

DR. TALMAGE'S SERMON

SUNDAY'S DISCOURSE BY THE NOTED DIVINE.

Subject: **Speak For the Right—Diabolical Agencies Active—Silence is Not Golden Where There Are Evils—Be Ready When Christianity is Assailed.**

(Copyright 1901.)
WASHINGTON, D. C.—In this discourse Dr. Talmage calls for more conservative religion and a hearty speaking out on the right side of everything; text, Mark ix, 25, "Thou dumb and deaf spirit, I charge thee, come out of him."

Here was a case of great domestic anguish. The son of the household was possessed of an evil spirit, which among other things paralyzed his tongue and made him speechless. When the influence was on the patient he could not say a word—articulation was impossible. The spirit that captured this member of the household was a dumb spirit—so called by Christ—a spirit abroad to-day and as lively and potent as in New Testament times. Yet, in all the realms of sermonology I cannot find a discourse concerning this devil which Christ charged upon in my text, saying, "Come out of him."

There has been much destructive superstition abroad in the world concerning possession of evil spirits. Under the form of belief in witchcraft, the delusion swept the continents. Persons were supposed to be possessed with some evil spirit which made them able to destroy others. In the sixteenth century in Geneva 1500 persons were burned to death as witches. Under one judge, in France 100 persons were burned to death as witches. In the neighborhood of France 1000 persons were burned. In two centuries 200,000 persons were slain as witches. So mighty was the delusion that it included among its victims some of the greatest intellects of all time, such as Chief Justice Matthew Hale and Sir Edward Coke, and such renowned ministers of religion as Cotton Mather, one of whose books Benjamin Franklin said shaped his life—and Richard Baxter and Archbishop Cranmer and Martin Luther, and among writers and philosophers Lord Bacon. That belief which has become the laughing stock of all sensible people counted its disciples among the wisest and best people of Sweden, Germany, England, France, Spain and New England. But while we reject witchcraft, any man who believes the Bible must believe that there are diabolical agencies abroad in the world. While there are ministering spirits to bless there are infernal spirits to hinder, to poison and to destroy. Christ was speaking to a spiritual existence when standing before the afflicted one of the text He said, "Thou dumb and deaf spirit, come out of him."

Against this dumb devil of the text I put you on your guard. Do not think that this agent of evil has put his bright organs there by omission of the vocal organs have had the golden gates of speech booted and barred. Among those who have never spoken a word are the most energetic and lovely and talented souls that were ever incarnated. The chaplains of the asylums for the dumb can tell you enchanting stories of those who never called the name of father or mother or child, and many of the most devout and prayerful souls will never in this world speak the name of God or Christ.

Many a deaf mute have I seen with the angel of intelligence seated at the window of the eye, who never came forth from the door of the mouth. What a miracle of love and knowledge was Laura Bridgman, of New Hampshire, not only without hearing and sight, but without feeling and without sight, all these faculties removed by sickness when two years of age, yet becoming a wonder at needlework, at the piano, at the sewing machine and an intelligent student of the Scriptures and confounding philosophers who came from all parts of the world to study the phenomenon. Thanks to Christianity for what it has done for the amelioration of the condition of the deaf and the dumb. In the ages they were put to death as having no right, with such paucity of equipment, to live, and for centuries they were classed among the idiotic and unsafe. But in the sixteenth century came Pedro Ponce, the Spanish monk, and in the seventeenth century came Juan Pablo Bonet, another Spanish monk, with his alphabet, or the finger alphabet, and in our own time we have had John Braidwood and Dr. Mitchell and Ackerly and Peet and Gallaudet, who have given to uncounted thousands of those whose tongues were forever silent the power to speak out on the air by a manual alphabet, the thoughts about this world and their hopes for the next. We rejoice in the brilliant inventions in behalf of those who were born dumb.

One of the most impressive audiences I ever addressed was in the Far West, an audience of about 600 persons, who had never heard a sound or spoken a word, an interpreter standing beside me while I addressed them. I congratulated that audience on two advantages they had over the most of us—the one that they escaped hearing a great many disagreeable things and on the other fact that they escaped saying things they were sorry for afterward.

