Quay and Penrose have declared for McKinley, the champion of protection, for President. This is right, as the issue with McKinley as our standard bearer would be "tariff."

The money question will be solved for the best interest of the people. Neither party could afford to do otherwise. McKinley is our choice.

There is no reason why a sanatorium would not pay in our midst. The refreshing mountain air, pure water and cleanliness of our town all are invigorating and are the principal requirements of good health.

A Washington dispatch says that among the 100 clerks discharged from the Pension Bureau in a reduction of the force was a granddaughter of Francis Scott Key, the author of "The Star Spangled Banner." From her salary she supported her mother, who is 80 years old and blind.

The ex-rebels who control the pension department have no use for the "Star Spangled Banner," or any one connected with it. Had this young lady been a relative of the author of "Dixie," or "The Bonnie Blue Flag," she would no doubt be retained at an increased salary.—Wilkes Barre Record.

The officials of the W. & N. B., have scheduled a new train on their road. It took effect Monday, and will be of much service to the traveling public. It is the "flyer," on our own road, but it makes close connections at both Satterfield and Hall's as you will notice below: Leaves Hall's at 8:05 a. m. This is on the arrival of the Phila. & Reading morning train and on which a large number of people come to visit the country. Our train runs to Sonestown reaching said point at 9:15 a. m., connecting with the Eagles Mere branch. It leaves Sonestown for Hall's at 1:00 p. m. reaching said point at 2:05 p. m. Leaves Hall's at 3:55 p. m. and passes Laporte at 5:11 and reaches Satterfield at 5:35, making close connections with the L. V. going north. Our train waits for the south bound train on the L. V., leaving Satterfield at 7:10 p. m., passing Laporte at 7:47 and arriving at Hall's at 9:30 p. m. This gives us six passenger trains daily; three in either direction.

Harry Edkin is conductor on the new train and a right good conductor he is, too.

Correct time table will appear in text week's issue.

Lake Mookoma has never been advertised properly. Those immediately concerned have never invested one dollar in booming the beauties of the Lake and its surroundings by advertising, but patiently sit by the shore and talk of its beauties and wonder why it don't become one of our popular summer resorts. The fact of it is gentlemen, your city neighbor hardly knows of its birth. We would suggest that the company issue twenty thousand pamphlets giving the beauties of the Lake and distribute them over the country.

The land surrounding Lake Mookoma, and owned by the Lake Mookoma Land Company, has depreciated in value in the past two years, because nothing has been done in the way of improvements to increase the value of the property. Two years ago it was believed that improvements would go on, hence, lots found a ready sale. To-day the people have lost all confidence in the management of the concern.

Ice Cream will be served every Friday evening at the Mountain House. All are invited.

Mrs. M. C. LAUER.

The new road down Loyal Sock is about completed. With the guard rails up, and some repairing done, it will be ready for travel. The completion of this thoroughfare will be welcomed by all of the taxpayers in the Western end of the county, and a very large number in the East. This will be a great help to Laporte as freight assigned to Western dealers will come to Laporte instead of New Albany as in the past, providing reasonable freights can be procured. To this end we do not apprehend that there will be any difficulty.

The county commissioners and Attorneys Moore, Farnham and others, say the Wilkes Barre Times, are arranging to make a hard fight against the proposed new Quay county. Friday morning Attorney Moore, at the request of the commissioners, telegraphed Governor Hastings asking for a hearing on the new county bill before he finally approves it, and asking him to fix a time when the commissioners and others of the county could see him and state their case. The commissioners also telegraphed the Schuylkill county commissioners at Pottsville and asked that the latter assist them in defeating the bill.

The compulsory educational law requires that every child in the Commonwealth between the ages of eight and thirteen years shall attend for at least sixteen weeks in each year a school where the common English branches are taught. Only such children shall be exempted from these provisions as are certified by parents or guardians to be mentally incapacitated, or who live two miles from a public school, or who are being otherwise instructed in the common English branches and are so certified by the principal of a school. A fine of \$2 is provided for the first offense, and \$5 for each succeeding failure to comply with the law. The effect of the law will be watched with much interest.

