The Tariff Reform. Wages, in some instances, are higher than they were in 1894. But they are far below the wages of 1891 and 1892. All over the country there have been strikes for the purpose of securing even the wages of 1893. The volume of business has increased over that of 1894, but it is only 80 per cent, of that of three years ago. Business failures in the last few weeks have been over 600, against less than 500 in the corresponding period of 1892, add this, too, in spite of the fact that the weaker firms went under long ago Exports have decreased, although the markets of the world are open to us. We have been selling bonds instead of redeeming them, as we did under a Protective Tariff.

So much for the business boom which has come through Tariff Reform-the boom which has come through Tariff Reform, but which. strange to say, did not reach us until the party of protection had again been swept into power and had been placed in control of the legislative branch of the government,
