James Cunningham, proprietor of one of the largest hardware stores in Dushore, is doing a thriving business. Jim is one of the best natured fellows at the metropolis. He will always be found on the contrary side—just for argument, as he terms it, and in two cases out of three he will convince the other fellow that he is wrong, or else there will be no convincing about it, as Jim is there for keeps. It don't take any argument however, to convince the customer that his store building, up stairs and down, is chuck full of goods of the latest pattern and the price mark on each article is conclusive evidence that Jim believes in the old saying, "quick sales and small profit."

The officials of the Sullivan county Agricultural Society should consider the advisability of presenting new attractions at our fair this season. The old ones are out of date. Why wouldn't the "flying machine" be a good card. It knocks the wind out of the old fair baloon, and would draw tens of thousands of people to our fair. The flying machine is operated on scientific principles and is steered by the man at the wheel, like a ship. Its movements are under perfect control. It is a new thing and would win the presence of every man, woman and child in the county. Let the officials of the society consider this suggestion.

United States Court. The United States district and circuit court for the Western district convened in the government building at Williamsport, Monday of last week.

The case of DeLa Green, who had asked for a new trial, has been postponed to the March term, to be held at Scranton.

The star will be placed to the right of the fourth row from the top. The order for the addition of the star is accompanied by one changing the size of the colors. Heretofore the standard has been six feet by five. The new order makes the regulation size five feet six inches by four feet four inches. Utah will not attain Statehood until the 4th day of next July.

In re: Contested In the Court of Common Pleas of Sullivan Co. No. 88 Dec. T. '91.

We find from the evidence the following facts— At the general election held Nov. 6th, 1894, in the 44th Judicial District, composed of the Counties of Wyoming and Sullivan, there were cast for the office of President Judge of the said district six thousand three hundred and sixty-three votes of which 3,196 were returned as cast for the Hon. Edward M. Dunham, 3,167 for the Hon. John A. Sittser. A large number of the said votes, however, were cast by persons who were not qualified voters at the time of the said election, being disqualified, either by not having paid a state or county tax within the time prescribed by law, or not having been registered and making no affidavit, or an affidavit which was not sufficient under the law, or not being of legal age, or being aliens, or non-residents of the district in which they voted, or having offered or received money or other reward for voting or abstaining from voting, or from some other disqualifying cause. The following is a list of such illegal voters with the district in which they respectively voted, the number of their ballots, and the ground upon which we find them severally disqualified:
