# TO AWE THE SULTAN

Battleship Kentucky Ordered to Smyrna.

AMERICAN CLAIMS TO BE PRESSED.

# Turkish Government Owes Uncle San About \$100,000 For the Destruction of Missionary Property and Has Proved a Poor Paymaster.

Has Proved a Poor Paymaster.
• WASHINGTON, Nov. 20.—The first class battleship Kentucky, now in Mediterranean waters, has been ordered to touch at Smyrna, Turkey, on her way to the Phillippines. The Kentucky has been in Mediterranean waters for some time, has made a stop at Algerian port and is now at Naples. She is going to Manila via the Suez canal route and is in command of Captain Colby M. Chester. The Kentucky's presence in Turkish waters will be coincident with renewed efforts on the part of the administration to collect from the Turkish government payment of the indemnity claimed by the United States for the destruction of missionary property in that country some years ago.
The payment of the indemnity claimed by the united States for the destruction of missionary property in that country some years ago.
The payment of the indemnity claimed by the united States for the destruction of missionary property in that country some years ago.

tlement, but thus far apparently without any definite assurance that the claims will be paid. The claims approximate in amount \$100,000.

will be paid. The claims approximate in amount \$100,000. Srayrna lies at the head of the gulf of that name, has a large population, and for centuries has been the most important center of trade in the Levant. The city lies out of the ordinary line of travel to the Suez canal. Naval officers are proud of the splen-did battleship Kentucky, which only re-cently has been launched. She has a dis-placement of 11,525 tons, an indicated horsepower of 10,000 and has 22 guns in her main battery. Much admira-tion has been expressed for her appear-ance at the places she has stopped, and the detour to Suryrna is said in official quarters to be for the purpose of showing her off. Snow Three Feet Deep.

Snow Three Feet Deep.

UTICA, N. Y., Nov. 16.—The fall of snow in this vicinity and northern New York is unprecedented for thus early in the season. There is a fall of three feet on the level along the Rome, Watertown and Ogdensburg railroad and drifts from four to the fact deen. A train because four to ten feet deep. A train became stalled on the Watertown branch and finally was abandoned from Carthage to Utica. Last night trains were from two to three hours late, the earliest blockade by snow in the recollection of the oldest railwood men by snow in t railroad men.

Wheat From Quebec to Liverpool. QUEBEC, Nov. 19.—The new Cana-dian transatlantic route, which is 800 miles nearer Liverpool than any of the other lines, has been opened by the sal-ing of the steamer Albanian of the Ley-land line, this city, with a cargo of 230,-000 bushels of western grain, which was loaded from the recently constructed Great Northern elevator. The erection of this elevator, which has a capacity of 1,000,000 bushels, was largely due to backing by American capital. Wheat From Quebec to Liverpool.

Thirteen Killed In Railway Wreek. BAYONNE, France, Nov. 16,—The southern express was derailed at noon yesterday between St. Geoures and San-busse, near Dax, about 33 miles north-east of Bayonne. The restaurant car was precipitated over an embankment. Thirteen persons were killed and 20 oth-ers injured, seven seriously. Five pas-sengers ate missing. The list of killed includes Senor J. F. Canevaro, Peruvian minister to France, and an attache of the Peruvian legation in Madrid.

# Gives \$100,000 to a Church.

BLOOMFIELD, N. J., Nov. 17.– James N. Jurvis of this place has noti-fied the Westminster Presbyterian church that he will build on property adjoining that he will build on property adjoining the church building a two story stone building, harmonizing in architecture with the present structure, which he will equip with all facilities for church and Sunday school work and a public library of 25,000 volumes, the whole to cost \$100,000.

# Four Men Cremated.

Four Men Cremated. OSWAYO, Pa., Nov. 19.—Four men were burned to death in a fire which yes-terday destroyed the McGonigal House, a three story frame building; the hotel barn and the opera house. The three buildings were burned to the ground in half an hour from the time the fire started.

THE CZAR OF RUSSIA. czar's illness occasions no fenr. His youth is his physician's best ally. Rus-sians are touched by the expressions of foreign sympathy." The Svjet, after remarking that "the normal course of the disease has hitherto been a favorable augury," says: "The telegraph has given sincere ex-pressions of foreign sympathy. Europe and the world comprehend the role of the czar better than ever bofore, acknowledg-ing him as the first prince in the world and the guardian of peace."

