commenced; the nervousness left, her cheeks grew bright with the color of health, she gained flesh and grew strong both mentally and physically until to-day she is the very picture of good health and happiness. "It is no wonder that I speak in glowing ferms of Pink Pills to every alling person I am greet. They saved my daughter's life and I mediate that the speak in glowing terms of Pink Pills to every alling person I am greet us." The foregoing is but one of many wonder-fue creet shat have been credited to Dr. Will-ing the Pink Pills for Pale People. In many cases the reported cures have been investi-fied in every possible manner. Their fame spread to the far ends of civilization and there is hardly a drug store in this country. The Williams' Pink Pills for Pale People The Williams' Pink Pills for Pale People The Williams' Pink Pills for Pale People are now given to the public as an unfailing born of weakness arising from a watery ondition of the biolood or shattered nerves. Paper Gans.

Paper guns have frequently been suggested as feasible, but have, until now, existed only in theory. Paper pulp, when compressed, is more elastic than metal, and can be made practic-ally as durable. Only the body of the cannon of which I am speaking is of paper, the core being of metal, and the outside wound round with five laythe outside wound round with five lay-ers of copper, brass, and steel wire, and a final covering of brass bands. With a gun of this kind the chances of its bursting are considerably less than they are with metal cannon, by reason of the tendency it has to ex-pand when fired. Moreover, it com-parative lightness commends its use lor field service and for rapid trans-portation and all that sort of thing.— New York Dispatch. the outside wound round with five lay

An Indian Song of the Revolution.

Captian Sopiel Selmore, tribal chief of the Passamaquoddies, was recently elected to the Maine branch of the elected to the Maine branch of the Society of the Sons of the American Revolution. He is not only the de-seendant of a patriot, but one of the few living sons of a revolutionary hero, his father, Captain Selmore Soctomah, his father, Captain Selmore Soctomah, having been one of a band of fifty In-dians who captured an armed British schooner in Passamaquoddy Bay dur-ing the Revolution and delivered her to Colonel John Allen, the American commander. He was also engaged in scotting duty during both the Revo-lutionary and 1812 wars. The great grandfather of Captain Selmore was one of the few survivors of the massa-ere at Norridgework...-Atlanta Concre at Norridgewock .--- Atlanta Constitution. HAVE YOU FIVE OR MORE COWS?

The Largest Telegraph Office.

The largest telegraph office in the world is that of London, England. It is located in the general postoffice building and contains more than 3000 building and contains more than 3000 operators, of whom 1000 are women. The latter have a room to themselves and do their work with Morse instru-ments, with registers and reels. In the other parts of the office all sorts of instruments, are used the Hurches Hunting the Sea Otter,

The North American Commercial Company's schooner, C. G. White will soon sail on a sea-otter hunting expedition to Alaska. She carries twenty-five men, rifles and the usual outfit of animal butchery in the north-western waters, also four engineers for the steam launches which the com-pany uses in waference to the slow. pany uses in preference to the slow-moving cances of the Indian hunters who are supposed to do the hunting for the pelt of the exceeding valuable

sea-otter. The revenue laws are most strin-gent on the point that no white man shall kill or capture this animal in the shall fill or capture this animal in the waters of Bering Sea and along the Alaskan coast, but the C. G. White has signed the proscribed huntershere, who will receive \$7.50 for every skin they bring over the side of the schooner. Moreover, they are pro-vided with a stock of new Winchester rides the use of twich will make the rifles, the use of which will make the vessel liable to seizure, as only clubs, spears and shotguns are to be used by the Indians, who alone are permitted to hunt.

The sea-otter, like his brother the seal, is fast disappearing from the rocks, and coves of the northwestern coast before the ceaseless and untiring quest of the white hunters. His valuable fur, which is worth from \$300 to \$500, and sometimes twice as much to the man who takes him in his native waters, makes life a constant burden and his fate from a rifle bullet almost unit his fact and interior interior in the seal, who unlike the curiosity-loving seal, who

will stick up his foolish black head within a boat's length from his poachwithin a boat's length from his poach-ing foe, the sea-otter can only be caught by skillful and experienced hunters. Stout steam launches and far swifter Winchester ride balls are now taking the place of the crude ap-pliances of the Indians. It is the intention of the Govern-ment that the sea-otter should be left to the Indians. that this helpless

to the Indians, that this helpless people, often starving on their bleak wintry islands, might receive some remuneration from the valuable pelt. But the charitable design of the de-partment will fail of realization. Hunting vessels clearing for the Alaskan coast make a pretense of employing native hunters and often carry two or three Indians among the crew for the edification of the revenue officers. So the sea-otter, like the seal, is passing.

A Tree That Owns Land.

the grape-fruit in this country, as the pumeto in China, and botanically as the citrus decumana, was first made known to Western palates by a certain There is a tree at Athens, Ga., which is a property holder. In the early part of the century the land on which it stands was owned by Colonel Captain Shaddock, who was in the East Indian trade. Why the Florida fruit growers should have named it the grape-fruit is a mystery. These growers, though they have not in-creased the size of the fruit, have im-W. H.
