FAMINE'S AWFUL RAVAGES

Cholera Adding to the Terrors of Starying India.

IN FRIGHTFUL CONDITION

Nearly One Hundred Million Persons Suffering-Relief Only a Drop in the Ocean-Appalling Condition of Affairs in British Districts.

London, May 8.—The report that cholera is strengthening its deadly hold on famine stricken India brings the pitiful condition of that country more than ever to public view. About 92,500,000 persons, for this is the population of the districts affected, are suffering amid pestilence and misery that show no signs of abating. Hundreds of thousands of pounds in good British gold, German marks and American corn have been thrown into the country; but judging from the latest advices all this charity is merely a drop in the ocean. The famine and its attendant complications appear to exceed in virulence any two previous visitations.

The Viceroy, Lord Curzon, and the Government are making ceaseless exertions to meet the terrible emergency, but the stupendous difficulties fronting them prevent the present supplying of relief to more than five millions. In the meantime the native states are dotted with heaps of dead and dying, and the roads are crowded with ghastly bands, seeking to escape from the stricken territories, who, for lack of food and water, most ly succumb in the attempt. One of the most hopeless features of the whole affair is contained in the state-ment of a special correspondent at Simla, who writes:

Ten times the total relief could be laid out in a single district without relieving its distress. All we hope for is succession of good years to put the people on their legs again."

The British districts are supposed to

be so far escaping the large starvation and mortality that mark the native States. But that their condition is not enviable is evident from the fol-lowing description sent by a Bombay correspondent of the scene at Ahmedabad, a city in the Presidency of Bombay:

"In an open space upwards of 200 were seated, old and young, being famine personfied. The smell arising from their filthy rags was sickening, and had attracted myriads of flies. Some, especially the old men, were bony frameworks. A girl, nursing two children, was ghastly to look at, but the little ones, with hollow temples. sunken eyes and cheeks, and the napes of their necks falling in under their skulls, which seemed to over-balance their emaciated bodies, and with wasp like arms and legs, were more dreadful still. Many were suffering from disease, and numbers had fever. Those who could work were sent on where tanks were being dug. Others were given a meal and passed on to the Poor House."

This picture is from a less seriously affected part of the country. sufferings in the pemoter districts where the famine is severe, where all the cattle have long since died, where water is precious, and where cholera has now added its dread scourge, can well be imagined.

PENNSYLVANIA'S NEW ROAD.

Route to New England Shortened-Liners From Montauk Point.

Philadelphia, May 8.—Second Vice-President Pugh's confirmation of the purchase of the Long Island Railroad by the Pennsylvania is official. President Cassatt, when seen to-day, de-clined to talk further about the matter. He would not discuss the report that a line at steamers is to be built to cross the ocean in record-breaking time and land at Montauk Point where, it is said, great wharves and shelter sheds for freight are to be erected. Vice-President Pugh's statement, however, that the Pennsylvania road has long wanted terminal facil-ities on Long Island would seem to bear out this report.

The advantage to be gained by the Pennsylvania is chiefly in the outlet to New England by way of the New York, New Haven & Hartford. By landing cars at Long Island City and taking them by rail over the new East River Bridge at Hell Gate, an enormous amount of money will be saved.

Two Killed by Collapse of House.

St. Louis, Mo., May 8.-An old threestory brick building, No. 1,430 North Eighth street, collapsed to-day, in-stantly killing Melvina Nelson, aged twenty-eight, and Cora Everson, aged fifteen, and burying under tons of de bris seven other persons who escaped with trifling injuries. All of the sur vivors were pinned in by timbers or buried under bricks and mortar. They had to be dug out, but singularly enough none received serious injury

ARMOUR'S TRIP POSTPONED.

Chicago Packer, Improved in Health, Attends to Business.

Chicago, May 8.-Philip D. Armour has so much improved in health since his return from California that he has postponed his trip to Europe, on which he was to start May 20. For the last week he has devoted every morning to business at his office, fa-miliarizing himself with what has taken place during his long illness and absence from his desk. He wishes to be perfectly familiar with the business as it stands to-day before leaving again. Besides this, the details of the pending consolidation occupy much of his time, and since his health will permit, he desires to close this up at once. Accordingly, it is his pres ent intention to remain in Chicago for

Striking Granite Cutters.

Quincy, Mass., May 7.—The strike of the granite cutters, which began more than two months ago, when the manufacturers refused to grant a reduction in the hear of labor, and the establishment of aninimum rate of wages demanded by the Cutters' Union, has ended in a compromise, and the agreement covers a period of five years. The manufacturers granted the demand for an eight hour work-day, but agreed to an advance of only 14 per cent. on the bill of prices presented by the union. The tool sharpeners have been granted an eight