New Style Money Orders. The postal authorities have authorized a change in the form of money orders to be issued hereafter, but postmasters will not be supplied with the new forms until the old ones are exhausted. The changes are not material, although the new order will be a trifle smaller than the old. The assignment will be placed on the back, and the figures at the right side of the order will be duplicated on the back, so that the amount for which the order is drawn can be determined from an inspection on either side. The seal of the department will be noticed in the center of the order—being made in the tint of the paper.

While the manufacture of the new form was begun by the department on the 28th day of May, they will not be in general use for some weeks yet.

Paris Green for your potato bugs, Bodine & Warn Sonestown Pa., keep it.

Jennings' Good Work. Until the Woods bridge bill was signed by Governor Hastings in its amendment and improved form it did not attract that attention which its magnitude warranted. The Telegraph was the first paper to comment editorially on the merits of the measure, and the points to which we objected were struck out. The law will be of inestimable benefit to the Susquehanna and Juniata districts, and it passed the House through the zeal and untiring energy of Senator Woods and Representatives Lytle, of Huntingdon, Jennings of Sullivan, Collins of Lycoming and Focht of Union, whose splendid diplomacy in handling the bill a grateful constituency will doubtless appreciate.—Harrisburg Telegraph.

Mr. Jennings has worked hard during the past winter for every bill that would be of any benefit to this county, and has made a representative that the people of Sullivan county feel proud of, and the voters of the county will show their appreciation of his work by returning him as a member of the next House.

Prof. M. F. Albert, formerly principal of the Laporte graded school, has just closed a successful term in Payette, Idaho, where he now resides. The Payette Independent gives a two column article relative to the progress of the school, from which we clip the following: "Last Friday evening nearly 500 people assembled in Lamme's hall to witness the graduating exercises of the Payette High School.

At half past 8 o'clock when Prof. M. F. Albert, principal of the school, followed by the graduating class, Judge Richards and members of the school board, entered the hall and marched down the main aisle to the stage, keeping step with the "March Triumphant," executed by Mrs. C. M. Scott, the audience broke forth in hearty applause.

The hall was handsomely decorated with evergreens, the words "On The Threshold," in golden letters, forming a half-circle like a bow of promise in front of the stage.

Rev. A. O. Worthing, rector of St. James church was introduced. Rev. Worthing's remarks receding the Invocation were very appropriate to the occasion. The exercises concluded with a quartette by Mrs. McDonald, Miss Thurston, Rev. Pearce and Mr. J. S. Thurston.

Baskets of flowers and handsome bouquets carried forward by the ushers from time to time, as the offerings of friends of members of the graduating class, fairly filled the house with their sweet perfume. The exercises did not weary the audience, though the house was packed uncomfortably full. We believe that everyone present appreciated the fact that such an event marked an important epoch from which the Payette schools will be entitled to recognition as among the best of their class in the state. It certainly entitles those who are immediately concerned in their management to the most cordial support of the patrons of the schools."

The Ladies Aid Society of Laporte will meet at the residence of Mrs. M. C. Lauer Saturday June 22.

Mrs. J. H. SPENCER, Sec'y.

Keeler can fit you out with Boys, Youths and Mens ready made clothing at bottom prices.

Building an Electric Wagon. A Lock Haven inventor is now at work constructing a wagon, the motive power of which is to be electricity. A reporter was permitted to see the parts of the vehicle which have been completed. The inventor explained that he intends to have his wagon ready to make a trip to Williamsport on the morning of July 4th, and the speed will be from one to 20 miles per hour, according to the condition of the road. The power will be furnished by storage battery cells stored under the seats which run lengthwise of the vehicle like that in an omnibus. There will be 8 cells, 4 in each side. These will have a capacity to run the wagon 15 days and 9 hours each, and will re-charge themselves from a generator of ten 16 candle power lights and a motor. The motive power will be 3 horse, geared to equal 6 horse power.

The vehicle when completed will weigh 1600 pounds and will carry 3000 pounds. The length of the body of the wagon will be 14 feet; width, 3 feet 7 inches. The wheels will have pneumatic tires.

The inventor expects to convey a dozen or more passengers to Williamsport on the morning of July 4.

T. J. Keeler can fit your boy with a suit of clothes from \$1.25 up.
