All friends of the institute are invited to attend. Scouten's Herald, which is nothing if not Slanderous, attacks the Jury Commissioners and President Judge in this manner:

"During Judge Sittser's ten years' service upon the bench of this county he never once participated in filling the jury wheel. He entrusted the work to the jury commissioners, who are required by law to represent each political party. The result was that the jury drawn during his term was about equally divided politically. A court house is not the place to reward henchmen and political hucksters. A prominent Machine politician of Elkland township (whose name we reserve through sympathy for him) displeased at the way one of his neighbors voted at last fall's election, sarcastically remarked to the neighbor a short time since: 'We will follow you to the jury box.' The expression would seem to indicate that the politician referred to, has, or thinks he has, a grip somewhere on the machinery of justice. Though outrageous, his declaration is significant."

By act of April 10 1867, P. Digest, page 1107, it is made the duty of the Jury Commissioners and President Judge, "to select, alternately, from the whole qualified electors of

the county, at large, a number, such as at the term of the Court of Common Pleas next preceding shall by said Court be designated, of sober, intelligent and judicious persons, to serve as jurors in the several courts of such county during the year." Whether Judge Sittser performed his duty in this respect, or not, is immaterial. It is a fact that Judge Ellwell, who was on the Bench when this act was passed, set the example, and, at much inconvenience to himself, met with the jury Commissioners and selected jurors alternately with them. The Judge who fails to do this neglects his duty. It is not true that "Jury Commissioners are required by law to represent each political party." The Judge and Jury Commissioners are alike bound by act of Assembly, and by their oath, to select "from the whole qualified electors of the county at large, the requisite number of sober, intelligent and judicious persons to serve as jurors." Political considerations have no weight.

The insinuations of the Herald, that the Judge and Jury Commissioners make the jury wheel a place "to reward henchmen and political hucksters," is not true. The list as selected for the year is recorded on the jury book, which is a public record. An examination of the whole number will show that the jurors have been impartially selected according to law, and that no henchmen or political hucksters are among them.
