er Towns Also Suffer. SHEBOYGAN, Wis., Aug. 21.—A ter-Tific windstorm struck this city yester-day, coming suddenly from the north. Eight large buildings were completely wrecked, and 200 small houses were blown down, causing a loss of \$300,000. At noon it was as dark as night and in-tensely hot. A few moments before 1 o'clock the storm broke, increasing in force until it. became a tornado. People were thrown down and fences and signs hurled hundreds of feet. The storm, which raged for only ten minutes, was two miles wide and wrecked everything in the path. Earl Lass request is that the United States shall name Minister Conger or some other official to act as peace envoy for the ces-sation of hostilities. He expressed his willingness to go to such point as the powers may desire, and under the inti-mations made it is thought that Peking or Tien-isin would be selected for the ne-gotiations. The Chinese envoy proposed no terms as to the withdrawal of troops and made no other suggestion as to what was to come before the commission, his sole anxiety being to secure the cessation of hostilities. The application is under-stood also to have been made to the powers in the hope that if all would name a commissioner there would be a general council of peace between Li Hung Chang on the one hand and the several repre-sentatives of the nations on the other.

The Japanese minister in London, Kato Takaaki, is said to have received a tele-gram last evening announcing that after the entry into Peking a Japanese de-tachment went to the imperial palace to afford whatever protection was necessa-try. The main body of the Japanese was then at the An-ting-men gate of the Tartar city, with headquarters at the Japanese legation. Reports of the whereabouts of the em-press dowager are still contradictory, but General Yung Lu, according to the Shanghai correspondent of The Stand-ard, is definitely announced to be a pris-oner by the orders of the empress in the imperial palace. CUT WIRE STOPS NEWS.

The Allies Need Re-enforcements Whereabouts of the Empress.

LONDON, Aug. 21.—Owing probably to the Peking wire being cut little news of conditions in the Chinese capital has come through this morning. What has reached London indicates that the allies

are in need of re-enforcements. The commander of the Italian second class cruiser Fieramosca telegraphs from Taku, according to the Rome Forrespond-ent of The Daily Mail, that very urgent requests were coming from Peking on Saturday for the immediate dispatch of further troops and that in answer to these 400 Italian marines were sent off post haste.

It seems evident there-fore that the armies halted for a time at Tung-chow, probably for the purpose of giving the men a rest and to prepare for the attack on the capital city, in force after waiting until the rear of the ad-vencing host should arrive at the front.

Severe Drought In Kansas Severe Drought In Kansas. KANSAS CITY, Mo., Aug. 20.—Two-thirds of Kansas west of the three east-ermost tiers of counties is experiencing one of the most severe droughts in the history of the state, and the general opinion is that the Kansas corn crop will be the smallest in proportion to its re-quirements for feeding that has been rais-ed in many years. In 1889 it was 225.-000,000 bushels. Secretary Coburn's re-port of cenditions on Aug. 4 indicated a yield this year of about 145,000,000 bush-els. Since then there have been two weeks of hot, dry wenther, which has further materially reduced conditions, and the most liberal estimates of well informed men ou 'change do not exceed 100,000,000 bushels, while many place the crop at not over 75,000,000.
