COLOGNE, Dec. 3.—Thousands of people waited yesterday in the vicinity of the Cathedral hotel to catch a glimpse of Mr. Kruger, who, when replying to the deputation of Bonn students in the after-noon, described the educational progress of the Transvaal, thanked the students for their kind welcome and shook hands with each. Afterward he appeared upon the balcony, where he was loudly cheered from below. Having rested for half an hour he went into the yestibule of the hotel, which was crowded with visitors. Said to Have Been the Severest In Forty Years. MANILA, Dec. 3,—In his official re-port of the recent typhoon which visited the island of Guam Rear Admiral Remey reports that the storm was the severest in 40 years. The palace at Agana and the government buildings were unroofed and wrecked. The sea reached the plaza. Many of the homeless sought refuge in the school and jail. No one is reported to have been killed at Agana, but the mor-tality caused by the recent epidemic of the grip has been much increased by ex-posure, most of the dwellings having been destroyed. The town of Marajan was leveled, and 28 persons were killed. Several persons were killed in various small villages, and several small consters are missing. No reports have been re-ceived from some localities. Coconnut trees and all crops are destroyed, and food is being distributed to the sufferers. Admiral Remey has ordered the Are-thusa from Cavite with food supplies. Flour, corn and meats are needed, and it is suggested that donations be sent from the Usited States. The Brutus, from Cavite, and the Solace, from Sun Fran-cisco, due at Guam recently, will relieve immediate needs. The pounding of the Yosemite upon the

A Big Haul of Bolomen. MANILA. Dec. 3.-Twelve hundred bolomen entered Vigan, island of Luzon, and surrendered to Captain Green of the Thirty-third infantry. This is the largest number of men who have yet surrender-ed in Luzon at one time. General Tinio has been keeping a swarm of bolomen along the mountains, and they have im-poverished the food supply and cut off the leaders of the Tagalogs, but a con-siderable number of the llocanos, who had become lukewarm, believed that the surrender would hasten the collapse of General Tinio's power.

VACANCY IN THE HOUSE.

The death of Representative William F. The late Representative Stawart who was It is possible a special election may be held in time to have his successor vote on the United States senatorship. The late Representative Stewart, who was the "father of the house," was a follow-er of David Martin and co-operated with the insurgents. He was counted upon to do so again, had he lived. His death leaves but 203 members in the house, and of this number 102 is a majority, which is the vote necessary to elect a speaker. With a full house of 204 votes, 103 votes are required to elect the speaker and other officers. While the friends of Hon. W. T. Marshall, of Allegheny, who will be the Republican caucus nominee for speaker, had no doubt of his election before Mr. Stewart's death had the vote been close this vacancy might have had an important bearing on the situation. This means a loss of one vote for the insurgents and a gain of one for the regulars.

Flinn and Martin, with the defeat of their fusion schemes in so many dis-tricts, see the utter hopelessness of their game to elect an insurgent to the United States senate, controlling as they do but a small minority of the Re-publican vote in the general assembly. To the Martin-Flinn insurgent end and the Guffey Democratic contingent it is evident that there is but one thing to do, and that is to attempt to again deadlock the legislature and block the plans of the regular Republicans of electing the choice of the Republicans caucus. They have determixed to work for another deadlock, so as to throw the election of a successor to Col. Quay into the next legislature, which would then have to elect two United States senators, successors to Messrs. Quay and Penrose. United States senators, successors to Messrs. Quay and Penrose. This scheme is made attractive to the Democrats, and especially to Guf-fey, by a promise that Guffey shall be given one of these seats in the United States senate, with the other to go to an insurgent Republican who put up the most cash in the fight. The recent scheme of a fusion campaign for the election of candidates for the legisla-ture would, according to their program, be repeated two years hence, and the insurgents would continue to act inde-pendently of the regular Republican organization and practically maintain a party of their own. BARTER AND SALE. BARTER AND SALE. Flinn and Martin are apparently ready to make any trades to keep the Democrats in the senate and the house working in harmony with their inter-ests.
