It would appear that the majority of the citizens of Sonestown are anxious for a borough line. If this is a fact the minority should submit.

A few of the ring Democrats would like to name both tickets. They think the two persons spoken of on our ticket a little too popular for either of their candidates. This condition is characteristic of the Democratic party, not only in Sullivan county, but wherever you may go. It is the Democratic platform and hard times that is playing hob with the Democratic candidates.

The girls in Laporte blow out the lights after "papa" retires, consequently the matter of expense has not been brought to his attention.

There is nothing more disgusting and contemptible than the sly gossip talk in little groups, and spread from mouth to ear, in a small town. It is sneaking and pernicious, aimed to do some innocent person injury. Many have been misjudged and their reputations compromised through the slander of these "gossipers."

The legislature is likely to heed the pleadings of the Commissioners and leading citizens of Schuylkill and Luzerne counties against dismemberment, and the Quay county scheme now promises to disappear as a new venture of the politicians in lucrative legislation.

As a matter of justice, the Hazleton end of Luzerne county deserves and should have better advantages in reaching the county seat town, as it is the Hazleton end that supplies the majority of the cases on the Luzerne calendar at every term of Court, but it is Hazleton's misfortune to find its interests in that direction in the charge of politicians and heelers whose sole motive is gain in any form that presents its head.

The authorized of two counties have organized such clever and effective opposition to dismemberment that the legislature, having once hesitated by voting down the bill on third and final passage, is entirely liable to kill it altogether when its friends call it up for consideration.

There was a time when Democracy held supreme in Sullivan county. That time has past, because the Democratic platform has brought on these hard times and the working men who give politics a thought have resolved that a change is necessary. The farmer who in the past has been quoted as the independent man of our country, are to-day the poorest of us all, because their products are worth nothing and their farms have depreciated in value in consequence. The farmer can not afford to vote the Democratic ticket this fall.