## KENTUCKY BANK WRECKED.

The Old Story of Trusted Employee and Fast Living.

and Fast Living. CINCINNATI, Nov. 19.—United States Bank Examiner Tucker has taken pos-session of the German National bank at Newport, Ky., and posted a notice that the, bank will remain closed pending an examination. Examiner Tucker also an-nounced unofficially that Frank M. Brown, the individual bookkeeper and assistant cashior was missing and that

Brown, the individual bookkeeper and assistant cashier, was missing and that a partial investigation showed that Brown was short about \$201,000. Brown had been with the bank 18 years, was one of the most trusted men ever connected with this old bank, and it is stated by the experts that his pecula-tions extended back as far as ten years. The wildest scenes were witnessed in Newport yesterday, and serious trouble is feared today, when the officers and di-rectors will be confronted by people who hunted them in vain yesterday. Brown was living a fast life, with wine, women and gambling in his repertory. His ca-reer was not cut short by any discovery at the bank until a jealous woman gave him away. him away.

Four Hundred Times Across Atlantic NEW YORK, Nov. 17.—Captain H. Christoffers of the steamship Trave of the North German Lloyd line, which ar-rived yesterday from Bremen and Cher-bourg, completed his two hundredth round trip across the Atlantic ocean. The big liner was decorated with flags and bunting, and the many vessels in the bay saluted the Trave as she slowly steamed into the harbor. On the com-pletion of his next eastward voyage Cap-tain Christoffers will retire from his po-sition and go into private life. Four Hundred Times Across Atlantic

# Buffalo Bill's Men Dying.

BRIDGEPORT. Conn., Nov. 20.– Four circus men have died since the Buf-falo Bill Wild West show reached winter quarters here ten days ago. All had pneumonia, contracted while on the way from the south to the north, but the di-bast cause of death in each instance was rect cause of death in each instance was a kidney trouble superinduced by the vibration of the circus cars on the rail-roads, the outfit having traveled 11,000 miles in the season.

# **Fo** Educate Filipinos

To Educate Filipinos. ST. PAUL, Nov. 17.—At the meeting of the state normal school board it was resolved to allow four Filipinos free tui-tion at each of the state normal schools at St. Cloud and Winona. The request came from Commissioner of Education Atkinson at Manila. A proposition is also involved in this plan which contemplates then the generative worlds for the that the government provide for the maintenance of such pupils while attend-ing school.

# **BRIBERY CANNOT** DEFEAT QUAY.

His Majority Too Great For Unscrupulous Opponents to Overcome.

POPULAR VICTORY. A

Dr. Snyder, of Chester, Will Be Elect ed Sneaker Pro Tem. of the Senate and Hon. William T. Marshall, of Allegheny, Speaker of the House of

Representatives.

Representatives. (Special Correspondence.) Philadelphia, Nov. 20.—While the Democrats and assistant Democrats, the so-called insurgents, are making desperate efforts to create the impres-sion that the supporters of Col. M. S. Quay will not have a majority in the joint convention for the election of a United States senator, it is significant that they dare not make a statement in detail of the names of the men whom they claim are opposed to Col. Quay.

Quay. The facts are that there is an un-The facts are that there is an un-doubted majority of stalwart Republi-can members of the state senate and the house of representatives who were elected with the understanding that they would support Col. Quay, and this they will do

elected with the understanding that they would support Col. Quay, and this they will do. His re-election to the United States senate could only be prevented by wholesale bribery of the representa-tives of the people. Men who value their reputations will have nothing to with the unscru-pulous schemers who are now looking to the resources of a well known mil-lionaire in this city, which they would like to have placed at their disposal for a campaign of debauchery, intimi-dation and blackmail. The Republicans of Pennsylvania know who havebeen elected as stalwart Republicans, and attempts to corrupt legislators will meet with prompt and positive action on the part of the peo-ple. A review of the situation in the state

A review of the situation in the state A review of the situation in the state shows that there is practically little left of the insurgent movement outside of the Pittsburg ring of politicians and a few retainers who still cling to David Martin in this city. The Washington county machine, of which Congressman Acheson is at the head, is dependent upon the Allegheny county contingent for summer in Acheson's compensional

Acheson is at the head, is dependent upon the Allegheny county contingent for support in Acheson's congressional campaigns. Their alliance with the insurgents in the contest against Col. Quay is quite natural. Two years ago Senator Quay was a candidate for re-election to the United States senate. In the contest at the primaries he won more than two-thirds of the Republican members and senators. In that legislature at the beginning of the voting for United States senator there were 112 regular Republicans, 87 Democrats and 54 in-surgents. The 112 regulars Included eight Republicans controlled by Magee in Allegheny and three subsequently controlled by Martin in Philadelphia, so that it left only 101 regulars after these deductions were made. FOR MAJORITY RULE.