Yet after all the alleviations of a shackled tongue is an appalling limitation. But we are not this morning speaking of congenial mutes. We mean those who are born with all the faculties of vocalization and yet have been struck by the evil one mentioned in the text—the dumb devil whom Christ called when He said, "Thou dumb and deaf spirit, I charge thee, come out of him."

There has been apothosis of silence. Some one has said silence is golden, and sometimes the greatest triumph is to keep your mouth shut. But sometimes silence is a crime, and the direct result of the baleful influence of the dumb devil of our text. There is hardly a man or woman who has not been present on one occasion when the Christian religion became a target for railery. Perhaps it was over in the store some day when there was not much going on and the clerks were in a group, or it was in the factory at the noon spell, or it was out on the arm under the trees while you were resting, or it was in the clubroom, or it was in a social circle, or it was in the street on his way home from business, or it was on one occasion which you remember without my describing it. Some one got the laugh on the Bible and caricatured the profession of religion as hypocrisy or made a pun out of something that Christ said. The laugh started, and you joined in, and not one word of protest did you utter. What kept you silent? Modesty? Or incapacity to answer? No. Lack of opportunity? No. It was a blow on both lips by the wing of the dumb devil. I suppose one should malign your father or mother or wife or husband or child, you could flush up quick and either with an elegant word or doubled up flat make response. And yet here is our Christian religion, which has done so much for you, and so much for the world that it will take all eternity to celebrate it, and yet when it was attacked you did not so much as say, "I differ. I object. I am sorry to hear you say that. There is another side to this." You Christian people ought in such times as these go armed, not with artful weapons, but with the sword of the Spirit. You ought to have four or five questions on hand which you could confound any man who attacks Christianity. A man twenty years old was telling me how he used to fight a scoffer. My aged friend said to the skeptic, "Did you ever read the history of Joseph in the Bible?" Yes, said the man, "It is a fine story and as interesting a story as I ever read."

said my friend, "we have in this world only half of everything, and do you not think that when we hear the last half of the message we are consistent and that then we may find that God was right?"

Oh, friends, better load up with a few interrogation points. You cannot afford to be silent when God and the Bible and the agencies of sternly are assailed. Your silence gives consent to the bombardment of your Father's house. You allow a slur to be cast on your mother's dying pillow. In behalf of the Christ, who for you went through the agonies of assassination on the rocky bluff back of Jerusalem, you dared not face a sickly joke. Better load up with a few questions, so that next time you will be ready. Say to the scoffer, "My dear sir, will you tell me what makes the difference between the conditions of woman in China and the United States? What do you think of the sermon on the mount? How do you like the golden rule laid down in the Scriptures? Are you in favor of the Ten Commandments and your large and extensive reading have you come across a lovelier character than Jesus Christ? Will you please to name the triumphant deathbeds of infidels and atheists."

How do you account for the fact that among the out-and-out believers in Christianity were such persons as Benjamin Franklin, John Ruskin, Thomas Carlyle, Babington Macaulay, William Penn, Walter Scott, Charles Kingsley, Horace Bushnell, James A. Garfield, Robert E. Lee, Stonewall Jackson, Admiral Foote, Admiral Farragut, Ulysses S. Grant, John Milton, William Shakespeare, Chief Justice Marshall, John Adams, Daniel Webster, George Washington? How do you account for their fondness for the Christian religion?

Among the innumerable colleges and universities of the earth will you name me three started by infidels and now supported by infidels? Down in your heart are you really happy in the position you occupy antagonistic to the Christian religion?

Go at him with a few such questions, and he will get so red in the face as to suggest apoplexy, and he will look at his watch and say he has an engagement and must go. You will put him in a sweat that will beat a Turkish bath. You will put him on a rout compared with which our troops at Bull Run made no time at all.

Arm yourself, not with arguments, but with interrogation points, and I promise you victory. Shall such a man as you, shall such a woman as you, surrender to one of the meanest spirits that ever smoked up from the pit—the dumb devil spoken of in the text?

