## THE FRIEND OF LABOR

That is What the Republican Party Has Shown Itself.

LABOR LAWS OF FORTY YEARS

Sewing Women, Miners, Motormen Slate Pickers, Children, All Classes States. of Bread Winners, Are Protected By Laws Passed By Republican Legis-

From Our Own Correspondent.

Philadelphia, Sept. 16 .- One of the ent campaign will be a showing of the part that the Republican party has played in the life of the workingman of Pennsylvania. It is a marvelous showing.

The present reign of prosperity. shared alike by every toiler, whether it be in mill, forge, factory or on the farm, can be traced to the wise and beneficent working of national laws enacted alike for the protection of la-bor and capital. The Republican party in the nation has ever been the staunch friend of the workingman. The Republican party in the state has emphasized this by enacting laws covering a period of 35 years, for the comfort, convenience and protection of the working man and woman. There passed in Pennsylvania by Republican legislatures since the close of the Civil War that is one of the most remarkable things of its kind in existence.

Pennsylvania leads every state in the character of its labor legislation. Nearly 100 bills directly affecting the men, women and children of the state who earn their living by the sweat of their brows have been enacted in the past 35 years.

WOMAN AND THE SEWING MA-CHINE.

At the close of the Civil War industrial and commercial enterprises were in a more or less chaotic state. Thousands of widows, mothers and daughters of soldiers were compelled to eek out a living as seamstresses and dress-makers. One of the first laws passed by the legislature of 1869 was an act to exempt sewing machines belonging to seamstresses from levy and sale on execution or distress for rent.

At this time the great anthracite coal regions of the state were just be-ginning their period of development. There were practically no laws looking to the protection of human life in the mines, and it was a Republican legislature that took up this subject at this time, and during all of the suc-ceeding years has passed laws whose object has been the protection of life and limb of the toilers in the darkness of the mine.

On page 852 of the pamphlet laws of 1869 will be found one of the first mining laws enacted, entitled "An Act for the Better Regulation and Ventilation of Mines, and for the Protection of the Lives of Miners in Schuylkill County.

This was only the beginning. was followed by a general law for the safety and health of persons employed in coal mines, passed in 1870. In the same year laws were passed for the protection of miners in various counties of the state.

In 1872 an act for the better protec-tion of the wages of mechanics, miners, laborers and others was passed, as well as a bill providing "For the Establishment of a Bureau of Statistics on the Subject of Labor and for Other Purposes." (P. L. 1872, page 59.)

In all the years up to the present there have been numerous similar enand Friday of each week actments. In 1872 one of the most important measures ever enacted into a law, the record of which can be found in the pamphlet laws for 1872, on page 1,175, was the act to relieve laborers,

It was the Republican party in the legislative session of 1874 that passed a law in relation to suits for wages. preventing stay of execution on judg ments obtained for \$100 or less.

It was a Republican legislature that appropriated the first money to aid in the erection and maintenance of an anthracite hospital in Pennsylvania. This was in 1874.

England, with all its boasted civilization of centuries, is away behind Pennsylvania in the protection of women and children in their employ-ment. South Carolina today is a blot ment. South Carolina today is a blot on the map of the south because of its absence of laws prohibiting the employment of children, and its lax legislation regarding the employment of women in various industries. 1878 one of the most stringent laws enacted by any legislature related to the employment of females in hotels. taverns, saloons and eating houses or other places for the sale of intoxicat-ing and other drinks. It was a Penn-sylvania Republican legislature that passed a law prohibiting female labor in and about the coal mines and manufactories thereof, and for the preservation of the health of female employes in manufacturing, mechanical and mercantile establishments

All through the years in which the Republican party has been in power in Pennsylvania it has endeavored to see that full and ample justice has been done by employers, whether firms, cormakes kidneys and bladder right.

porations or individuals, to the citizens of the state in their employ. It was at the session of 1878 that a law was passed fixing the standard weight of a bush-el of bituminous coal. It was during the session of 1881 that the law was the session of 1881 that the law was passed securing to operatives and la-borers engaged in and about coal mines, manufactories of iron and steel and all other manufactories, the payment of their wages at regular inter-vals and in lawful money of the United

REGULAR PAY DAYS.
This is one of the most important laws ever enacted. Middle-aged men today remember the conditions that ex isted prior to the passage of this act. Employes, often of large concerns, were frequently deprived of their earnings for from 30 to 60 days; often only paid in part and frequently with script store orders or other alleged equiva-lents of value. The passage of this law made compulsory the payment to every employe, every working man and woman, the wages due him or her in lawful money of the country and at stated intervals.

Every field of labor has been covered

by Republican laws enacted by Republican legislatures. The law limiting the hours of labor of conductors, drivers and employes of horse, cable and electric railways, was passed by the legislature of 1887. The legislature of that year struck the final blow at child labor in this state by prohibiting the employment of any child under the age of 12 years by any individual, firm has been compiled within the past or company, to do any work in any week a complete list of labor laws mill, manufactory or mine, or any work pertaining thereto.

Going a step beyond the mere enact

ment of laws protecting coal miners, the assembly of 1889 enacted the law compelling the examination of miners in the anthracite region for the pur-pose of preventing the employment of

incompetent persons in those mines.

The factory law of the state which regulates the employment and provid ed for the safety of women and chil-dren in mercantile industries and manufacturing establishments, and to provide for the appointment of inspectors to enforce this law, became operative through the action of the legislature of 1889.

ALL CLASSES PROTECTED.

So the long line of beneficial laws might be continued. The toller in the tenement house, the woman in the store, the mechanic at the bench, the young woman at the cigar table, worker in the mine, the puddler in the mill, all enjoy whatever of comfort, convenience and protection they have to the wisdom of Republican legisla-tors and the efforts of Republican

Trusting Fellow Men.

No man can find the true God anywhere among the principles that actuate men who distress their fellows Rev. W. D. Downey, Methodist, Philadelphia. A Sad Disappointment.

Ineflective liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They clean the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever.

Beware of the Knife.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is not needed.