# FOR MAJORITY RULE.

FOR MAJORITY RULE. These figures show that a combina-tion of insurgent Republicans and Democrats made a clear majority in joint assembly. The results stood by Senator Quay because he had been in-dorsed by more then two-thirds of Re-publican votes. They stood upon the rule of majority, and the result was

that the insurgents and Democrats, not being able to come together, the legis-lature was deadlocked and adjourned without the election of a United States

For mo  $\frac{h_0}{100}$  in two years this state, with its  $\frac{h_0}{100}$  is a half millions of peo-ple, its  $\frac{h_0}{100}$  is a synthesis of peo-thermal industrial interest  $\frac{h_0}{100}$  is year of the sentor in 

with this condition of affairs, the Republican state convention met in Harrisburg last April and in its plat-form announced Senator Quay as a can-

didate for re-election.

didate for re-election. BACKED BY HIS PARTY. This is a quotation from the platform of the Republican state convention, adopted at Harrisburg on June 20, 1900: "We deplore the action of the United States senate in denying us the gipt of full concessful tion.

United States senate in denying us the right of full representation to which we are entitled under the fed-eral constitution. We still contend that the governor had constitution-al authority to make the appointal authority to make the appoint-ment, and in selecting the Hon. Matthew Stanley Quay he was act-ing in accordance with the clearly expressed will of large majority of the Republicans of the state. We express our confidence in Senator Quay's leadership and we believe in his political and personal integ-rity. A great wrong has been done him, which the people will right at the proper time, and therefore we thew Stanley Quay shall be a candi-date for re-election to the United States senate, in which he has so date for re-election to the United States senate, in which he has so long served the people with such distinguished ability and fidelity, and to this end we pledge him our hearty and cordial support." Col. Quay appealed directly to the people. He went before the Republi-can voters in every county where there was a contest on the senatorial ques-tion. The issue was made in such a way that it could not be misunder-stood, and the election resulted fa-vorably to his candidacy in almost every instance. He made his appeals in Chester, Montgomery, Blair, Potter, Lawrence, Fayette, Westmoreland, Franklin, Clearfield, Mercer and Union. He won in all of these countes. WON ON DIRECT VOTE.

The insurgents have elected 53 mem-berg and senators who will sit in the next legislature. These figures give them more than they will probably get, but every doubtful man is placed in this list

get, but every doubtful man is placed in this list. Deducting this number from the to-tal number of Republicans elected leaves 138 regular Republicans in the next legislature. All of these were elected either as direct friends of Col. Quay or were pledged to go into the caucus and abide by its decision. They were supported in their counties by the regular Republicans on the issue of party regularity and majority rule, and are pledged to carry out these instruc-tions at the coming session of the leg-islature.

tions at the coming session of the leg-islature. Under all these circumstances it would seem as though the contest had been definitely settled by the returns, but the band of party wreckers who have been attempting to disrupt the Republican party during the past two or three years are trying to steal some of the regular Republicans in the hope that they can reduce the number who will go into the caucus below 128, which is the number necessary to elect, and thus prevent an election of United States senator, as they did two years ago.

ago. SIMPLY OBSTRUCTIONISTS.

SIMPLY OBSTRUCTIONISTS. These people do not expect to be able to elect a senator themselves. The insurgent Republicans have no hope of this kind. They have only 53 votes; they will have only 53 votes in joint as-sembly, but in joining these 53 with the 63 Democratic members and sena-tors they hope, by filbustering tactics, to prevent an election. If they can tempt, by use of the large corruption fund at their hands, or otherwise, some 12 or 15 members who were elect-ed on a platform of party regularity some 12 or 15 members who were elect-ed on a platform of party regularity to disregard their instructions, sell their honor and their manhood to this band of party wreckers, they think they can delay the election of a sena-tor two years longer. This is the whole contest now be-fore the Republicans of Pennsylvania. It will not succeed, because there is a clear majority of negular Republic

