Governor Much Pleased With His Inspection of the National Guard.

GOOD WORK AT HARRISBURG.

Much Time Spent Supervising Work for the Forestry and Dairy and Food Departments, in Which Much Progress is Being Made.

Harrisburg, July 30.—Governor Stone has returned after a week's absence in reviewing the National Guard at the annual encampment.

"I never felt prouder of my native state than I do tonight," said the governor, enthusiastically, on his arrival here. "I have witnessed one of the grandest and most successful assemblages of the troops of the state, and I am pleased to say that the National Guard of Pennsylvania was never on a firmer basis, better equipped or better disciplined than it is today. Everywhere I went, I found the officers and men eager to carry out the instructions of their superior officers, and they depicted themselves in a manner to command the highest praise of the representative of the United States army assigned to inspect our militia."

Governor Stone will not take a regular vacation this summer. He is watching the workings of the several state departments closely and finds much to occupy his attention.

A WOMAN FORESTER.
Since he became governor he has shown a solicitous interest in the development of the forests of Pennsylvania, and he has in many ways encouraged the department of forestry, which has during the last two years been acquiring many acres of forest lands as the property of the commonwealth.

Miss Myra Lloyd Dock, of this city, has the honor of being the first woman to become a member of the state forestry commission. She has just received her appointment from Governor Stone. Miss Dock has been identified with the forestry movement almost since its inception in Pennsylvania, and, while a young woman, she has made her impress upon this important work. She has been a most efficient lecturer and has not only studied the forestry question in the United States, but also in foreign lands, especially in Germany, where she visited the Black Forest and studied under the German instructors. Her appointment is in no sense a political one, but comes solely from her fitness for the work. It is acknowledged to be a direct recognition of the important services she has herself rendered the state, and also a recognition of the invaluable aid which the women of Pennsylvania have given this movement.

WORKING FOR PURE BUTTER.
Governor Stone has had several conferences recently with the dairy and food commissioner, his own appointee, Farmer Cope, of Chester county, and Secretary of Agriculture John Hamilton in reference to the work under their immediate direction.

At the last session of the legislature there was enacted, besides the anti-oleomargarine law, an act regulating the sale of process or "worked over" butter.

Charles L. Brown, attorney for the dairy and food commission, anticipates that immediate steps will be taken to carry out the provisions of the renovated butter and oleomargarine legislation. Commissioner Cope is preparing the instructions to the agents of the department, and these will be sent out within a few days.

The law went into effect on July 10, and the commissioner believes that those who have been in the business of manufacturing, selling or using "process" or "boiled" butter have now ample opportunity to know the penalties they incur if they fail to take out licenses. The agents are already making a preliminary canvass of the manufacturers, and as soon as the definite instructions are received the net will be thrown out.

The penalties for the illegal sale of renovated or process butter are similar to those in the new oleomargarine act. "The intention of the department is to see that these new laws are rigorously enforced," said Commissioner Cope. "The agents are now at work, and I anticipate that prosecutions will be begun at an early date. The provisions of the new oleomargarine law will also be enforced to the strict letter, and if the department can stop the violations they certainly will be stopped."

WANAMAKERITES DISAPPOINTED.
Politicians of all parties are interested in the meeting of the Democratic state convention which is to be held here on the 15th of August.

The attempt of the Wanamakerites of Philadelphia to have the Demo-

crats enter into a fusion deal has aroused a feeling of resentment among stalwart Democrats, and there seems to be an almost universal demand among Democrats in favor of the nomination of a straight Democratic state ticket.

Something of a sensation was created by the resignation of Charles P. Donnelly as chairman of the Democratic city committee of Philadelphia, and the election as his successor of former Governor Robert E. Pattison. Pattison's announcement that he proposes to reorganize the Democracy is a disappointment to the Wanamaker Democrats who hoped to have the Democratic state organization made an annex to the Wanamaker political bureau for the advancement of the Wanamaker political interests.

Stop and Think!

Your dwelling house is worth to you \$50 to \$100 per year since that is what it would cost you to rent one as good if you had none of your own. If it should burn, you suffer this amount of loss, consequently you insure the house to protect yourself.

Your Life
Is worth to your family \$500, \$1000 or more per year since this is the amount you produce annually for their support. It is worth the money to insure your house for your own protection, is it not also worth the money and only fair to insure your life for the protection of your family?

Money paid for Fire Insurance is spent
and there are no returns unless the property burns.

Money paid for Life Insurance is saved.

Is paid to your family with profits if you die, and paid to you with profits if you live.

MORAL—Insure your life in the Penn Mutual Life Insurance Co. of Philadelphia, which is one of the oldest and largest companies. A home company, 54 years old. Cheap, Liberal and Safe. Rates less than other legal reserve companies.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
