**The People's Ticket.**

Fawcett and Lawrence who constitute the people's ticket this fall are in a position to wage an aggressive campaign and that, too, with every prospect of success. In the first place this ticket is good and in the second place they are in excellent condition for the contest. Under the circumstances there should be no weakness in the party to discourage and hamper the work of others. What the party wants is a united front, with every man a worker, and the majority that will follow will be surprising even to the most sanguine. Fawcett and Lawrence are well qualified to fill the position to which they aspire. The tax payers of our county should give this a long thought. Every true American has more or less pride for his home and are doubly pleased to be represented by competent officers, for this reason the people of our county will join hands and elect the people's ticket. Nothing ill can be said of this ticket. They are clean men with a reputation as clean as the cleanest. The Democrats cried contest in 1894 because of fraud, can they consistently support a neighbor in 1895 who has been found guilty of this charge? No, as Strey says, the better class of our people will abstain from voting with the boodle class.

Henry E. Fawcett the people's candidate for Sheriff is a straight forward young man. Nothing of a mean order can be laid at his door. He is a farmer and solicits the support of his neighbor farmer at the polls.

W. J. Lawrence the nominee for Prothonotary is a whole souled fellow, well competent to perform the duties of this office. He is obliging and a friend to everybody. Mr. Lawrence is a contractor by occupation and gives employment to a large number of our people. These employees speak of Will as being a pleasant young man, not at all irritable, hence would make a good county officer. It is a well known fact that an officer of quick temper is often humiliating to the party doing business at his stand.

Should Mr. Lawrence be successful in his election, he will reside in Laporte and the door of the Prothonotary's office will at all times be found open.

**Funerals at Night.**

The custom of holding funerals at night is, according to an undertaker, growing steadily in New York city. Its growth dates from about five years ago. There were night funerals in New York before that, but they were comparatively few. The growth of the custom is due to several causes: The night funeral is less expensive, and it meets the convenience of a much greater number of friends of the dead; with the increase of societies and their growth in membership, the loss of a day or half day in attendance at the funeral of a member has come to be a serious tax, and in this respect the night funeral makes a saving of time.

Statistics show more well filled barns to be destroyed by lightning than empty ones, that is, the risk after harvest is greater than before. The department at Washington investigated and gives reasons as follows: Before harvest the stalks of growing grains and grasses, with their many points and heads, act as conductors of electricity and serve as discharging points, to some degree neutralizing the electric stress in the air. After harvest the fields are more or less bare, and the electric tension must be relieved through buildings and prominent features in the landscape.

**Terrible Accident.**

Glenn Smith of East Burlington, met a horrible death Tuesday afternoon, being literally cut to pieces by the knives of a reaping machine. He had been operating the machine and about five o'clock got down in front of the knife bar to fix a part of the machinery when the horses became frightened and ran away. Both arms were severed below the elbows, one leg cut off entirely and the other nearly severed from his body, the trunk being thrown back upon the table of the machine.

The young man was the son of Seymour Smith of East Burlington, and was about twenty-seven years old.—Towanda Review.
