RED FLAG IN ST. PETERSBURG.

Demonstrators Cry "Down With th Czar!" and "Long Live Lib-erty and Free Government!"

LONDON, March 19.—Special dispatches from St. Petersburg describe fierce fighting between the demonstrators and the Cossacks. The lutter charged the mob at a gallop, and the people replied with volleys of stones. A Cossack officer who was struck on the head by an iron bolt was unhorsed. The Cossacks, on seeing their leader fall, dismounted and engaged in a hand to hand light, using their whips freely on the people, many of whom were injured seriously, although nobody was killed.

Altogether 800 students were arrested. A number of students who had recently protested against the excommunication of Count Tolstoi assembled inside the cathedral and began smoking, shouting, throwing things at the holy images and whistling while the sacred elements were being prepared for the sacrament. Thereupon the congregation began to thrust the disturbers outside, and a general fight ensued.

LONDON, March 19 .- The difficult at Tien-tsin over the construction of a railroad siding will probably be solved by the withdrawal of both the British railroad siding with particles of the withdrawal of both the British and Russian troops from the ground in dispute. It is believed here that too much has been made of the incident, and a more hopeful view of the affair is taken.

While hostilities are out of the question however, it is not unlikely that

tion, however, it is not unlikely that diplomatic relations between Great Brit-ain and Russia will become strained al ain and Russia will become strained almost to the breaking point. Possibly British warships may be dispatched to bring pressure to bear upon Russia, but war will not result unless some fracas quite unauthorized by London and St. Petersburg occurs between the opposing forces at Tien-tsin.

This assertion is based upon exhaustive inquiries in London. A prominent British official, often the mouthpiece of the government, whose position makes it

"It is useless for our newspapers to use provocative language. They forget that we have a great army in South Africa and that we have no other army nor the makings of one elsewhere. It is impossible to go to war with Russia."

A semiofficial statement was issued last evening to the effect that the much talked of assurances of the Russian foreign minister, Count Lamsdorff, to Sir Charles Stewart Scott, British embassador at St. Petersburg, were made Feb. 6 and evidently referred to the Russo-Chinese agreement concluded at Port Arthur last November and not to the Manchurian convention.

of the Hiram W. French company's hair felt factory, just opposite the Exposition main building. Through some confusion no alarm was turned in for some time, and it was fully 20 minutes after the fire was discovered before the engines reached the scene. From the felt factory the flames jumped across the street and in a very short time the felt factory the flames jumped across the street, and in a very short time the Exposition building was burning fiercely. #### RAINBOW CITY.

## Pan-American Exposition Aglow With Beautiful Colors.

Perhaps nothing has been more talked about than the color scheme of the Pan-American. It was a daring thing to attempt to array in colors the extensive buildings of this Exposition, for scarcely any precedent existed for such an undertaking, and to attempt it and fail would be disastrous indeed. It was out of the question to duplicate the White City at Chicago. Something absolutely new must be devised for the Pan-American at Buffalo. Happily the Spanish renaissance architecture furnished the hint for the solution of this solved and the color scheme is seen to well adapted to the purposes of exposition architecture it is realized

FIGURE OF HEROIC MUSIC. that a new discovery has been With the buildings arrayed in colors which will harmonize with the genera rather than offend artistic taste, the Rainbow City cannot fail to become popular in a degree scarcely hoped for

those who planned its construction. The Director of Color, Mr. Charles Y. Turner, N. A., of New York City, studled the requirements of the situation and in his studio in New York by means of models carefully worked out the designs and drawings for the mural decoration. The experts experimented with paint and obtained an article that may be used without fear that it will lose its staying qualities before the Exposition is over. The test already made shows that the paint after being once applied to the staff is going to hold its color well.

#### RARE COMBINATION.

#### The Floral and Electrical Display at the Pan-American Exposition.

There is a saying that "Flowers are the poetry of earth, as stars are the poetry of heaven." If this be true, the beauty of the floral effects to be seen at the Pan-American Exposition will be pronounced as a rare combination of both, for never yet at an exposition have such magnificent effects been as will be visible in some of the fountain basins at the Pan-American There beautiful plants and flowers, kissed to a state of dewy dazzlement by the falling spray and the glow of oncealed incandescent lamps, will de-

light the visitor.

At the exposition in Omaha some little success was obtained in thus lighting up the flowers and the foliage of plants in the water basins, and this has led Henry E. Rustin, chief of the mechanical and electrical bureau, to attempt to enlarge upon what he accom-plished in Omaha. When thus lighted, the flowers and plants take upon themselves new colors, each one seemingly more beautiful than the color displayed under full sunlight. Then the little under full sunlight. Then the little mystery of where the illumination comes from is delightful, and, knowing this, the skilled electrician is most care this, the skilled electrician is most care-ful to conceal his lamps where least likely to attract the eye. Perhaps an artificial leaf, an artificial flower, is used to hide the lamp, but its full brilliancy is allowed to beam upon the plant and flowers, making a picture that is lasting. It is when such effects are obtained that the full appreciation of enjoyment is expressed in the single word "beautiful." It was so at Omaha and it will be more so at the Pan-
