#### Religion Enriches Life.

Religion satisfies because it enriches life. It opens the way into a new kind and that we might have it more abun-dantly. He came to widen out the cir-dantly. He came to widen out the circle of human appreciation. The pur-pose of religion thus considered is akin with the purpose of all progress. It is to teach new truth, to awaken new aspiration, to develop new possibilities, to round out more fully the natural life of man.-Rev. George Hodges, Pittsburg

# The crowned heads of every nation, The rich men, poor men and misers All join in paying tribute to DeWitt's Little Early Risers.

H. Williams, MSan Antonio, Texas, writes: Little Early Riser Pills are the best I ever used in my family. I unhesitatingly recommend them to everybody. They cure Constipation, Billiousness, Sick head-ache, Torpid, Liver, Jaundiee, malaria and all other liver troubles.

The Essence of Service. To go beyond the letter of any obligation and serve another freely, gener-ously, to give time and energy more than is expected, more than may be rightfully demanded, is the surest way to advancement. The essence of this kind of service is sacrifice.—Rev. Dr. Raymond, Schenectady, N. Y.

#### A Scientific Discovery.

Kodol does for the stomach that which is odd does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol supplies the natural juices of di-gestion and does the work of the stomach, relaxing the nervous tension, while the inflamed musclee of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood.

# The Need of Action. What we need is action. The glory will take hold and move forward.-Rev. A. C. Ward, Baptist, Atlanta.

Unconscious from Croup.

Righteousness Pays.

Highteousness Pays. There is no greater folly conceivable than that of imagining that unright-eousness pays more than righteous-ness. The history of the world is against it. Reason is against it. It is the righteousness of the world that makes unsighteourness of assuming cd makes unrighteousness of seeming ad-vantage.—Rev. Dr. Raymond, Presi-dent Union College, Schenectady, N. Y.

#### Children Poisoned

Children Peisoned. Many children are poisoned and made nervous and weak, if not killed outright, by mothers giving them cough syrups con-taining opiates. Foley's Honey and Tar-is a safe and certain remedy for coughs, croup and lung roubles, and is the only prominent cough medicine that contains no opiates or other poisons.

The many friends of G. H. Hausan, Engineer, L. E. & W. R. R., at present living in Lima, O. will be pleased to know of his recovery from threatened kidney disease. He writes: "1 was cured by us-ing Foley's Kidney Cure, which I recom-mend to all, especially trainmen who are usually similarly affeted."

#### The Present Duty.

The Present Daty. Our duty to put on the harness was never so great as today, that we may plant the religion of love on the basis of the higher philosophy of observa-tion and experience, the basis upon which must rest all permanent and all future forces of society. It is the form of religion which harmonize heat with of religion which harmonizes best with the advancing civilization of this country. It is the true republicanism of Christianity, recommending to all na-tions liberty, justice and love.—Rev. Dr. Harris, Universalist, Worcester, Mass

History Reveals Itself. In every republic that ever existed it was the aim of the rich to crush the middle class and make an aristocracy of wealth to enslave the lower classes of humanity. Water, food and fuel belong to the people, and the men that rob them of either are traitors to huinanity.-Rev. P. K. Kain, Beformed, Philadelphia.

# ZOLA'S EARLY TRIALS.

# Times When the Budding Auth Was Plunged In Misery.

Young Zola had kicked his heels for everal years in ministerial anterooms but all to no effect. Gambetta, to pre-vent Zola perishing of want, gave him the subprefecture of Castle Sarrasin. But for want of money he had to stop on the way, and for so long a time that M. de Freycinet slipped into the place. Zola during the period dealt with in "La Debacle" was in the south of France. How he then lived I cannot imagine. After things settled down in Paris in 1871 he had fallen into th blackest misery, and with a beautiful young wife. Her mother was no lon-

ger able to share her domicile and board, such as they were, with them. Zola sometimes had to take the wool but of the mattress of his bed and sell t. He escaped from death by famine it.

But he rather liked Zola and, divining in him first rate stuff, engaged him to write for the correct those puffs known as reclames papers those puffs known as reclames for books the firm had brought out. Noticing his punctuality and his reserve with other young men, Hachette promoted Zola still higher by making him his private secretary. #### Minnesota's Nickname

Minnesota has been designated as the "North Star State," of which expres-sion two or three explanations have been given-one on account of its get graphical position, another that the north star appears in its coat of arms. It has also been called the "Lake State," from the number of small lakes within its limits, and the "Gopher State," because the early settlers found these animals in such abundance that they proved a serious nuisance. Even a careful rider passing over a plain where gophers abounded was in danger of being thrown by his horse accidentally stepping into a gopher