But then there are occasions when this particular spirit that Christ exercised when He said, "I charge thee to come out of him" takes people by the wholesale. In the most responsive religious audience have you noticed how many people never sing at all? They have a book, and they have a voice, and they know how to read. They know many of the tunes and yet are silent while the great raptures of music pass by. Among those who sing not one out of a hundred sings loud enough to hear his own voice. They hum it. They give a sort of religious grunt. They make the lips go, but it is inaudible. With a voice strong enough to stop a street car one block away, all they can afford in the praise of God is about half a whisper. With enough sopranos, enough altos, enough basses to make a small heaven between the four walls, they let the opportunity go by unimproved. The volume of voice that ascends from the largest audience that ever assembled ought to be heard a thousand miles off. But the minister rises and gives out the hymn, the organ begins, the choir or preceptor leads, the audience are standing so that the lungs may have full expansion, and a mighty harmony is about to ascend when the evil spirit spoken of in my text—the dumb devil—springs his two wings over the lips of one-half the audience, and the other wing over the lips of the other half of the audience, and the voices roll back into the throats from which they started, and only here and there anything is heard, and nine-tenths of the holy power is destroyed, and the dumb devil, as he flies away, says, "I could not keep Isaac Watts from writing that hymn, and I could not keep Lovell Mason from composing the tune to which it is set, but I smote into silence or half silence the lips from which it would have spread abroad to bless neighborhoods and cities and then mount the wide open heavens." Give the long meter doxology the full support of Christendom and those four lines would take the whole earth for God.

This is the way I account for the fact that the stupidest places on earth are some prayer meetings. I do not see how a man prays any grace if he regularly attends these things. They are spiritual refrigerators. Religion kept on ice. How many of us have lost occasions of usefulness!

In a sculptor's studio stood a figure of the god Opportunity. The sculptor had made the hair fall down over the face of the statue so as to completely cover it, and there were wings to the feet. When asked why he so represented Opportunity the sculptor answered, "The face of the statue is thus covered up because we do not recognize Opportunity when it comes, and the wings of the feet show that Opportunity is swiftly gone."

But do not let the world deride the church because of all this, for the dumb devil is just as conspicuous in the world. The great political parties assemble at the proper time to build platforms for the candidates to stand on. A committee of each party is appointed to make the platform. After proper deliberation the committees come in with a ringing report, "whereas" and "whereas" and "whereas." Pronouncements all shaped with the one idea of getting the most votes. All expression in regard to the great moral evils of the country ignored. No expression in behalf of temperate living, for that would lose the vote of the liquor traffic. No expression in regard to the universal attempt at the demolition of the Lord's day. No recognition of God in the history of nations, for that would lose the vote of atheists. But "whereas" and "whereas" and "whereas." Nine cheers will be given for the platform. The dumb devil of the text puts one wing over the one platform and the other wing over the other platform. Those great conventions are opened with prayer by their chaplains. If they avoid platitudes and told the honest truth in their prayers they would say: "O Lord, we want to be postmasters and consuls and foreign ministers and United States district attorneys. For that we are here and for that we will strive till the election next November. Give us office or we die. Forever and ever, Amen."

The world, to say the least, is no better than the church on this subject of silence at the wrong time. In other words, is it not time for Christianity to become pronounced and aggressive as never before? Take sides for God and sobriety and righteousness.

"If the Lord be God, follow Him; if Baal, then follow him." Have you opportunity of rebuking a sin? Rebuke it. Have you a chance to cheer a disheartened soul? Cheer it. Have you a useful word to speak? Speak it.

To Win Success.

Every man aims at success, some more wisely than others. The wisest man seeks the best location. The Northern farmer will find fine opportunities, great advantages in the South along the Southern Railway. Farming land is cheap, the soil is fertile and gives heavy yields. It is adapted for grains, grasses, stock dairy or truck farming, or orchards. The climate is mild and equable, pleasant all the year round. It is a land of health and prosperity. Garden, orchard and farm products bring good prices, and living is cheaper than in the North. Along the Southern Railway is the place for success, on the farm or in business. Beware of Ointments for Catarrh That Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system.