a clear majority of regular Republi-

cans elected

It will not succeed, because there is a clear majority of regular Republi-cans elected. The great mass of Republican voters throughout the state will not longer stand such methods. They will rise in their might and smite the small co-terie of disappointed politicians who by such means are undertaking to defeat the Republican party of the state. In the contest at the primaries this year the insurgents won straight vic-tories in only seven of the 67 coanties of the state—Allegheny. Bradford, Bucks, Lebanon, Montour, Somerset and Washington. This is proof con-clusive how weak the insurgent cause is when it is submitted to a popular vote of Republicans. They can only win in a few counties of the state on the main issue. In a few counties they succeeded by joining forces with the Democrats. It is time for the Republicans of the state to end this controversy by plac-ing the seal of disapproval upon the methods of those leaders who, while oretending to wear Republican garb, are all the time hobonobbing with the Democrats in order to defeat or dis-rupt the Republican party. While the matter of the United States senatorship is absorbing most attention naturally, the cauvas for the statwart Republican leaders. However, have gained during the weak 'n there is no doubt about the election of Sen-stor William P. Snyder, of Chester county, as president pro term. of the senate and Hon, William T. Marshall, of Allegheny, for speaker of the house of representatives. A Long Distance Photograph.

representatives. A Long Distance Photograph,

A Long Distance Photograph, MINNEAPOLIS, Nov. 16,—Professor F. P. Leavenworth photographed the as-toroid Eros through the telescope at the State university observatory last even-ing. Considering that the diminutive planet is said to be 34,000,000 miles away, it was a long shot. The professor said that the planet could not be seen with the naked eye or through the teles-scope. By a close mathematical calcula-tion he ascertained its exact location, and the sensitive plate cought its likeness, the sensitive plate caught its likeness, syen though it was beyond human ken.

**Xegro Burned at the Stake.** LIMON, Colo., Nov, 17,—Chained to a railroad rail set firmly in the ground on the exact spot where his fiendish crime was committed, Preston Porter, Jr., or, as he was familiarly known, John Por-tet, hast evening paid a terrible penalty for his deed. It was 6:23 o'clock when the father of the murdered girl touched the match to the fuel which had been piled around the stake, and 20 minutes ater a last convulsive shudder told that

# The Wisconsin Agricultural Experiment Station. Mabison, Wis, July 13,

In conducting our Dairy School, we have had occasion to use the various sizes of improved U. S. Separators for dairy instruction during several winters past. Our students have always been pleased with the operation of these Separators, and we find that they skim the milk very clean indeed from fat, and that they are generally very satisfactory. W. A. HENRY, Dean College of Agriculture.

Cornell University Experiment Station. ITHACA, N. Y. November 15, 1897. We have used the U. S. Separators for the past four or five years, and have ound them at all times efficient and reliable. They are easily cleaned and kept a order, and can be depended upon for satisfactory work. H. H. WING, Prof. Dairy Husbandry.

Massachusetts Agricultural College. AMHERST, MASS., July 7, 1807. We regard the Improved United States Separator as one of the vory best all round machines. In cleanness of skimming it surpassed all the others. It compares favorably with the rest in capacity. Our man calls it the smoothest running machine we have, although it has been in use nearly three years-a good comment on its wearing qualities. F. S. COOLEY, Prof. of Ag't.

Michigan Experiment Station. AGRICULTURAL COLLEGE, MICH., Jan. 57, 587. Your No. 7 Separator was received, set up, and has been operated daily since the th of January. Each of sciency of the second string it up, running it, washing it, and testing the skinsmilk. They all like the machine, on account of its easy running and simplicity. We are running through milk is to a hours old, warmed to over 80 and usually about of degrees. The per cent. of fat in the skim-milk, so far as reported, will not reach on the average a tenth of a per cent., and often its too small to read, in the skim-milk bottle. Wo are pleased with the machine in every possible way, as far as we have been able to observe it in a month's use. to observe it in n a month's use. CLINTON D. SMITH, Director Michigan Experiment Station,

# 1898 Record Equally as Good.

AGRICULTURAL COLLEGE, MICH., March 25, 1868. I do not know that I have anything to add to what I wrote you in January, 1897, or any changes to make in the statements therein made (see above). C, D, SMITH, Director.

Vermont Experiment Station. UNIVERSITY OF VERMONT AND STATE AGRICULTURAL COLLEGE, BURLINGTON, VT., June 35, 1807. It has been the uniform custom of the officers of the Vermont Station to decline to issue letters of a testimonial nature. I may say, however, that I can and do refer parties inquiring regarding the merits of the Improved United States Separators to the records of the running of the same as published in our report for 184.

The results obtained by the use of the character of the skinming is con-cerned, than those given in the report.
